RE: Title Nine Meeting Notes from March 8, 2006

CC: Jackie Day & Bill Melton

I. Billy Lange shared the results of the coaches surveys on Title Nine from all coaches.

Only concerns noted were:

Volleyball

- would like to attend Mason-Dixon Volleyball
- need new balls and court
- need live judges for meets

Girls Track

- want to participate in Bluegrass and Mason-Dixon Track Meets

Boys Soccer

- no concerns identified

Cheerleaders

- want more gym time
- would like an assistant coach due to the 12 – 1 ratio of cheerleaders to coach

Girls Basketball

- no concerns identified

Boys Basketball

- no concerns identified

Boys Track

- no concerns identified

Swim Team

- no concerns identified

- II. Lori Mohan presented the results of the student surveys:
- High School  
35 surveys submitted (from a total of 40 students)
  - Middle School  
24 surveys submitted (from a total of 38 students)  
9 surveys (from a total of 13 8<sup>th</sup> graders)
  - Boys Basketball, Girls Softball, and Football numbers merit same consideration for a new team, committee wanted the surveys to be re-counted to make sure the following students information would not be counted:
    - a. over age students
    - b. students who were graduating
    - c. students who were transferring
    - d. only 8<sup>th</sup> graders for football who would be Freshmen next year
- III. Possible Corrective Action Plan was discussed.
- All of the coaches' surveys were discussed and none of the concerns were decided to be Title Nine violations.
  - Student surveys were to be re-counted as mentioned, and teams would be considered if numbers merited consideration to start a new team; also in the Fall after school begins another could be made to determine interest for softball and baseball (football would be too late, re-count indicated no new teams should be added).
  - Due to Boys Basketball Program not going through the school and purchased t-shirts for the team, shirts will be ordered for the girls team also.
  - Committee wanted the Girls Basketball Coach to survey the girls basketball team to see interest as prime time play. (See attached)
  - Girls Basketball will play ½ games early time and ½ late with the boys team

Paul

After surveying the girls basketball team the majority of the girls would prefer to have ½ early games and ½ late games.

5 girls preferred ½ and ½. 2 girls it did not matter.

		(Column 1)	(Column 2)	(Column 3)	(Column 4)

Row 1	GIRLS	19	47.5	33	51
Row 2	BOYS	21	52.5	32	49
Row 3	Totals	40	100%	65	100%

Instructions:

\*Number of 8<sup>th</sup> grade students & below used in Column 3 and Column 4 calculations if applicable: \_\_\_\_\_

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of competition**, and cross out the names of those who were cut from the team or quit the team prior to the first competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. \* In addition, should 8<sup>th</sup> grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8<sup>th</sup> grade students & below are included in the totals. Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

- 4) For Column 4, list the number of participants that are currently on each level of the teams that were added in the last five years. If a team was added previously but no longer exists, there are no current participants to be added for that team. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with test two may be possible. If less than 25%, then compliance with test three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.

CORRECTIVE ACTION PLAN

DIRECTIONS:

1. For Column 1, indicate the intended area which needs corrective action in order to achieve gender equity. For Column 2, write the suggested change or activities that will correct the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need "corrective" action. However, the KHSAA strongly encourages compliant schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program.
3. You may copy this form as needed. Please attach corrective action plans along with audit forms and submit by April 15, 2006.
