**SCHOOL YEAR 2012-2013**  
**ACCOMMODATION OF INTERESTS AND ABILITIES**  
**SUMMARY PROGRAM CHART**

KHSAA Form T1  
Rev. 5/11

**Participation Opportunities: Test One - Proportionality**

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	274	51.9%	179	42.6%
Row 2	BOYS	254	48.1%	241	57.4%
Row 3	Totals	528	100%	420	100%

Instructions: \*Number of 8<sup>th</sup> grade students & below used in Column 3 and Column 4 calculations: 74

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. \* In addition, should 8<sup>th</sup> grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8<sup>th</sup> grade students & below are included in the totals.  
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

**FOR ANY QUESTION ANSWERED "YES" IDENTIFY THE RESPECTIVE SPORT(S) AND DESCRIBE YOUR IMPLEMENTATION PLAN IN LINE (5).**

	<b>GIRLS (Yes / No)</b>		<b>BOYS (Yes / No)</b>
1. Based on the responses from your most recent student survey, is there sufficient interest to form a viable varsity interscholastic team for a sport not currently offered? If yes, what sport?	Yes  Golf & Bowling		No
2. Based on the responses from your most recent student survey, is there sufficient interest to form a viable junior varsity interscholastic team for a sport not currently offered and for which there is not sufficient interest to form a viable varsity interscholastic team? If yes, what sport?	No		No
3. Based on the responses from your most recent student survey, is there sufficient interest to form a viable freshman interscholastic team for a sport not currently offered and for which there is not sufficient interest to form either a viable varsity or junior varsity interscholastic team? If yes, what sport?	No		No
4. If you answered YES to question (1), (2), or (3), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	No		No

Remember, test three – full accommodation means addressing the unmet interest of the underrepresented sex (most likely girls), not the overrepresented sex (most likely boys).

<p><b>5. Describe your plans to address interest below:</b></p> <p>The following actions were taken by Danville High School Title IX Committee to pursue the interest in women's golf and bowling further.</p> <ol style="list-style-type: none"> <li>1. During the fall of 2012, an additional survey was conducted to see if interest in either or both sports was still present. The survey was conducted in grades 8-11 of females. 80% of girls enrolled in those grades returned the surveys. (See attached survey)</li> <li>2. Of the girls surveyed, 11 girls expressed interest in golf and 35 girls expressed interest in bowling. On the survey, girls were asked to include their name so that they could be contacted with further information.</li> <li>3. After the survey was completed, the Title IX school chairperson and Assistant Athletic Director explored area schools that currently have golf and bowling programs. The following information was discovered:             <ol style="list-style-type: none"> <li>a. Most of the adjoining county school systems do have golf programs for women.</li> <li>b. No area schools currently offer bowling programs for women.</li> </ol> </li> <li>4. Danville High School had previously offered a women's golf program, but due to lack of interest it was dropped. (When it was dropped we had one female participating and she graduated, and no new girls were interested at the time.) It should be noted that there is still money allocated by the board of education for a women's golf coach and if interest in starting that program again were to occur, it would be added to the current roster of women's sports.</li> <li>5. After gathering the information of those interested, a personal letter was sent to each girl that had expressed interest to inform them of a meeting to further explore the possibility of adding women's golf and bowling to the current sports offerings. (Letter attached)</li> <li>6. The meeting was scheduled for after school on March 19, 2013 in the DHS cafeteria. No students attended the meeting.</li> <li>7. With no one showing interest in attending the meeting to explore adding the new sports, the option to reinstate golf if interest were to occur, and no other local schools with current bowling programs to compete against, the Danville High School Title IX committee feels that the interest in these sports is only on paper and will not at this time pursue these matters further.</li> </ol>
