--------	-------------------------------	-------------	----------------

The following is a status report regarding the required 2009-2010 Title IX Annual Report submission of forms due into the KHSAA office by April 15, 2010. Appropriate KHSAA Audit Team personnel have reviewed these forms and the following is a summary of this review.

I. Checklist of Forms properly submitted in a satisfactory manner:

X	GE 19 (Annual Verification)	X	T-35 (Budget Expenses)
X	T-1 (Summary Program Chart 1)	X	T-36 (Budget Expenses)
X	T-2 (Summary Program Chart 2)	X	T-41 (Checklist – Overall Interscholastic Program)
X	T-3 (Summary Program Chart 3)	X	T-60 (Corrective Action Plan)
X	T-4 (Summary Program Chart 4)	X	T-63 (Interscholastic Survey Results)

II. Status

A.		2009-2010 Forms are satisfactory and no further information or action is necessary at this time.
B.	X	Errors have been noted with respect to the following forms: An omission on the T-2 form is corrected on the attachment. Please place corrected data in the schools Title IX file.
C.		The following forms were omitted and must be submitted by school representatives:
D.	X	According to the 2009-2010 data, the school appears to be meeting the standards established in: <input type="checkbox"/> Test 1 (Athletic participation is proportionate to enrollment) <input checked="" type="checkbox"/> Test 2 (History and continuing practice of program expansion) <input checked="" type="checkbox"/> Test 3 (Full and effective accommodation of interests and abilities)
E.	X	Other Recommendation and Comments: The calculations, data, and responses submitted by the school, and corrected by KHSAA representatives, indicate that the standards established in Tests 2 and 3 for the provision of athletic opportunities are being met. The responses on the school's T-3 form appear to be supported by the information from the most recent student athletic interest survey. In the area of benefits, total athletic spending could not be evaluated due to the fact that the school is newly consolidated and no financial data is available for the 2008-09 school year. Future reports will include this information and benefits can be more thoroughly evaluated. Thanks for your efforts in relation to this project.

- 6) **Note: If the percentage of current participants added in the last five years is 25% or greater for the underrepresented sex (most likely girls), compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. CAUTION: 25% is not a formal compliance standard.**

Participation Opportunities: Test One - Proportionality

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	709	49.2%	243	42%
Row 2	BOYS	731	50.8%	339	58%
Row 3	Totals	1440	100%	582	100%

Instructions:

*Number of 8th grade students & below used in Column 3 and Column 4 calculations: 83

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8th grade students & below are included in the totals.
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.
