	Row 7	frosh:	2	22	0	0	0
	Row 8	total:	17	231	0	0	0

- 1) List the number of interscholastic teams offered for girls and boys at each competitive level (for example, varsity, junior varsity, and freshman levels). Total each of the entries in Column 1 into Row 4, Column 1 and Row 8, Column 1.
- 2) List the number of interscholastic teams that have been added in the last five years at each competitive level. Total each of the entries in Column 3 into Row 4, Column 3 and Row 8, Column 3.
- 3) List the number of participants that are currently on each level of the teams that were added in the last five years. Total each of the entries in Column 2 into Row 4, Column 2 for girls and Row 8, Column 2 for boys. If a team was added previously but no longer exists, there are no current participants to be added for that team.
- 4) List the number of participants added in the last 5 years. Total each of the entries made in Column 4 into Row 4, Column 4 for girls and Row 8, Column 4 for boys.
- 5) Calculate the percentage of participants that have been added in the last five years (Column 4 divided by Column 2 on each line). For example, if girls' varsity soccer (22 participants), junior varsity soccer (18 participants), junior varsity golf (8 participants), and freshman softball (15 participants) have been added in the last five years, then 63 participation opportunities have been added for girls. If the total number of female participants in the program is 96 (taken from Form T-1, Row 1, Column 3), then 65.6% of the current opportunities (63 of 96) have been added in the last five years. Perform similar calculations for male participants.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with test two may be possible. If less than 25%, then compliance with test three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.

Dear Commissioner Stout,

Enclosed please find the Title IX Gender Equity Report for Holmes High School. We have also included the information requested regarding the selection of cheerleaders and prime time basketball evenings.

Cheerleading: We are providing you with a copy of our letter to the parents of all students interested in try-out for the 2002 – 2003 school year. There will be one varsity squad which will participate in all varsity football, varsity boys basketball and varsity girls basketball home games.

Prime Time Basketball scheduling: Attached is a copy of the 2002 – 2003 varsity girls and varsity boys basketball schedules. Our boys varsity team is scheduled to play 12 games (including tournaments) on prime time days. Our girls varsity team is scheduled to play 8 Games (including tournaments) on prime time days.

If you have any questions/concerns or need more detailed information. Please feel free to contact our office at (859) 655-9545 ext. 6360.

Sincerely

Ron Madrick

We would like to introduce ourselves to you. We both have been coaching at Holmes High School for a number of years. Cheerleading has grown and developed into a sport of its own. More and more physical ability, skill and competition have become prevalent. In order to master this, a combination squad needs to be instituted. This year we will have one squad on the varsity level. The squad will cheer all football games and both girls' and boys' home basketball games. We have included in this packet a list of KHSAA requirements, a list of responsibilities, dates, and expenses necessary to achieve our goal. Your child has expressed an interest in becoming a "Cheerleader" athlete. We would like for you and your child to look this packet over before your child commits to trying -out. Requirements are listed and must be adhered to.

This year your child will become involved in a conditioning and weightlifting program, attend gymnastic classes, and be involved in fundraising. There are some expenses; however, fundraising may offset most of these. We do not want cheerleading to be burdensome for anyone. Conditioning will begin early this summer and gymnastics will begin in late July or early August.

If you have any questions concerning our Cheerleading program, please feel free to call us. We will be glad to speak with you and clarify any area of question. We look forward to working together with you and your child to raise Holmes High School's Cheerleading program to the next level. Please sign the attached Parent Permission form to allow your child to participate.

Sincerely Yours,

Tonya Lovensheimer

Participation Opportunities Test One

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	483	48.7%	262	53.1%
Row 2	BOYS	508	51.3%	231	46.9%
Row 3	Totals	991	100%	493	100%

Instructions:

*Number of 8th grade students & below used in Column 4 calculations if applicable: _____

- Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of competition**, and cross out the names of those who were cut from the team or quit the team prior to the first competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8th grade students & below are included. Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

- 1) List the number of interscholastic teams offered for girls and boys at each competitive level (for example, varsity, junior varsity, and freshman levels). Total each of the entries in Column 1 into Row 4, Column 1 and Row 8, Column 1.
- 2) List the number of interscholastic teams that have been added in the last five years at each competitive level. Total each of the entries in Column 3 into Row 4, Column 3 and Row 8, Column 3.
- 3) List the number of participants that are currently on each level of the teams that were added in the last five years. Total each of the entries in Column 2 into Row 4, Column 2 for girls and Row 8, Column 2 for boys. If a team was added previously but no longer exists, there are no current participants to be added for that team.
- 4) List the number of participants added in the last 5 years. Total each of the entries made in Column 4 into Row 4, Column 4 for girls and Row 8, Column 4 for boys.
- 5) Calculate the percentage of participants that have been added in the last five years (Column 4 divided by Column 2 on each line). For example, if girls' varsity soccer (22 participants), junior varsity soccer (18 participants), junior varsity golf (8 participants), and freshman softball (15 participants) have been added in the last five years, then 63 participation opportunities have been added for girls. If the total number of female participants in the program is 96 (taken from Form T-1, Row 1, Column 3), then 65.6% of the current opportunities (63 of 96) have been added in the last five years. Perform similar calculations for male participants.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with test two may be possible. If less than 25%, then compliance with test three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.
