II. Status

A.	<input checked="" type="checkbox"/>	2007 – 2008 Forms are satisfactory and no further information or action is necessary at this time.
B.		Errors have been noted with respect to the following forms:
C.		The following forms were omitted and must be submitted by school representatives:
D.	<input checked="" type="checkbox"/>	According to the 2007-2008 data, the school appears to be meeting the standards established in: <input type="checkbox"/> Test 1 (Athletic participation is proportionate to enrollment) <input type="checkbox"/> Test 2 (History and continuing practice of program expansion) <input checked="" type="checkbox"/> Test 3 (Full and effective accommodation of interests and abilities)
E.	<input checked="" type="checkbox"/>	Other Recommendation and Comments: 1. Spending is way out of line due to football facility. Keep monitoring spending and moving in the direction of \$100 or less difference in spending for male athletes and female athletes. The Gender Equity Committee should begin review of budgets in the fall. 2. Excellent explanation of facility plans. 3. Thank you for your report.

## To Whom It May Concern:

I have enclosed the Title IX report for Graves County High School. This is my first year as athletic director at Graves County High School, and we have made conscious efforts to increase the quality of the facilities and teams for all of our sports, and to give focused attention to every sport, not just basketball and football.

I hope you will examine the total document to see the improvements that we are making, because some bottom line figures may seem as if we are going backwards. However, many of our disparities can be explained in a few statements. First, we opened our own football stadium this fall. Part of the expense will show in this 06-07 report; the remainder will show in the 07-08 report. We have played in shared facilities with Mayfield High School since our school was built in 1985. This makes our per male athlete expense look much higher, when apart from those stadium expenses, is actually \$160 higher per female athlete (total expenditures).

Our disparity in numbers of athletes can also be found in a single source – the disparity in the numbers of volleyball participants versus football participants. If those two sports are removed, the numbers are almost exactly equal. We are encouraged that our football team is growing and becoming more competitive, but our volleyball has lagged behind that growth. We do now have a certified staff person serving as head volleyball coach, and our open gyms with middle school students have indicated that we may more than double our number of participants in the volleyball program next year. We hope to grow volleyball interest through intramurals at the middle school level and believe that we will see those numbers continue to grow. We have scheduled (as we did this year) for freshmen, junior varsity, and varsity contests in volleyball in anticipation of greater numbers.

I have included our athlete budget as well as the long range plans that have been developed for several of our sports. We have focused on leveling the ground on fundraising opportunities and concentrated on cutting expenditures so as to become financially soluble as an athletic department while maintaining quality programs. Graves County High School and I are committed to developing every sport, developing first class facilities, and providing every opportunity possible for young people to gain the benefits of athletic participation at the high school level.

If you have further questions, please do not hesitate to contact me.

Sincerely,

R.B. Mays

Asst. Principal/Athletic Director

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	657	49.2	205	40.0%
Row 2	BOYS	679	50.8	307	60.0%
Row 3	Totals	1336	100%	512	100%

Instructions:

\*Number of 8<sup>th</sup> grade students & below used in Column 3 and Column 4 calculations if applicable: 48

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. \* In addition, should 8<sup>th</sup> grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8<sup>th</sup> grade students & below are included in the totals.  
 Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.)  
 Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

- 1) For Column 1, list the number of interscholastic teams offered for girls and boys at each competitive level (varsity, junior varsity, and freshman). For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 2) For Column 2, list the number of participants at each level. For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8. **Note:** The totals in Row 4 for girls and in Row 8 for boys must be the same as the totals in Form T-1, Column 3, Rows 1 and 2 respectively.
- 3) For Column 3, list the number of interscholastic teams that have been added in the last five years at each competitive level. Count each team added during the 5 year period only one time. e.g. Girl's junior varsity soccer was added 3 years ago, count the team only once, not 3 times. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 4) For Column 4, list the number of participants that are **currently** on each level of the teams that were added in the last five years. If a team was added previously but no longer exists, there are no current participants to be added for that team. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.

FOR ANY QUESTION ANSWERED "YES" IDENTIFY THE RESPECTIVE SPORT(S).

	GIRLS (Yes / No)		BOYS (Yes / No)
1. For a sport <u>not</u> currently offered in your interscholastic athletics program, is there sufficient interest to form a viable interscholastic team based on participation on an intramural team.	No		No
2 For a sport <u>not</u> currently offered, is there sufficient interest, based on the responses to your most recent Student Interest Survey, to form a viable interscholastic team for a sport not currently offered. If yes, what sport?	No (Answers not consistent with current track participation)		Yes Wrestling
3. For a sport currently offered at the junior varsity or freshman level is there sufficient interest, based on your most recent Student Interest Survey, to form a varsity team not currently offered?	No		No
4. For a sport currently offered at the varsity level only, is there sufficient interest, based on your most recent Student Interest Survey, to form a viable team for a junior varsity or freshman team that is not currently offered?	Yes (We hope to add a frosh volleyball team- have JV & V)		No
5. If you answered YES to question (1), (2), (3), or (4), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	Yes		Yes

**Plans to Address Interest:**

2 - Girls) 44 females marked they would be interested in indoor track. However, our female outdoor track team continues to struggle (as does our boys) to grow in number. Currently, only 10 females and 13 males participate in our track programs.

2 - Boys) 104 expressed interest in wrestling. There are now 5 schools in our geographic area that now offer wrestling; however, we do not feel that we have the necessary facility space to begin another winter program. As we only have one gymnasium, and three female and three male basketball teams use that facility, in addition to other sports for pre-season conditioning, as well as a three cheering squads, we do not feel that we can put another program in there at this time.

4 - Girls) We scheduled freshmen volleyball matches this season but did not have adequate numbers to support a freshmen team. We have scheduled freshmen matches for the fall '08 season and are excited that our numbers showing pre-season interest are much higher than last season.

Graves County High School

**DIRECTIONS:**

1. For Column 1, indicate the intended area (Opportunities or Benefits) which needs corrective action in order to achieve gender equity. For Column 2, write the suggested change or activities that will correct the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need "corrective" action. However, the KHSAA strongly encourages compliant schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program.
3. You may copy this form as needed. Please attach corrective action plans along with audit forms and submit by April 15, 2008.

Concession Stand completed Spring 2007 Bulpen fencing completed Spring 2008 Additional seating added Spring 2008
Softball Hitting Facility	As baseball completed their building, we gave first priority on the multi-purpose room (which was made for baseball/softball) to softball. We have poured concrete for an additional hitting cage for softball.	Concrete poured in Spring 2008 for batting cage – could eventually be a hitting building if they desire
Number of female participants	The difference in numbers of male female activities can almost entirely be noted in the difference in volleyball/football numbers. We hope to have enough girls to play the freshmen schedule this fall, hope to add middle school volleyball, and add additional coaches.	Freshmen schedule played – Fall 2008 Middle School Intramural Volleyball – Spring 2009 New coach added – Fall 2008
Football Field	New football stadium was opened in 2007-2008 – we had shared facilities with Mayfield HS. This makes our expenditures look much more "boys-slanted" than they are.	New stadium with track was opened August 25, 2007. A concession stand should be built by 2009.
Fundraising Opportunities	All fundraising must be approved by Athletic Director. Events such as signs in the gymnasium and Eagle Dinner shared equally or by proportion. Booster clubs trained and monitored.	All activities have been implemented during the 2007-2008 school year.

**Instructions:**

1. Summarize the Student Athletics Interest Surveys Form T-61 by listing the total number of responses on the line next to each sport.
2. Under the Other Category please provide a listing of the sports as well as the number of students who are interested in participating.
3. Please sign and date this Summary Form (T-63) and mail this Summary Form only to the KHSAA by April 15, 2008. Do not mail the student surveys (Form T-61). However, these Forms should be maintained in your files in the event they are requested subsequently.

**Reasons for not participating in interscholastic athletics**  
*(From Survey Question 8)*

- 107 I prefer other activities such as band, chorus, etc.
- 270 I don't have time
- 74 The practice schedules and game times are inconvenient
- 54 The sport I like isn't offered
- 50 It's too expensive
- 30 I prefer to participate in club or intramural sports
- 164 Working
- 157 Other:

- 
- Student Suggestions to encourage participation
- Better publicity of try-outs and various sports
  - Offer transportation after practice and games
  - Help with cost
  - More pep rallies to grow interest in sports
  - Individual encouragement from coaches
  - Open up try-outs – publicize for everyone who wants to try-out

*Long-Range Facility Plans*

Goals:

- 1) To construct the finest facilities in West Kentucky
- 2) To construct facilities that are capable of and desirable for hosting regional tournaments
- 3) To improve site lines and increase safety measures for a more enjoyable fan experience and better game management
- 4) To build restroom and storage facilities for fan convenience and better game management
- 5) To utilize our facilities as sources of revenue to invest in our programs

Needs:

- 1) Baseball Seating – The regional tournament has drawn as many as 1,000 people in some sessions in recent years. We would like to construct a facility that eventually would hold around 750 people. (Brooks Stadium where it has been held seats around 1,000)
- 2) Softball Seating – The regional tournament has been held at Reidland and other schools that have seating for 200-300 people, which is not entirely adequate for the crowds they have. We would like to construct a facility that would seat around 450 people.
- 3) Neither field has restrooms on site. Currently, we bring in portable toilets for the softball fields, and the baseball fans and players use the Gateway facility. That is not desirable for game management, is a lengthy walk, and the Gateway restrooms have access to the building itself.
- 4) Both teams need storage space. Softball uses their concession stand, and baseball uses a portable building that is not attractive.
- 5) There is little that makes our parks distinct and unique. We would like to construct one facility that would incorporate restrooms, storage, and a pavilion behind the left field fence of softball for utilization of both fields.
- 6) Both fields have metal backstops that are beginning to rust and show age. Aluminum fencing is expensive and provides some obstruction to watching the game. Additionally, as taller bleachers are added, there will be unprotected areas from balls leaving the playing field. We would like to construct new backstops that incorporate netting for the backstops and down the lines.
- 7) Baseball concession stand needs water to comply with health codes and to provide better service.
- 8) Softball field needs a press box to have comparable facilities for Title IX purposes.
- 9) Various cosmetic bricking projects and fencing will make our fields more attractive and make them “parks”.

5 year plan:

- 1) We have already obtained permission to host the regional baseball tournament in Spring 2008. We would like to add approximately 450 seats now.

Specifications:

- a) One section on each base line.
  - b) Three rows of chair back seats (88 chair back seats) on the first three rows of each side, and 7 rows of bleachers.
  - c) All seating will be raised 40" (as the football visitor bleachers are).
  - d) We will utilize current sidewalks, so as to remain ADA compliant, but without the added expense of ramps and space in bleachers.
- 2) We would like to add 400-450 seats to our softball field for the Spring 2009 season.

Specifications:

- a) One single section centered behind home plate approximately 15 rows high.
  - b) Approximately 150 chair seats
  - c) All seating would be raised 40"
  - d) Sidewalks and walkways would be poured to comply with ADA.
- 3) As soon as possible, we would like to construct a 30' X 45' structure behind the left field fence of softball that could be utilized for both fields.

Specifications:

- a) On the back of the building, there would be two 10' X 15' storage rooms -- one for each sport.
  - b) There would be two 15' x 15' commercial grade restrooms constructed in the middle.
  - c) There would be a 20' x 30' pavilion nearest the parking lot that would incorporate engraved bricks, team achievements, and decorative furniture.
- 4) Because the best seats on any field are behind home plate, and the existing structure prohibits us from incorporating great seats for our baseball field. We would like to tear down the existing concession stand and press box and add additional seats.

Specifications:

- a) We would add approximately 300 seats in a single structure behind home plate, adding approximately 150 chair seats -- making available prime seating options as well as creating a "completed" look.
  - b) Incorporate through construction or addition a new press box.
  - c) Incorporate through construction or addition a new concession stand with running water and necessary space.
- 5) Because additional raised seating will leave some fans at risk from balls leaving the playing field, we will need to add some additional netting down the lines immediately. This netting is a cheaper option for replacing backstops, gives better protection from balls, and, when incorporated with attractive masonry, provides an attractive backstop area.
- 6) We would like to add bricking to cover up braces and other structural eyesores which detract from the looks of the stadium and make a more "complete" look to our fields.
- 7) For game management issues, we would like to add fencing that designates and maintains crowds inside the "park".
- 8) The bleachers currently on those fields will be moved to our tennis courts, and to our soccer and football practice facilities to allow us to use those facilities for elementary and other contests to ease the wear on our main fields.

**Graves County High School**  
**Tennis**  
*Facility Improvement Plan*

Goals:

- 1) To construct adequate and attractive seating for fans
- 2) To construct a concession stand, restrooms, and a storage room for the complex.
- 3) To add courts making it possible to host boys and girls matches on our campus simultaneously.

Needs:

- 1) There is currently no seating for fans at our tennis courts.
- 2) As the land around the courts is not level, a concrete pad will need to be poured for the bleachers.
- 3) As one of the first facilities people see upon entering the campus, improvements should consider the cosmetic appeal of the complex.
- 4) With no concession stand our program does not have a source of revenue during its matches.
- 5) There are no storage facilities for the team.
- 6) Currently we must send either the boys or the girls to courts elsewhere in the city in order for boys and girls to play simultaneously.

Long-Term Plan:

- 1) For Spring 2008, we would like to move the bleachers currently on the baseball field to the tennis courts.  
Specifications:
  - a) A concrete pad will be poured for the bleachers on the end opposite of Oak Hills.
  - b) Two of the bleacher sets from the baseball field will be placed on that site, providing seating for 90 people.
  - c) Simple pavilion type, roofed structures will be constructed over those bleachers as they have done at the city parks for a more "complete" look.
- 2) For Spring 2009 or as soon as possible, we would construct a small concession stand, with two restrooms, and a storage room on the same end of the courts.
- 3) As additional properties are purchased, we look for opportunities to add six more courts to our campus with adequate fencing.

## Graves County High School Soccer Field Long-Term Facilities Vision

Graves County Schools has, from the time of consolidation, made a strong commitment to build strong athletic programs in every sport. A large portion of that commitment has been to construct and maintain first class facilities in which our teams may compete. Our soccer program has consistently grown in participation, enthusiasm, and regional competitiveness. The Board of Education has expended funds to construct a nice playing field and stands; yet, we still feel that there are improvements we can make in coming years to bring our field to the standard of other first-class facilities in our area and make a positive statement about our commitment to excellence to everyone who plays at our field.

### Long-Term Needs/Goals

- 1) In wet weather, fans must walk through grass and mud to get to the bleachers. We would like to construct a *sidewalk* extending from the new concession stand to the bleachers.
- 2) The teams need a *storage building* for equipment and supplies. We would like to construct a small building with a room each for storage of boys and girls equipment.
- 3) The old concession stand is an eyesore, needs some repair, and is too large to fit on level ground between the bleachers and the practice field. We would like to *sell the old concession stand* with the proceeds going towards construction of a storage building.
- 4) The field has no shade or shelter available. We would like to construct an approximately 30" X 30" *pavilion* with roof and brick colors to complement the new concession stand.
- 5) The field has little to make the field distinctively Graves County. To help fund the pavilion project and to increase pride and connection to our program, we seek to sell *engraved bricks* that would become a part of the pavilion.
- 6) We seek to place royal blue, metal, plastic coated *picnic tables, EAGLES benches, and garbage cans* to make the pavilion an attractive addition to our park.
- 7) Our team dug-outs are not large enough for our teams and there are no areas for storage of bags or equipment during games. We hope to *expand the dug-outs and add areas for bag and equipment storage*.
- 8) The bleachers provide adequate seating for most games and are of high quality. However, because a large number of fans prefer to bring lawn chairs for seating which becomes blocked by overflowing crowds, because the benefit of the lowest rows of bleachers is lost in large crowds when people constantly walk in front, and because the crowd is much more difficult to control when it has easy access to the field as it does now, *the bleachers need to be raised* with the accompanying handicap accessibility.
- 9) Scoreboard operation, public address announcing, and filming of games are important parts of a quality program. Those are currently done in the concession stand and in the top rows of the bleachers. Those functions highlight the need for a *press box* above the bleachers.
- 10) We also dream of someday having *locker room facilities* at the field itself.

These are projects which the Strikers Club and the Lady Eagles Goal Club, the coaching staff, and administration embrace as a vision for our soccer facility. We hope to work with the Board of Education in seeing these goals attained, as we grow our soccer programs to regional and state-wide success.
