Subject:

Review of 2001-2002 Title IX Forms

School:

Fern Creek High School

The KHSAA Audit Staff has received your submission of the 2001-2002 KHSAA required Title IX forms.

The information will be reviewed by appropriate Title IX Audit Staff and you will be notified if any additional information is necessary.

Remember your permanent Title IX file at the school must be kept current with information pertaining to your athletics program. Copies of the 2001-2002 KHSAA required documents must be kept as part of this file and are subject to Open Records Requests.

If we could be of further assistance, please do not hesitate to call anytime.

Subject:

2001-2002 Annual Report Forms Submission

School:

Fern Creek High School

Enclosed please find a copy of Form T-65, The 2001-2002 Annual Report Forms Checklist. In addition, you may find an attachment with corrected copies of the forms submitted by your school personnel. Please review this information so the forms can be completed accurately in the future. Also, KHSAA Audit Staff may have requested a re-submission of some of the 2001-2002 Annual Report Forms or need additional information on your athletic programs. Please submit this information by the date requested if this is applicable. Copies and all KHSAA Title IX documents must be kept current and included in your permanent Title IX File at the school. All documents are subject to Open Records Requests.

il L. D. Vines

Should you need any further information, please do not hesitate to call anytime.

Re: 2002 Title IX Forms Submission

School	Fern Creek	Reviewed by	Garv Lawson
1		L	1

The following is a status report regarding the required 2001 - 2002 Title IX submission of forms due in to the KHSAA office by April 15, 2002. Appropriate audit personnel have reviewed these forms and the following is a summary of this review.

1. Checklist of Forms properly submitted in a satisfactory manner:

X	GE 19 (Annual Verification)	X	T-35 (Budget Expenses)
X	T-1 (Summary Program Chart 1)	区	T-36 (Budget Expenses)
	T-2 (Summary Program Chart 2)	X	T-41 (Checklist – Overall Interscholastic Program)
X	T-3 (Summary Program Chart 3)		T-60 (Corrective Action Plan)
	T-4 (Summary Program Chart 4)	X	T-63 (Interscholastic Survey Results)

II. Status

A.	2001 – 2002 Forms are satisfactory and no further information or action is necessary at this time.
B. ⊠	Errors have been noted with respect to the following forms and corrected copies are being returned to you for placement in your Title IX file to ensure proper submission in the future. The number of participants shown on Form T-2 does not equal the number shown on Forms T-1 and T-4. Therefore, percentages in column #5 are also incorrect. Please correct this data and place it in your Title IX File. The number of participants shown on Form T-4 for varsity, junior varsity, and freshman teams does not total to the same numbers shown on Forms T-1 and T-4. Please correct these forms and place it in your Title IX File. Your Corrective Action Plan, Form T-60, is too vague and not specific enough. The projects listed under "Suggested Changes" does not specify what teams or facilities you are making changes for. Please correct this information and place it in your Title IX File.
C.	The following forms were omitted and must be submitted by school representatives.
D.	Other Recommendation and Comments:

KHSAA Form T2 Rev. 07/01

articipation Opportunities Test Two

			Column 1	Column 2	Column 3	Column 4	Column 5
Program			Number of Teams Currently Offered	Number of Participants	Number of Teams Added in Last Five Years	Number of Participants Added in Last Five Years	Percent of Total Participation By Sex Added in Last 5 Years
GIRLS	Row 1	varsity:	8	117	1	215	13%
	Row 2	j.v.:	3	88	D	ø	D
	Row 3	frosh:	3	32	2	≈ao	63%
	Row 4	total:	14	(237)	3	≈ 35	1590
BOYS	Row 5	varsity:	9	191	Ð	0	0
	Row 6	j.v.:	3	154	. &	Ø	8/
	Row 7	frosh:	3	67	â	≈ 30	45%/
	Row 8	total:	13 /	412	3	≈ 30	796

List the number of interscholastic teams offered for girls and boys at each competitive level (for example, varsity, junior varsity, and freshman levels). Total each of the entries in Column 1 into Row 4, Column 1 and Row 8, Column 1.

2) List the number of interscholastic teams that have been added in the last five years at each competitive level. Total each of the entries in Column 3 into Row 4, Column 3 and Row 8, Column 3.

3) List the number of participants that are currently on each level of the teams that were added in the last five years. Total each of the entries in Column 2 into Row 4, Column 2 for girls and Row 8, Column 2 for boys. If a team was added previously but no longer exists, there are no current participants to be added for that team.

- 4) List the number of participants added in the last 5 years. Total each of the entries made in Column 4 into Row 4, Column 4 for girls and Row 8, Column 4 for boys.
- 5) Calculate the percentage of participants that have been added in the last five years (Column 4 divided by Column 2 on each line). For example, if girls' varsity soccer (22 participants), junior varsity soccer (18 participants), junior varsity golf (8 participants), and freshman softball (15 participants) have been added in the last five years, then 63 participation opportunities have been added for girls. If the total number of female participants in the program is 96 (taken from Form T-1, Row 1, Column 3), then 65.6% of the current opportunities (63 of 96) have been added in the last five years. Perform similar calculations for male participants.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with test two may be possible. If less than 25%, then compliance with test three should be analyzed. <u>CAUTION</u>: 25% is <u>not</u> a formal compliance standard.

Participation Opportunities Test One

	Total and the control of the control	(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	567	52%	117	38 %
Row 2	BOYS	527	48%	191	6270
Row 3	Totals	1,094	100%	308	100%

~				
lm	stm	ıcti	nn	G.

*Number of 8th grade stud	ents & below used in Column 4
calculations if applicable:	12

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of competition**, and cross out the names of those who were cut from the team or quit the team prior to the first competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom sqads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8th grade students & below are included. Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.)
 Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.)
 Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is <u>not</u> a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

2001-2002 INTERSCHOLASTIC ATHLETICS SURVEY
Summary Of Student Responses
School Name: Fern Creek Traditional H.S.
School Enrollment: 1,094
Date: April 11, 2002
Completed By: Tim Amshoff
Instructions:
1. Summarize the Student Athletics Interest Surveys Form T-61 by listing the total number
of responses on the line next to each sport.
2. Under the Other Category please provide a listing of the sports as well as the number of
students who are interested in participating.
3. Please sign and date the Summary Form (T-63) and mail the Summary Form only to the
KHSAA by April 15, 2002. Do not mail the student surveys (Form T-61). However, the
Forms should be maintained in your files in the event they are requested subsequently.
