See attached letter of request to the school to address this issue. • Make sure the student survey is given in early fall next year so that the school can ascertain if there is continued interest in swimming in order to have time to address the interests before the annual report. • Please review your awards policy to ensure that you have equity in benefits for awards. Not all sports offered show expenditures for awards on T-35 and T-36.

Dear Mr. Crider:

For the past three years your school has consistently reported more expenditures for male athletes than female athletes. This is certainly a red flag in respect to equity in benefits provided to your athletes. This issue has been addressed in previous reviews of your annual reports. You have addressed the concerns; however, this year there continues to be a large disparity in spending.

Since you report expenditures for the prior year, I am requesting that those be available for your schools first Gender Equity Review Committee meeting in the fall. At that meeting the committee should review the expenditures for 2008-2009 and determine whether inequity in spending still exists. If an inequity exists, your committee should develop a specific plan to address this problem. The minutes of that meeting should be submitted to the KHSAA as well as the plan that is developed to address this problem by October 1, 2009. Please advise if the KHSAA can assist you with this process in anyway.

Yours truly,

Jenny McCarty
Title IX Auditor

KHSAA
 Form T1
 F:Forms/T1
 Rev.10/08

Participation Opportunities Test One

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	689	48.9%	246	48.5%
Row 2	BOYS	719	51.1%	261	51.5%
Row 3	Totals	1408	100%	507	100%

Instructions:

*Number of 8th grade students & below used in Column 3 and Column 4 calculations: 117

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first date of regular season competition, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8th grade students & below are included in the totals.
 Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

	Row 8	total:	20	261	0	0	0

- 1) For Column 1, list the number of interscholastic teams offered for girls and boys at each competitive level (varsity, junior varsity, and freshman). For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 2) For Column 2, list the number of participants at each level. For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8. **Note:** The totals in Row 4 for girls and in Row 8 for boys must be the same as the totals in Form T-1, Column 3, Rows 1 and 2 respectively.
- 3) For Column 3, list the number of interscholastic teams that have been added in the last five years at each competitive level. Count each team added during the 5 year period only one time. e.g. Girl's junior varsity soccer was added 3 years ago, count the team only once, not 3 times. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 4) For Column 4, list the number of participants that are **currently** on each level of the teams that were added in the last five years. If a team was added previously but no longer exists, there are no current participants to be added for that team. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.

Participation Opportunities Test Three

FOR ANY QUESTION ANSWERED "YES" IDENTIFY THE RESPECTIVE SPORT(S).

	GIRLS (Yes / No)		BOYS (Yes / No)
1. For a sport <u>not</u> currently offered in your interscholastic athletics program, is there sufficient interest to form a viable interscholastic team based on participation on an <u>intramural team</u> .	NO		NO
2 For a sport <u>not</u> currently offered, is there sufficient interest, based on the responses to your most recent Student Interest Survey, to form a viable <u>interscholastic team</u> for a sport not currently offered. If yes, what sport?	YES Swimming		YES Swimming
3. For a sport currently offered at the junior varsity or freshman level is there sufficient interest, based on your most recent Student Interest Survey, to form a <u>varsity team</u> not currently offered?	NO		NO
4. For a sport currently offered at the varsity level only, is there sufficient interest, based on your most recent Student Interest Survey, to form a viable team for a <u>junior varsity or freshman team</u> that is not currently offered?	NO		NO
5. If you answered YES to question (1), (2), (3), or (4), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	NO		NO

Plans to Address Interest: When investigating the idea of offering a swim team at Christian County we had to have a place to practice. Hopkinsville High School does have an indoor swimming facility but it was under construction for the entire swim season and Hopkinsville High had to transport their team to a practice location outside of the county. Therefore, we did not feel based on the small interest in starting a team that it was worth starting up a swim team. We will continue to monitor the interest in swimming here at Christian County through next year's student survey.
