

Track and Field Adapted Program

The purpose of this program is to extend opportunities to wheelchair bound Kentucky high school students to participate in the KHSAA sponsored sport of Track and Field. We would like to explore the possibilities of including these students this year.

We plan to offer two exhibition events during the 2010-11 spring track and field season, one track event, the 400m race, and one field event, the shot put. We feel that beginning with just two events this will allow participants to sample competition as well as allow a learning period for coaches and officials.

We would like for the student athletes to participate in the regular season. Their scores would be reported to the AAASP where their points would be tracked and compiled. This procedure would allow the participants the ability to then qualify for the state exhibition events. At state we would conduct the exhibition events, and deliver medals to the winners, but team points would not be scored for any school team through those events.

The plan for the future would be to add events, as well as to add, if there is sufficient numbers to warrant, a team championship for adapted teams. The membership with AAASP program will allow for the scoring process to be compiled, help us with the training of coaches and our officials, and give us valuable insight as to how to implement and grow this worthwhile addition to our state events.

The KHSAA staff has spoken to Beverly Vaughn, the executive director and CEO of AAASP on a number of occasions. She has been very helpful and is knowledgeable. The attached document from Beverly Vaughn explains the benefits afforded to the KHSAA by joining their membership on an annual basis.

Vision

AAASP envisions a society where all children with physical disabilities can experience the rewards and satisfaction of competitive school-based sports.

Mission

AAASP's mission is to develop and support a standardized structure for school-based athletic competition to improve the well being of students with physical disabilities.

Membership

As a member of the American Association of Adapted Sports Programs, (AAASP) the Kentucky State High School Athletic Association will receive the following benefits: (Annual membership fee: \$2500)

1. Competition rules for wheelchair track and field
2. On-line coaches education that includes a video and power point presentation
3. Guidance on eligibility as it relates to a student's physical disability
4. Recommendations on how to incorporate relevant medical information on current forms
5. Assistance in communication with others about the initiative, including parents
6. Access to resources for KHSAA member-schools in regard to equipment
7. Assistance with presentations (travel costs not included with membership fee)
8. Inter-agency coordination
9. Consultation on all aspects of the program from development to implementation
10. Current information on state and national trends in this area

BOWLING REPORT

BOC MEETING OCTOBER 18, 2010

Meeting Attendees were Julian Tackett, Butch Cope, Angela Passafiume, Jack McCarthy, and John McCarthy

Meeting Date: Thursday, August 26

Findings:

1) Scheduling – current

- a) State Tournament - March 19 and 20 - this year's state date's conflict with boys state basketball.
- b) Leagues run from November to March in Louisville and in the rest of the state the leagues begin on the first day of school and end with the state tournament in March.

Scheduling – proposal

We recommend that bowling be defined as a winter sport with first possible tryout date beginning October 15 and the State Tournament being two weeks after the final basketball state tournament.

2) Alignment – current

- a) 60 schools in 5 conferences that fit into 4 regions

Alignment – proposal

We recommend that we see how many additional teams respond to a survey. Once we have our numbers we will follow the procedures to form regions.

3) State Tournament Fees – current

- a) All schools pay state dues of \$55 and each conference followed different additional fee guidelines depending on the proprietor of the alley guidelines and the coordinator of the region.
- b) Cost to run regional and state - \$10,000

State Tournament Fees – proposal

There will be no fee to participate in the state tournament. Sponsorship could be found to offset cost of the tournament as well as gate receipts.

What is the cost for schools?

Regular season matches cost \$75 to be split between the two participating schools (\$37.50 each). There may be some nominal fees for practices, such as shoe rental and lane use. Schools would need to hire and possibly pay coaches.

Regional trophies would also be an expense, which could be offset by the price of admission into the regional contest. There would be an expense to the school to send a team to the state tournament. This would be an individual sport to the KHSAA and subject to the same budgetary constraints as other individual events.

What is the cost to the KHSAA?

Currently, the cost to run the state tournament is \$8,000. The current admission rates are not at the level of the current KHSAA event admission rates. Additionally, the current management utilized most of the event income for a scholarship program. This scholarship program is a tradition in outside school bowling competitions.

We would anticipate that our cost would be \$12,000 to \$13,000 with the anticipation that we will raise the bar with this being a KHSAA state championship. We also anticipate that through possible sponsorships, programs, and novelty sales that we can offset these additional expenses.

Helpful facts:

This past season there were 60 schools or groups in the state participating in bowling.

There are 60 bowling alleys in the state in which at least three are large enough to host a state championship. (A listing of alley location is attached)

There are 24 states nationally hosting a bowling state championship.

Reasons to expand the Swimming and Diving State Meet to 32 swimmers (from the original 24 swimmers) per event:

1. **Participation** – Schools throughout the state would know that there is a greater opportunity to make it to the state meet and thus potentially increase the number of swimmers competing statewide. At the same time this would allow for additional schools/teams to be involved in the state meet. The number of athletes who could participate would increase by 33%, thus increasing the motivation of the athletes to perform in order to make it to the state meet. There is also a chance that younger swimmers may be included in the meet. Their inclusion, and the chance to move forward, may keep them involved in the sport for years to come.
2. **Fairness** – For the past ten years, there have been 5 events or more, that have one or more automatic qualifiers achieving a time in the Regional that is slower than the 24th fastest time from all of the regionals. An example, two years ago the two swimmers who competed in a swim-off for the first alternate position each had achieved times that would have been top 16, but they were not entered in the meet because of the 24 person limit, which includes 10 automatic qualifiers. These two swimmers had tied for 23rd place, but were bumped for automatic qualifiers. With 32 entrants you are *guaranteed* to have the 24 fastest times in the state in attendance.
3. **Balance** – Occasionally there are events that have 8-10-12 swimmers from a couple of regions and few from the other regions. By continuing to limit each region to 12 possible entrants per event, the additional heat of 8 swimmers will be made up of swimmers from the underrepresented regions. In addition, some pools are considered faster than others, so a region with a slower pool would then have an opportunity to qualify additional swimmers so as to compete side-by-side at the state meet.
4. **Time** – An additional heat would not add any time to the swimming qualifications as the meet is currently run very slowly to allow recovery time for the swimmers. At the same time, it will allow more rest, which adds to the quality of the swims. The extra heat would actually provide for more action/excitement at the meet and eliminate the delays between the events that we currently encounter.
5. **Income** – The added swimmers would bring with them additional spectators on Thursday and Friday adding to the income the meet now generates.

In order to make this happen, we would need to have diving prelims on Thursday, starting at 5:00 p.m. and finishing by 9:30PM. This would involve 64 divers (32 male and 32 female). These 64 divers would be cut to 32 (16 males and 16 females) that would compete during finals on Saturday.

Swimming prelims would take place, as usual, on Friday. Swimming and diving finals would take place, as usual, on Saturday.

RECOMMENDED CHANGE TO TOURNAMENT RULES FOR GOLF

Under Section V, Contestants, it be amended to include the following –

1. In the event that a student-athlete is selected to the Professional Golf Association (PGA) Junior Ryder Cup team representing the United States, such student-athlete shall automatically qualify for an optional at-large bid to our state tournament provided that either the competition, or travel to and from the competition, would require the student-athlete to miss the KHSAA Regional Golf Tournament. The at-large bid would be based on the following:
 - a. The student-athlete desires to participate in the State Tournament and is available for the published State Tournament schedule;
 - b. The student-athlete meets the criteria contained in Section IV of the Tournament rules regarding number of matches;
 - c. The student-athlete meets all KHSAA eligibility requirements;
 - d. The student-athlete plays an 18-hole round during the regular season representing his/her school at the regional golf course with that score used for state first day pairings; and
 - e. The student-athlete does not otherwise qualify for the state tournament through the regional qualifying process.
2. The addition of this at-large bid does not impact the number of students otherwise qualifying from the regional tournaments; and
3. If the at-large bid recipient is a member of a qualifying team, he/she must be included in the four/five players that count for team scoring.
