Coach Comments

1. Please describe what advancing to the State Tournament means for your program, your school and your players.

After being here in 2004 and being able to see first hand what this event is all about, I am extremely excited for our school community to have the chance to experience the state tournament. This is one of the things you remember for the rest of your life, no matter if you are a player, manager or fan. I am really looking forward to being part of the greatest high school tournament in the country again. Our school community has been so excited throughout this season and especially during the regional tournament. They made a big difference in our play during the regional tournament and I know they will be in stands supporting us in Lexington as well.

2. What will your team have to do in order to have a chance of winning the State Tournament?

Our players have to continue to do the things that got us here if we want to be successful in Lexington. We've been consistent in getting it done on the defensive end all year and doing a great job of playing as a team on the offensive end. They share the ball, make the extra pass and believe in each other. They play with incredible heart and pride.
