SCHOOL YEAR 2012-2013
ACCOMMODATION OF INTERESTS AND ABILITIES
SUMMARY PROGRAM CHART

KHSAA Form T1
Rev. 5/11

Participation Opportunities: Test One - Proportionality

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	347	50.9%	175	44.3%
Row 2	BOYS	335	49.1%	220	55.7%
Row 3	Totals	682	100%	395	100%

Instructions: *Number of 8th grade students & below used in Column 3 and Column 4 calculations: 35

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8th grade students & below are included in the totals.
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

Participation Opportunities Test Three Full Accommodation

FOR ANY QUESTION ANSWERED "YES" IDENTIFY THE RESPECTIVE SPORT(S) AND DESCRIBE YOUR IMPLEMENTATION PLAN IN LINE (5).

	GIRLS (Yes / No)		BOYS (Yes / No)
1. Based on the responses from your most recent student survey, is there sufficient interest to form a viable varsity interscholastic team for a sport not currently offered? If yes, what sport?	Yes Archery, Bass Fishing, Bowling		Yes Archery, Bass Fishing, Bowling, Wrestling
2. Based on the responses from your most recent student survey, is there sufficient interest to form a viable junior varsity interscholastic team for a sport not currently offered and for which there is not sufficient interest to form a viable varsity interscholastic team? If yes, what sport?	No		No
3. Based on the responses from your most recent student survey, is there sufficient interest to form a viable freshman interscholastic team for a sport not currently offered and for which there is not sufficient interest to form either a viable varsity or junior varsity interscholastic team? If yes, what sport?	No		No
4. If you answered YES to question (1), (2), or (3), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	No		No

Remember, test three – full accommodation means addressing the unmet interest of the underrepresented sex (most likely girls), not the overrepresented sex (most likely boys).

<p>5. Describe your plans to address interest below:</p> <p>Our most recent surveys indicate sufficient interest to explore the forming of varsity teams in both Girls and Boys Archery, Bass Fishing, and Bowling and for Boys Wrestling. Currently we offer 14 Varsity sports and our numbers are sufficient to keep these teams competitive. We will explore starting teams in the sports mentioned earlier. Our largest barriers will be in Bowling because we do not have a bowling alley within a 30 minute drive by bus and students would have to be bused to and from practice in another county. Archery and Bass Fishing would seem to be the best areas to add in the near future for our school. We are currently solicitating volunteers who are willing to supply boats for a potential Bass Fishing Team. We will not add a Boys team without adding a Girls Team. We do think the numbers on the survey are higher than the number of students who would actually participate on those teams if created. We have begun to study the feasibility of beginning all of these programs within the next three to five years. Again, Archery and Bass Fishing seem to have the advantage of being implemented in the next two or three years.</p>

SCHOOL YEAR 2012-2013
TITLE IX IMPROVEMENT PLAN

DIRECTIONS:

1. For Column 1, indicate the intended area (Opportunities or Benefits) which needs improvement in order to achieve gender equity. For Column 2, write the suggested change or activities that will improve the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need improvement. However, the KHSAA strongly encourages schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program

COLUMN 1	COLUMN 2	COLUMN 3	
SPECIFIC ITEM FOR IMPROVEMENT	PLAN FOR SUGGESTED CHANGE	START DATE AND COMPLETION DATE OF IMPROVEMENT	
Continue to increase Prime-Time opportunities for the Girls Basketball Program	Continue to coordinate the Boys and Girls Basketball schedules so that the Girls program is playing at least 40% of their games on Prime Nights. Our goal is to reach a continuous 50% of home games and/or the entire schedule on Prime Nights.	Start: Ongoing	Complete: Ongoing
Continue to work to increase the number of Female participants in sports we currently offer. Our numbers are up significantly in Volleyball and we want to continue to increase in Girls Soccer, Girls Basketball, and Girls Golf.	We must continue to improve our recruiting efforts of female participants into the current offerings at both the Middle and High School levels. We will continue to promote the opportunities more vigorously in our schools and community while working to find new ways of getting female students involved in athletics.	Start: Ongoing	Complete: Ongoing
Continue to improve the difference in spending in the Boys and Girls programs, especially in the areas of Booster Club spending, overnight travel, and Girls Golf.	We must continue to make improvements in our spending gap by increasing the amount of Booster money raised and spent by our Girls programs. This is a particular issue in the Girls Golf Program, complicated by the fact we struggle to field a team of 5 Or 6 while the Boys will have 10 to 12 players each year. We typically only have one girl who is fairly competitive while the boys team is competing for regional titles. We must also find ways to increase spending for We currently have contracted with an outside company to maintain the playing surfaces of all outdoor facilities and will continue to reseed and make improvements to those fields. We are currently reviewing possibilities for improvements to the Baseball and Softball fields for dressing areas. We currently share an indoor hitting facility and would like to add individual buildings to each site.	Start: Ongoing	Complete: Ongoing
Continue improvements to our facilities for both Boys and Girls programs		Start: Ongoing	Complete: Ongoing
