D.	X	Other Recommendation and Comments: All calculations appear to be correct and report is in good order. The data indicates that the school is currently meeting the standard established in both test #2 and test #3 for provision of athletic opportunities. In relation to benefits provided a slight imbalance in spending is indicated. Data provided shows that currently the school is spending approximately \$473 per male athlete as compared to \$348 per female athlete. Athletic spending should be closely monitored by both school administrators and the Gender Equity Review Committee. School officials are also reminded that the KHSAA recommends that each Gender Equity Review Committee have student representatives.

SUMMARY PROGRAM CHART 1

KHSAA
 Form T1
 Rev. 8/03

Participation Opportunities Test One

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	328	50.2%	142	42.4%
Row 2	BOYS	326	49.8%	193	57.6%
Row 3	Totals	654	100%	335	100%

Instructions:

*Number of 8th grade students & below used in Column 3 and Column 4 calculations if applicable: 30

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of competition**, and cross out the names of those who were cut from the team or quit the team prior to the first competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8th grade students & below are included in the totals. Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with test two may be possible. If less than 25%, then compliance with test three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.

TITLE IX

CORRECTIVE ACTION PLAN

SCHOOL NAME

Estill County High School

DIRECTIONS:

1. For Column 1, indicate the intended area which needs corrective action in order to achieve gender equity. For Column 2, write the suggested change or activities that will correct the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need "corrective" action. However, the KHSAA strongly encourages compliant schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program.
3. You may copy this form as needed. Please attach corrective action plans along with audit forms and submit by April 15, 2006.

COLUMN 1 ITEM FOR CORRECTION/ IMPROVEMENT	COLUMN 2 SUGGESTED CHANGE/ ACTIVITIES	COLUMN 3 TIME TABLE FOR CORRECTIVE ACTION/ COMPLETION
1) Continue to increase Prime-Time opportunities for the Girls Basketball Program.	Add the Girls Basketball Program to our 82 Food Mart Classic, a one day event on the first Saturday in January. Continue to coordinate the Boys and Girls Basketball schedules so that the Girls program playing at least 40% of their home games on prime nights.	Continue implementation during the upcoming 2006-2007 season.
2) Increase the number of female participants in the sports we currently offer. We are currently offering the maximum number of offerings that our school can manage, but our numbers are decreasing.	We must do a better job of recruiting female participants into the current offerings at both the middle and high school levels. We will continue to promote the opportunities that we have more vigorously in our schools and community.	Implement immediately.
3) Improve the difference in spending in the Boys and Girls Programs especially in the area of travel. The difference is greater because of a Boys Basketball trip to Florida in which all expenses were paid by Boys Basketball Boosters.	Encourage one of the Girls Programs to plan and take an out of state trip on Christmas or Spring Break. Greatly scrutinize any and all overnight trips taken by the Boys Programs until the Girls Programs catch up. Work to increase the amount of Booster activity and spending in the Girls Programs. School budgets and spending are in line with the exception of Football.	Implement immediately.
