 Form T1
 Rev. 07/01

Participation Opportunities Test One

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	491	50.31%	224	42%
Row 2	BOYS	485	49.69%	310	58%
Row 3	Totals	976	100%	534	100%

Instructions:

*Number of 8th grade students & below used in Column 4 calculations if applicable: 49 Players

- Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of competition**, and cross out the names of those who were cut from the team or quit the team prior to the first competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8th grade students & below are included. Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

- 1) List the number of interscholastic teams offered for girls and boys at each competitive level (for example, varsity, junior varsity, and freshman levels). Total each of the entries in Column 1 into Row 4, Column 1 and Row 8, Column 1.
- 2) List the number of interscholastic teams that have been added in the last five years at each competitive level. Total each of the entries in Column 3 into Row 4, Column 3 and Row 8, Column 3.
- 3) List the number of participants that are currently on each level of the teams that were added in the last five years. Total each of the entries in Column 2 into Row 4, Column 2 for girls and Row 8, Column 2 for boys. If a team was added previously but no longer exists, there are no current participants to be added for that team.
- 4) List the number of participants added in the last 5 years . Total each of the entries made in Column 4 into Row 4, Column 4 for girls and Row 8, Column 4 for boys.
- 5) Calculate the percentage of participants that have been added in the last five years (Column 4 divided by Column 2 on each line). For example, if girls' varsity soccer (22 participants), junior varsity soccer (18 participants), junior varsity golf (8 participants), and freshman softball (15 participants) have been added in the last five years, then 63 participation opportunities have been added for girls. If the total number of female participants in the program is 96 (taken from Form T-1, Row 1, Column 3), then 65.6% of the current opportunities (63 of 96) have been added in the last five years. Perform similar calculations for male participants.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with test two may be possible. If less than 25%, then compliance with test three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.

ATHLETICS AT PULASKI COUNTY HIGH SCHOOL

Are you currently participating in athletics at Pulaski County High School?

Yes _____ No _____

If the answer is yes, please list the sports(s) that you are participating in

Fall: _____

Winter: _____

Spring: _____

If the answer is no, is there a particular reason you are not participating?

_____ **A. My favorite sport is not offered at Pulaski County.**

List your favorite sport _____

_____ **B. I simply have no interest in athletics.**

Comments or other reasons why you do not participate:

As a student at Pulaski County High School we want very much to offer all of you the opportunity to participate and/or be involved with the wonderful world of athletics. In order for us to keep up to date with the current student interests we need to know what your particular interests are. Please take a few serious moments and complete the rest of this survey so that we can make every effort to offer the athletic programs that our student's desire.

The Kentucky High School Athletic Association has divided each school year into three distinct sports season (Fall, Winter and Spring). During each of the seasons a particular number of sports are offered with a State Championship offered in each of the sports in that particular season. At this time look at the sports offered during each season and place a 1 beside the sport you would like best to participate in. **DO NOT PICK MORE THAN 1 FOR A SEASON** (it is very hard to participate in 2 sports during a particular season. It is nearly impossible to participate in more than 2 in a particular season. If you do not like any of the sports offered in a particular season simply put a 1 in the Not Interested Blank.

STUDENT ASSISTANTS IN PCHS ATHLETICS

At times some of you do not desire and/or ability to participate as an athlete, but you may desire to be a manager, statistician or student trainer. Some of you want to learn about the video and computer aspects of athletics. If you are not one that wants to be a physical part of the athletic program but would be interested in being a student assistant, please indicate the sports you might be interested in assisting.

ATHLETICS AT PULASKI COUNTY HIGH SCHOOL

In the very near future you will be a student at Pulaski County High School and we would like to see all of you involved in the wonderful world of athletics. In order for us to be better prepared for your arrival at PCHS we need to know your particular interests. Please complete the rest of this survey so that we can make every effort to offer the athletic programs that our student's desire.

The Kentucky High School Athletic Association has divided each school year into three distinct sports seasons (Fall, Winter and Spring). During each of the seasons a particular number of sports are offered with a State Championship offered in each of the sports in that particular season. At this time look at the sports offered during each season and place a 1 beside the sport you would like best to participate in and a 2 beside your second choice for that season. **DO NOT PICK MORE THAN 2 FOR A SEASON** (it is very hard to participate in 2 sports during a particular season but impossible to do more than 2). If you do not like any of the sports offered in a particular season simply put a 1 in the Not Interested Blank.

CORRECTIVE ACTION PLAN

To complete this form, indicate the intended area which needs corrective action, the suggested change and time table for implementation. You may copy this form as needed. Please attach corrective action plans along with audit forms and submit by April 15, 2002.

ITEM FOR CORRECTION	SUGGESTED CHANGE	TIME TABLE FOR CORRECTIVE ACTION
LOCKER ROOMS	As was mentioned in our original plan, we had major problems in this area with 4 dressing rooms for men and 1 for women. Last year we built new dressing rooms for the soccer and softball teams that brought us closer to compliance that we are striving for. As you can see by the diagrams I have enclosed the School Board has already started construction on Gym renovation that will provide dressing rooms for Boys and Girls Tennis, Boys and Girls Basketball, Girls Volleyball and other activities such as Dance Teams and Cheerleaders. In the same construction plan will be a field house that will house dressing rooms for Football and Boys and Girls Track and Cross-Country.	The construction time table says that this project will be Complete by the start of the 2002 - 2003 school, however I feel that a target date of January 2003 is more than likely the opening dates for the renovation and the new field house.
Publicity	The office of the Athletic Director took over the task of printing sports schedules. All Fall sports and combined in the fall sports schedule, the same goes for winter and spring sports. In regard to game programs we only print for Football and Boys/Girls Basketball. The Football program and Girls Basketball were very low grade and of poor quality. The Boys Basketball team was a very classy program in living glossy color. A new printer was found with a much better rate that produced a big difference for the boys program this year.	Starting in 2002 - 2003 the three major printing jobs will be handled by the same company. Part of the contract will be that gender equity must be considered with all publications.

STUDENT SURVEYS

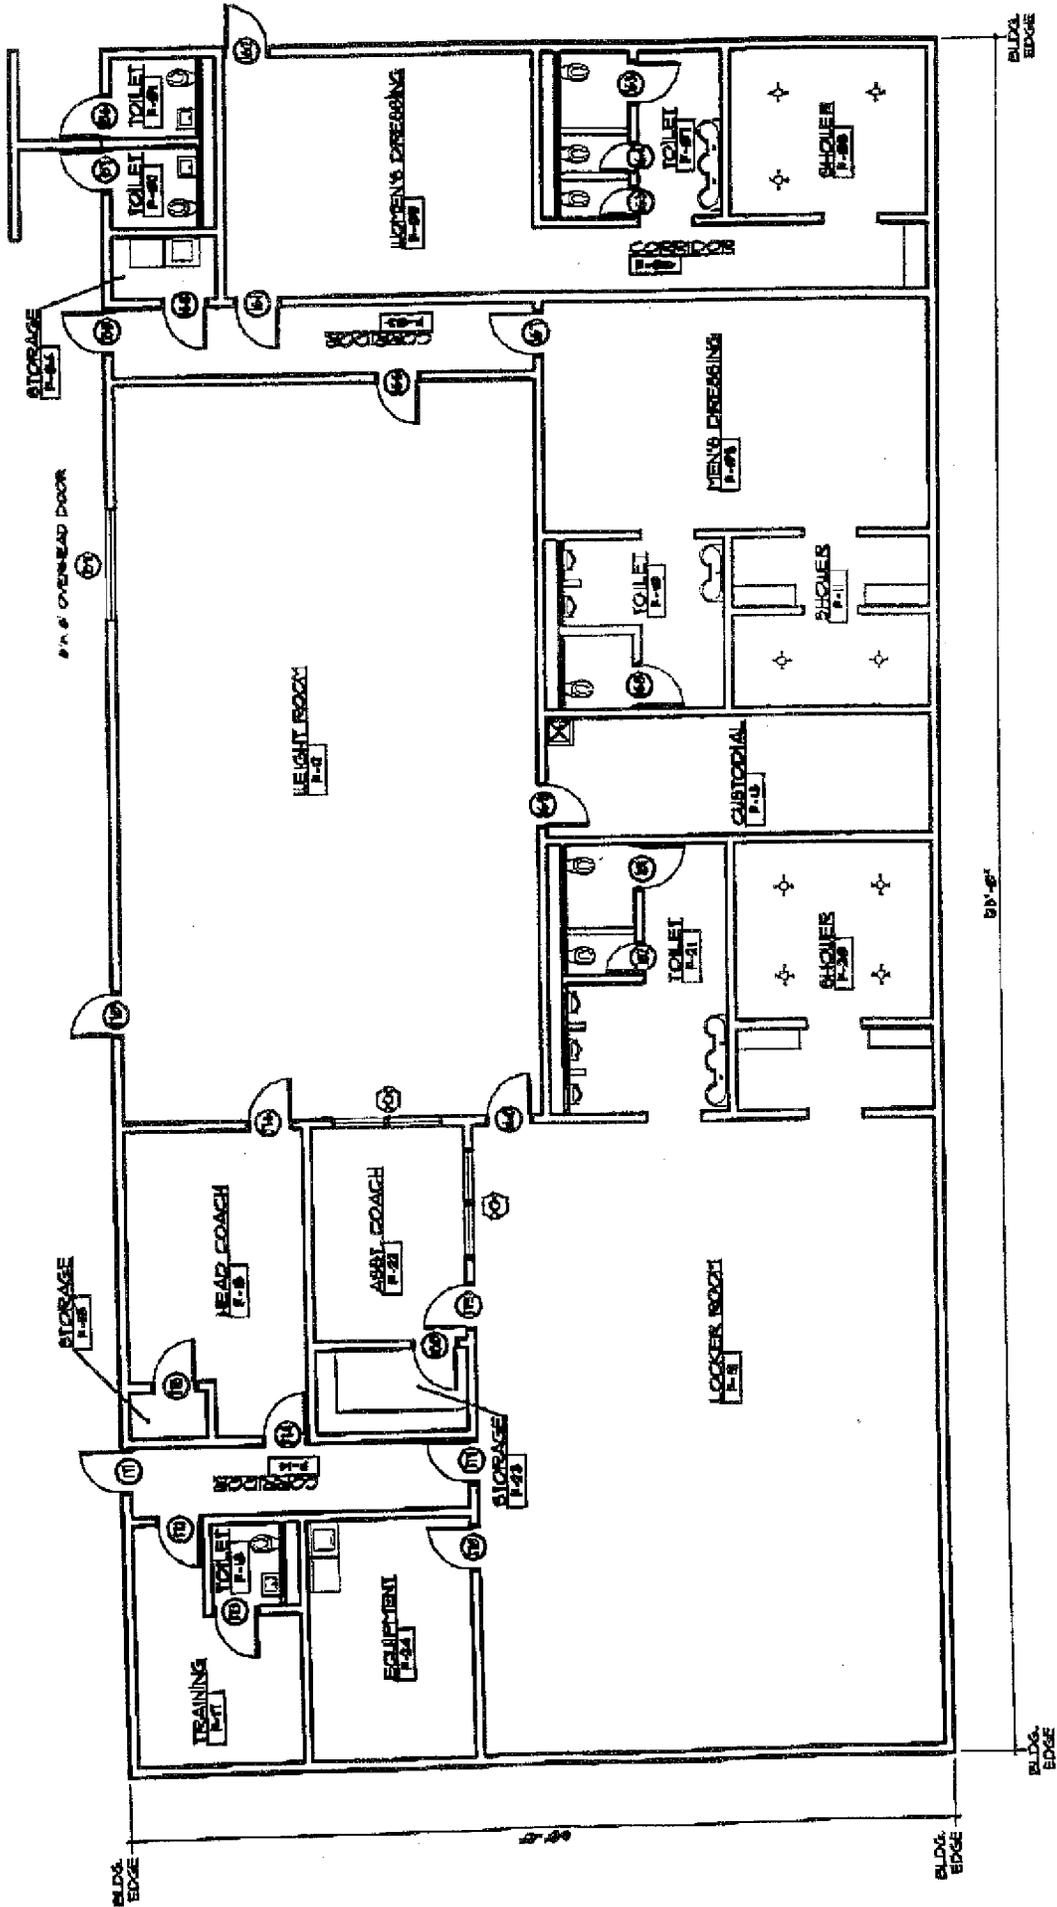

The only KHSAAA sports that Pulaski County does not offer is Field Hockey, Gymnastics and Wrestling. Not enough student interest has been generated for the sport of Field Hockey while the interest seems to be growing for Gymnastics and Wrestling. At the present time in our location of South Central Kentucky travel would be a major problem for us in all three of the sports that we do not offer.

In the sports of wrestling and gymnastics we offer a portion of these two sports, with the limited equipment we have in each. The main purpose here is to let the students know what the real sport of wrestling is as compared to what they watch on television.

- An explanation (status report) is needed for all areas identified previously as items for correction as well as all areas currently identified as items for correction. This form shall be typed.
