 Subject: KSD- Football

I am getting a lot of encouragement from Parents, Alumni and Students to begin football this next school year

Our Title Nine survey showed 17 boys want football (also one girl), 4 boys golf, 3 boys soccer, 3 would not participate out of a total of 27 males who could participate this Fall.

I do not think we have enough for 11 man football, due to some of these boys who have signed up, have never participated in any of our sports and I doubt that will stay with football. However 8 man football is a possibility. Could you please give your

Advise on the following questions:

- In your opinion, how many players are needed to begin an eleven man or an eight man team?
- Are there any 8 man teams left in Ky. From 5 years ago when we played them?
- Is 8 man football a sanctioned sport in Ky by the KSAA or only 11 man?
- If we started a team would the catastrophic insurance cover KSD student-athletes for 8 man?
- Due to travel costs for Schools for the Deaf, we would need to play perhaps two area friends JV teams in 8 man, is this permitted?

Some parents who live in a local county and are from their school system and live at home say they will be able to play for their home school. I told them "NO" because they would have to be full time students at that school not at ours. Also this

Sets up a inequity for students who could not travel and play for their school due to the long distance. They said they are appealing this decision to the KHSAA. Was my answer correct?

Thank You for information on these questions!

Answers on Pitone from Julian Treget

- Player to participate - 11 man = 20, 8-man = 15 (ABSOLUTE MINIMUM)
- Insurance will cover 11 man or 8 man
- KSD would not have to participate in District-KHSAA
- High School boys would have to be full time students at other school to play football

Participation Opportunities Test One

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	25	51.1	32	43.2
Row 2	BOYS	24	48.9	42	56.8
Row 3	Totals	49	100%	74	100%

Instructions:

*Number of 8th grade students & below used in Column 3 and Column 4 calculations if applicable: **11 (5 girls & 6 boys)**

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8th grade students & below are included in the totals.

Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.

- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

- 1) For Column 1, list the number of interscholastic teams offered for girls and boys at each competitive level (varsity, junior varsity, and freshman). For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 2) For Column 2, list the number of participants at each level. For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8. **Note:** The totals in Row 4 for girls and in Row 8 for boys must be the same as the totals in Form T-1, Column 3, Rows 1 and 2 respectively.
- 3) For Column 3, list the number of interscholastic teams that have been added in the last five years at each competitive level. Count each team added during the 5 year period only one time. e.g. Girl's junior varsity soccer was added 3 years ago, count the team only once, not 3 times. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 4) For Column 4, list the number of participants that are currently on each level of the teams that were added in the last five years. If a team was added previously but no longer exists, there are no current participants to be added for that team. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.

RE: Kentucky Classic Schedule Changes

Recently I attended a KHSAA Title Nine Conference and as a result, you can see the attached KHSAA guidelines and also the *revised* Kentucky Classic Game Schedule.

In Kentucky, "prime time" is games that are played on Fridays and Saturdays. The rule is for at least 40% of the games must be the girls' team receiving the prime time to play the game. Both Friday and Saturday nights, the boys will play first and the girls will play second. On Saturday afternoon and on KSD Homecoming, the girls will play first and boys will play second, which results in both teams receiving 50% of the "prime time" slots.

Thank you for your understanding in this matter.

SUBJECT: Title IX
 Girls' Basketball "Prime Date/Prime Time"

The Kentucky High School Athletic Association Board of Control, at its January 2006 meeting, established a membership-wide policy with regard to future activities regarding girl's high school basketball and its relationship to achieving Title IX and Gender Equity compliance.

The KHSAA policy is as follows:

Each year, beginning in school year 2006-07, girl's basketball teams must schedule at least 40 percent of their regular season home basketball contests on prime dates (Friday night, Saturday or Sunday). This girl's percentage must be accomplished irrespective of the boy's home game "prime date" percentages. If schools schedule boy/girl "prime date" double-headers, then girl's basketball starting game times must be the second scheduled game of the double-header as follows:

One Double-Header	(Optional As To Which Team Plays Second)
Two Double-Headers	(Girls Game Must Be Second At Least Once)
Three Double-Headers	(Girls Game Must Be Second At Least Once)
Four Double-Headers	(Girls Game Must Be Second At Least Twice)
Five Double-Headers	(Girls Game Must Be Second At Least Twice)
Six Double-Headers	(Girls Game Must Be Second At Least Three Times)
Seven Double-Headers	(Girls Game Must Be Second At Least Three Times)
Eight Double-Headers	(Girls Game Must Be Second At Least Four Times)
Nine Double-Headers	(Girls Game Must Be Second At Least Four Times)
Ten Double-Headers	(Girls Game Must Be Second At Least Five Times)
