SUMMARY PROGRAM CHART (Form T-1)

Participation Opportunities: Test One - Proportionality

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	19	39.6%	50	48.5%
Row 2	BOYS	29	60.4%	53	51.5%
Row 3	Totals	48	100%	103	100%

Instructions: *Number of 8th grade students & below used in Column 3 and Column 4 calculations: 4

- Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8th grade students & below are included in the totals.
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

- 1) For Column 1, list the number of interscholastic teams offered for girls and boys at each competitive level (varsity, junior varsity, and freshman). For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 2) For Column 2, list the number of participants at each level. For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8. Note: The totals in Row 4 for girls and in Row 8 for boys must be the same as the totals in Form T-1, Column 3, Rows 1 and 2 respectively.
- 3) For Column 3, list the number of interscholastic teams that have been added in the last five years at each competitive level. Count each team added during the 5 year period only one time. e.g. Girl's junior varsity soccer was added 3 years ago, count the team only once, not 3 times. - 4) For Column 4, list the number of participants that are currently on each level of the teams that were added in the last five years. If a team was added previously but no longer exists, there are no current participants to be added for that team. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.
- 6) **Note: If the percentage of current participants added in the last five years is 25% or greater for the underrepresented sex (most likely girls), compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. CAUTION: 25% is not a formal compliance standard.**

Greetings from KSD Athletics!

Hi CJ,

I would like to ask you if you would like to serve as Title IX Committee Co-Chairperson for our Title IX committee.

Lori Mohan used to serve on that committee as Title IX Co-Chairperson with me in the past. Since she is retired, I need other female staff to serve as the Title IX Co-Chairperson.

We will have only 3 meetings per year. We had a meeting yesterday. Your name was brought up for that position. The meeting usually takes one hour or less. Next meeting will be on Tuesday, March 8th at 4 pm at the Green and White room. Then the last meeting will be on Tuesday, March 15th at 4 pm.

You will do nothing but just be at the meeting. I will do ALL dirty work like I did in the past. Smile. You can ask Lori Mohan about this position.

Hope you will be willing to do this. You can bring your dog to the meeting! Smile.

Hope to hear from you soon.

Thanks.

The AD collected 5 replies from coaches via e-mail. Then he collected 2 more at the meeting. The AD went thru all the surveys and discussed each survey with all the committee members who were present at the meeting.

1. For Awards, There are no inequalities in Awards given. We make everything as equal as possible.

3. For Facility, there are no concerns.
4. For Schedule [Games and/or Practices], Games – no concerns.
5. For Meals or Transportation, There is one concern about the meals. One coach said that meals will always be an issue but something we have zero control over. The Café people kept on not getting the box meals ready to be picked up on TIME! The AD has reported these incidents several times to the Campus Manager and Principal about this on-going problem. The AD doesn't know if it is already addressed by the administration.
6. For Transportation, there are no concerns.
7. For Budget, there are no concerns.
8. For any suggestions for improvement – One coach said we don't need to stop at McDonald's after the games on a long road trip. This causes us to get back to KSD very, very late on school nights. Very hard on the student-athletes (especially the ones who are day students), the coaches who are teachers, and the parents who come to pick their children up. We can stop by convenience stores instead – that would save much more time. One coach said I feel that our AD is doing the best he can with what he has.

→ Corrective Action Plan: We will follow up on the last year's corrective action plan of purchasing the video camera and digital camera for Athletic Department as we didn't do anything to order the video camera and digital camera last year. We will try to order this year.

There is one corrective action plan needed for next year. The coaches would like to the backboard lights to be installed on the two glass boards in the gym. Also we need to follow the uniforms replacement chart as we need to purchase 2 new different uniforms for each sport – Boys Soccer and Girls Volleyball teams for next fall as soon as possible. We ordered 2 sets of uniforms for Boys basketball team last year and one set for Girls Volleyball team. We need to order one more set of uniform for the Girls Volleyball team soon.
