# Kentucky High School Athletic Association

To:

Superintendent, Principal, and Athletic Director

From:

Louis Stout, Commissioner

Brigid L. DeVries, Executive Assistant Commissiones

Date:

June 5, 2001

Subject:

Review of 2000-2001 Title IX Forms

Enclosed please find a copy of a review of the 2000-2001 Title IX Forms, submitted by your school. A copy of this information must be included in your permanent Title IX file at your school. In addition, you may find an attachment with corrected copies of the forms submitted by your school personnel. Please review this information so the forms can be completed accurately in the future.

Also, KHSAA Audit Staff may have requested a re-submission of some of the 2000-200l Title IX forms or need additional information on your athletic programs. Please submit this information by the date requested if this is applicable.

Remember your permanent Title IX file at the school must be kept current with information pertaining to your athletics program. Copies of all KHSAA required documents should be part of this file and are subject to Open Records requests.

Should you need any further information, please do not hesitate to call anytime.

## **SUMMARY PROGRAM CHART 1**

## Participation Opportunities Test One

Program	Enrollment (1)	Percentage of Total Enrollment (3)	Number of Interscholastic Participants (double and triple count) (4)	Percent of Total Participation (5)	
GIRLS	465	48.2 %	_69-114:2	8441.8%	40.8%
BOYS	499	51.7 %	95-168:2	¥=58.2 %	59.2%
Totals (2)	964	100%	165 284	17:1 %	
				100%	

Instructions:

- 1) Determine the total number of girls enrolled. Determine the total number of boys enrolled.
- 2) Add the total number of girls and boys enrolled to determine total enrollment.
- 3) Calculate the percentage of total enrollment that is female. Calculate the percentage of total enrollment that is male.
- Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first date of competition, and cross out the names of those who were cut from the team or quit the team prior to the first competitive event. Determine the total number of interscholastic athletics participants that are girls. In order to determine the total number of athletics participants an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (do not include club or intramural sports participants or cheerleaders). Calculate the same way for boys and girls.
- 5) Calculate the percentage of female participation (column 1) based on information from (column 4).

Calculate the percentage of male enrollment (column 1) based on information from (column 4).

Note: While being within three percent is not a forma	al compliance standard; if the percent listed
in column 5 is within 3% of column 3 then it provide	s a good target within which compliance is
likely. Dean alle	./ 1

# ACCOMMODATION OF INTERESTS AND ABILITIES SUMMARY PROGRAM CHART 4

### **Levels of Competition Test One**

Team Levels		
Total Number of Athletics Participants in All Levels	GIRLS	BOYS
1. Number of Varsity Teams Offered	6	7
2. Number of Participants on all Varsity Teams	69	96
3. Percentage of Total Varsity Participants By Sex	100 % 59.5%	100% 57%
4. Total Number of Male Participants At All Levels	116	96 168
5. Number of Junior Varsity Teams Offered	3	5
6. Number of Participants on all Junior Varsity Teams	32	44
7. Percentage of Total Junior Varsity Participants By Sex	46.3 7 27.6%	45.8 7 - 26.2 7
8. Number of Freshman Teams Offered	1	2
9. Numbers of Participants on all Freshman Teams	15	28
10. Percentage of Total Freshman Participants By Sex	21.17 12.9%	29.2% 14.7%

- 1) Determine the number of teams at the varsity, junior varsity, and freshman levels for boys and girls. (#1, 5, 8)
- 2) Determine the total number of participants for boys and girls at each competitive level. (#2, 6, 9)
- Calculate the percentage of female and male participants at each level. (3, 6, 9) Example: Take the total number of female participants from the Summary Program Chart 1 (form T-1) and divide it into the number of total participants for each level, varsity, junior varsity and freshman levels. Perform the same calculation for male participants. For example, if there are a total of 300 female participants, and 180 girls are on varsity teams, 80 girls on junior varsity teams, and 40 girls on freshman teams, then 60% of girls' participation opportunities are at the varsity level (180 divided by 300), 27% are at the junior varsity level (80 divided by 300), and 13% are at the freshman level (40 divided by 300). If there are a total of 400 male participants, and 250 participate at the varsity level, 100 boys participate on junior varsity teams, and 50 boys participate on freshman teams, then 63% of boys participate at the varsity level (250 divided by 400), 25% compete at the junior varsity level (100 divided by 400), and 13% compete at the freshman level (50 divided by 400).
