Subject:

Review of 2000-2001 Title IX Forms

Enclosed please find a copy of a review of the 2000-2001 Title IX Forms, submitted by your school. A copy of this information must be included in your permanent Title IX file at your school. In addition, you may find an attachment with corrected copies of the forms submitted by your school personnel. Please review this information so the forms can be completed accurately in the future.

Also, KHSAA Audit Staff may have requested a re-submission of some of the 2000-200l Title IX forms or need additional information on your athletic programs. Please submit this information by the date requested if this is applicable.

Remember your permanent Title IX file at the school must be kept current with information pertaining to your athletics program. Copies of all KHSAA required documents should be part of this file and are subject to Open Records requests.

Should you need any further information, please do not hesitate to call anytime.

E	B. IEr to	rors have been noted with respect to the following forms and corrected copies are being returned you for placement in your Title IX file to ensure proper submission in the future.
	Low	is in your formanent Title IX file. It forther action
	hey	urel.
C). 🗆 Tr	ne following forms were omitted and must be submitted by school representatives.
Ľ	D. 🗆 Otl	ner Recommendation and Comments:

Participation Opportunities Test One

Program	Enrollment (1)	Percentage of Total Enrollment (3)	Number of Interscholastic Participants (double and triple count) (4)	Percent of Total Participation (5)
GIRLS	115	38.0	147/06 -43	1=92.10
BOYS	188	62.0	254/13:431	92.00
Totals (2)	303	100%	431	100%

3	4,1	1%
6	5,9	%

Instructions:

*Number of 8th grade students & be	elow
used in Column 4 calculations if	
annlicable:	

- 1) Determine the total number of girls enrolled. Determine the total number of boys enrolled.
- 2) Add the total number of girls and boys enrolled to determine total enrollment.
- 3) Calculate the percentage of total enrollment that is female. Calculate the percentage of total enrollment that is male.
- Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first date of competition, and cross out the names of those who were cut from the team or quit the team prior to the first competitive event. Determine the total number of interscholastic athletics participants that are girls. In order to determine the total number of athletics participants an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (do not include club or intramural sports participants or cheerleaders). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport they participate in. If applicable, please asterisk the above notation as to how many 8th grade students & below are included.
- 5) Calculate the percentage of female participation (Column 1) based on information from (Column 4).

Calculate the percentage of male participation (Column 1) based on information from (Column 4).

Note: While	being within three	percent is not a fo	rmal complian	ce standard; if the p	ercent listed
in Column 5	is within 3% of C	olumn 3, then it pr	ovides a good t	arget within which $3 - 30 - 0$	compliance
is likely.	1	11/1-11	_	2 2 4 1	,

	frosh:		0	0	
	other:	0	0	0	
	total:	2	40-147=	34.7%	27.2
BOYS	varsity:	0	0	0	
	j.v.:	0	0	0	
	frosh:	0	0	0	
	other:	0	0	0	
	total:	0	0	0	

- 1) Calculate the number of interscholastic teams offered for girls at each competitive level (for example, varsity, junior varsity, and freshman levels).
- Calculate the number of interscholastic teams that have been added in the last five years at each competitive level.
- 3) Determine the total number of participants that are currently on the teams that were added in the last five years.
- Calculate the percentage of participants that have been added in the last five years. For example, if girls' varsity soccer (22 participants), junior varsity soccer (18 participants), junior varsity golf (8 participants), and freshman softball (15 participants) have been added in the last five years, then 63 participation opportunities have been added for girls. If the total number of female participants in the program is 300 (taken from Form T-1. Column 4), then 21% of the current opportunities (63 of 300) have been added in the last five years. Note: The total number of male/female participants should be the same as Column 4 on Summary Program Chart 1 on Form T-1.

Note: If the percentage of current female participants added in the last five years is 25% or greater, compliance with test two may be possible. If less than 25%, then compliance with test three should be analyzed. <u>CAUTION</u>: 25% is <u>not</u> a formal compliance standard. The count shall be taken on the first day of competition for students that are officially

members of the team

Signature: May

Date: 3-30-0/

Levels of Competition Test One

Team Levels	GIRLS	BOYS
Total Number of Athletics Participants in All Levels	147	284
1. Number of Varsity Teams Offered	8	9
2. Number of Participants on all Varsity Teams	94	141
3. Percentage of Total Varsity Participants By Sex	63.981.70	4,675.0%
4. Number of Junior Varsity Teams Offered	4	3
5. Number of Participants on all Junior Varsity Teams	47	113
6. Percentage of Total Junior Varsity Participants By Sex	32410.8%	39.91400.170
7. Number of Freshman Teams Offered	/	2
8. Numbers of Participants on all Freshman Teams	6	30
9. Percentage of Total Freshman Participants By Sex	4.1%5.2%	10.7945.90

- 1) Determine the number of teams at the varsity, junior varsity, and freshman levels for boys and girls. (#1, 4, 7)
- 2) Determine the total number of participants for boys and girls at each competitive level. (#2, 5, 8)
- Calculate the percentage of female and male participants at each level. (3, 6, 9)

 Example: Take the total number of female participants from the Summary Program

 Chart 1 (Form T-1) and divide it into the number of total participants for each varsity, junior varsity and freshman level. Perform the same calculation for male participants. For example, if there are a total of 300 female participants, and 180 girls are on varsity teams, 80 girls on junior varsity teams, and 40 girls on freshman teams, then 60% of girls' participation opportunities are at the varsity level (180 divided by 300), 27% are at the junior varsity level (80 divided by 300), and 13% are at the freshman level (40 divided by 300). If there are a total of 400 male participants, and 250 participate at the varsity level, 100 boys participate on junior varsity teams, and 50 boys participate on freshman teams, then 63% of boys participate at the varsity level (250 divided by 400), 25% compete at the junior varsity level (100 divided by 400), and 13% compete at the freshman level (50 divided by 400).

TITLE IX

MEMBER SCHOOLS 2000-2001 ANNUAL REPORT FORMS

Submitted to KHSAA By April 15, 2001

Kentucky High School Athletic Association

Memorandum

To:

Superintendent and Principal

From:

Louis Stout, Commissioner

Date:

December 8, 2000

Subject: Required Title IX Forms

2000-2001 School Year

The Kentucky High School Athletic Association, with the approval of the Kentucky Department of Education, has finalized the 2000-2001 Title IX plans for KHSAA member schools.

With your 1999-2000 Title IX submission, all schools have now completed the initial Title IX Audit Review. It is our opinion that this 2000-2001 update, and submission of certain forms, will adequately supplement your schools' efforts to be in compliance with Title IX.

Enclosed please find a copy of the required forms to be submitted, with appropriate signatures, to the KHSAA not later than April 15, 2001.

- 1. Form GE-19 (KHSAA Annual Verification of Title IX Procedures)
- 2. Forms T-I through T-4 (Summary Forms for Determining Students Interests and Abilities)
- 3. Form T-41 (Checklist for the Overall Interscholastic Athletics Program)
- Form T-60 (Updated Corrective Action Plan)
- Form T-63 (Summary of the Interscholastic Student Interest Survey)

2000-2001 Title IX Requirements Page 2 of 2

A re-cap of the KHSAA requirements for Title IX are as follows:

- Gender Equity Review Committees shall be in place to address local concerns and meet a minimum of three times each year with minutes of the meetings kept in the school's Title IX File. The committee shall monitor progress with regard to the school's Corrective Action Plan goals and address Title IX issues at the school.
- 2. Schools need to keep their permanent Title IX File current to include copies of all information submitted to the KHSAA.
- 3. Schools must currently conduct, a Student Interest Survey (Form T-61), on an annual basis. Student Interest Surveys must be kept on file for the previous two years and may be examined by the visiting KHSAA Audit Team. The Student Interest Surveys shall include students in Grades 9, 10 and 11. Grade 12 may be included as well. Grade 8 students may also be included if they are in middle schools that feed into the high school.

The KHSAA Audit Team members will continue to visit 20% of the membership this year to assist schools with their compliance program. The KHSAA Annual Delegate Assembly Meeting scheduled for January 9, 2001 will once again include a workshop on Title IX requirements and current issues.

The KHSAA remains available at any time to assist you with this important project.

Participation Opportunities Test Three

prog unde	rls are underrepresented in the interscholastic athletics ram, answer the following questions for girls only. If boys are represented in the interscholastic athletics program, answer ollowing questions for boys only.	GIRLS	BOYS
1.	Is there an intramural team offered in a sport not now available in the interscholastic athletics program? (YES or NO)	No	
2.	For a sport <u>not</u> currently offered, is there sufficient interest to form a viable interscholastic team based on participation on an intramural team or community recreation teams? (YES or NO)	No	
3.	For a sport currently offered, is there enough interest to form a viable team for a junior varsity, freshman, or other interscholastic level that is not currently offered? (YES or NO)	No	
4.	If you answered yes to question one, two, <u>or</u> three, are there enough other high schools in your school's normal competitive region offering the sport and competitive level of sport to constitute enough competition for a reasonable competitive schedule? (YES or NO)		pis

Signature:	Math	Date: _<	3-30-	01

Levels of Competition Test One

Team Levels	GIRLS	BOYS
Total Number of Athletics Participants in All Levels		
1. Number of Varsity Teams Offered	8	9
2. Number of Participants on all Varsity Teams	94	141
3. Percentage of Total Varsity Participants By Sex	81.7%	75.0%
4. Number of Junior Varsity Teams Offered	4	5
5. Number of Participants on all Junior Varsity Teams	47	113
6. Percentage of Total Junior Varsity Participants By Sex	40.82	60:1%
7. Number of Freshman Teams Offered	7	2
8. Numbers of Participants on all Freshman Teams	6	30
9. Percentage of Total Freshman Participants By Sex	5.2%	15.9%

- 1) Determine the number of teams at the varsity, junior varsity, and freshman levels for boys and girls. (#1, 4, 7)
- 2) Determine the total number of participants for boys and girls at each competitive level. (#2, 5, 8)
- Calculate the percentage of female and male participants at each level. (3, 6, 9)

 Example: Take the total number of female participants from the Summary Program
 Chart 1 (Form T-1) and divide it into the number of total participants for each varsity,
 junior varsity and freshman level. Perform the same calculation for male participants.

 For example, if there are a total of 300 female participants, and 180 girls are on
 varsity teams, 80 girls on junior varsity teams, and 40 girls on freshman teams, then
 60% of girls' participation opportunities are at the varsity level (180 divided by 300),
 27% are at the junior varsity level (80 divided by 300), and 13% are at the freshman
 level (40 divided by 300). If there are a total of 400 male participants, and 250
 participate at the varsity level, 100 boys participate on junior varsity teams, and 50
 boys participate on freshman teams, then 63% of boys participate at the varsity level
 (250 divided by 400), 25% compete at the junior varsity level (100 divided by 400),
 and 13% compete at the freshman level (50 divided by 400).
