SCHOOL YEAR 2011-2012
ACCOMMODATION OF INTERESTS AND ABILITIES
SUMMARY PROGRAM CHART

KHSAA Form T1
Rev. 5/11

Participation Opportunities: Test One - Proportionality

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	571	48.5%	203	41.8%
Row 2	BOYS	606	51.5%	283	58.2%
Row 3	Totals	1177	100%	486	100%

Instructions:

*Number of 8th grade students & below used in Column 3 and Column 4 calculations: 35

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8th grade students & below are included in the totals.
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

Number of Participants for the current school year who are playing on teams added dating back to the four previous school years.	Percent of Total Participation By Sex Added including the current school year and the four previous school years.
GIRLS Row 1	varsity:	8	133	2	38	
Row 2	j.v.:	4	56	1	20	
Row 3	frosh:	2	14	0	0

Row 7	frosh:	2	21	0	0	
Row 8	total:	15	283	3	41	14.5%

- 1) For Column 1, list the number of interscholastic teams offered for girls and boys at each competitive level (varsity, junior varsity, and freshman). For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 2) For Column 2, list the number of participants at each level. For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8. Note: The totals in Row 4 for girls and in Row 8 for boys must be the same as the totals in Form T-1, Column 3, Rows 1 and 2 respectively.
- 3) For Column 3, list the number of interscholastic teams that have been added in the last five years at each competitive level. Count each team added during the 5 year period only one time. e.g. Girl's junior varsity soccer was added 3 years ago, count the team only once, not 3 times. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 4) For Column 4, list the number of participants that are currently on each level of the teams that were added in the last five years. If a team was added previously but no longer exists, there are no current participants to be added for that team. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.
- 6) **Note: If the percentage of current participants added in the last five years is 25% or greater for the underrepresented sex (most likely girls), compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. CAUTION: 25% is not a formal compliance standard.**

Participation Opportunities Test Three Full Accommodation

FOR ANY QUESTION ANSWERED "YES" IDENTIFY THE RESPECTIVE SPORT(S) AND DESCRIBE YOUR IMPLEMENTATION PLAN IN LINE (5).

	GIRLS (Yes / No)		BOYS (Yes / No)
1. Based on the responses from your most recent student survey, is there sufficient interest to form a viable varsity interscholastic team for a sport not currently offered? If yes, what sport?	No		No
2. Based on the responses from your most recent student survey, is there sufficient interest to form a viable junior varsity interscholastic team for a sport not currently offered and for which there is not sufficient interest to form a viable varsity interscholastic team? If yes, what sport?	No		No
3. Based on the responses from your most recent student survey, is there sufficient interest to form a viable freshman interscholastic team for a sport not currently offered and for which there is not sufficient interest to form either a viable varsity or junior varsity interscholastic team? If yes, what sport?	No		No
4. If you answered YES to question (1), (2), or (3), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	No		No

Remember, test three – full accommodation means addressing the unmet interest of the underrepresented sex (most likely girls), not the overrepresented sex (most likely boys).

<p>5. Describe your plans to address interest below:</p> <p>Our 21st Century grant is already offering our elementary schools the opportunity to form Archery Clubs. Next year our Title IX Committee will address the idea of forming a Whitley County Archery team at the middle school and high school level. Our district will research to see if there are any other high schools in our geographic area that offer archery. Also at our Title IX Meeting on April 10, 2012 adding a Bowling Team to our list of sports to offer both male and female was discussed. Our district will continue during the 2012-13 school year to determine if there is enough interest to merit adding the sport to our list for male and female sports.</p>

SCHOOL YEAR 2011-2012
TITLE IX CORRECTIVE ACTION PLAN

DIRECTIONS:

1. For Column 1, indicate the intended area (Opportunities or Benefits) which needs corrective action in order to achieve gender equity. For Column 2, write the suggested change or activities that will correct the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need "corrective" action. However, the KHSAA strongly encourages compliant schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program.
3. You may copy this form as needed. Please attach corrective action plans along with audit forms and submit with the annual report.

Equipment and Supplies	While more money was spent on male athletes when you average the amount spent per athlete the difference is not significant. Spending per female athlete was \$170 dollars and spending per male athlete was \$232 in the area of equipment and supplies. When analyzing the data it was concluded that football is the sport that causes the difference due to the upkeep of equipment. The Athletic Director will continue to monitor the spending of the Board of	Start: April 15, 2012	Complete: On-Going
Coaching	When analyzing the data per athlete female spending was \$413 compared to male spending of \$412. The Title IX Committee agree this is not a significant difference and the Whitley County Board will continue to monitor to ensure equity continues.	Start: April 15, 2012	Complete: On-Going
Athletic Scholarships	All seniors that applied for scholarships were granted a scholarship. There were more male seniors in baseball and basketball during this school year. This is the reason more money was spent on males. No seniors were on the boys golf team resulting in less being spent on awards in this area. The Title IX Committee will continue to monitor the distributions of athletic scholarships to ensure equity continues.	Start: April 15, 2012	Complete: On-Going
Female Participation	During the 2011-12 school year Cross Country was added to the sports students are able to participate. This addition should improve the equity of participants. Sixteen female students participated in this newly added sport. Soccer teams for females has increased our choices for females to participate in a sport of their choice. Equity in this area will continue to be monitored.	Start: April 15, 2012	Complete: On-Going
Test 1 (Athletic participation is proportionate to enrollment)	We continue to have more male participants than female. Over the past 3 years we have added soccer and cross country to try to bridge the gap between participants. We will continue to offer these programs and increase the use of media to try and encourage more female participants. Our district has recently added a local radio station. This source of media will be used to encourage participation by announcing tryouts and other information pertaining to sports	Start: April 15, 2012	Complete: On-Going
Test 2 (History and continuing of practice of program expansion)	Our Soccer facility is now completed and also during the 2010-2011 school year Boys and Girls Cross Country was added to our athletic programs. According to the recent Student Survey archery was a sport both male and female would like to see added to our programs. Our elementary schools are already offering archery through a 21st century grant. It is the goal of the district to add archery as well as bowling to our sports program in the near	Start: April 15, 2012	Complete: On-Going
Test 3 (Full and effective accommodations of interests and abilities)	According to the Interscholastic Athletic Survey both male and female are interested in seeing Archery added to the KHSAA Sponsored Winter Sport. At present we have elementary schools that are offering archery classes to our students through the 21st Century Grant. These archery classes are offered through the Community Learning Centers. Archery will be discussed during our 2012-13 school year. It is the goal of our district to possibly start adding this activity to our list of KHSAA sports to offer male and female participants. Also, at our last Title IX meeting in April it was decided to start investigating the possibility of adding Bowling to our sports program. During the 2012-13 school archery and bowling will become possible KHSAA sports that will be added to the districts choices for both male and female participants.
