SUBJECT: Annual Title IX Self-Audit Report Forms
2005-2006 School Year

Enclosed are the forms that are to be used in compiling the data required to be submitted by your school in your Annual Title IX Self-Audit. Please review the forms thoroughly since minor changes have been made from last year. As you know from previous Annual Self-Audit Report submissions over the last six years, it is due to the Kentucky High School Athletic Association no later than April 15th, 2006.

For your annual convenience, these report forms may also be found on the KHSAA website, www.khsaa.org/titleix.

Please remember that the Student Interest Survey is required in this year's report, and is included in this packet. Please administer internally the Student Survey (using Form T-61). However, submit with your April 15, 2006 Report only the Summary (Form T-63). Also, please remember that now that we are surveying our students only every other year, the number of your Survey responses should equal at least 80% of your enrollment.

If you have any questions, feel free to contact us.

		Column 1	Column 2	Column 3	Column 4
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	429	52.1%	96	36.5%
Row 2	BOYS	394	47.9%	167	63.5%
Row 3	Totals	823	100%	263	100%

Instructions:

*Number of 8th grade students & below used in Column 3 and Column 4 calculations if applicable: _____

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first date of competition, and cross out the names of those who were cut from the team or quit the team prior to the first competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (do not include club or intramural sports participants, cheerleaders, dance teams or pom squads). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8th grade students & below are included. Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3. Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3).
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.
