(Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. \* In addition, should 8<sup>th</sup> grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8<sup>th</sup> grade students & below are included in the totals.  
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

**FOR ANY QUESTION ANSWERED "YES" IDENTIFY THE RESPECTIVE SPORT(S) AND DESCRIBE YOUR IMPLEMENTATION PLAN IN LINE (5).**

	<b>GIRLS</b> <b>(Yes / No)</b>		<b>BOYS</b> <b>(Yes / No)</b>
1. Based on the responses from your most recent student survey, is there sufficient interest to form a viable varsity interscholastic team for a sport not currently offered? If yes, what sport?	Yes Fishing/Archery		Yes Fishing/Archery
2. Based on the responses from your most recent student survey, is there sufficient interest to form a viable junior varsity interscholastic team for a sport not currently offered and for which there is not sufficient interest to form a viable varsity interscholastic team? If yes, what sport?	No		No
3. Based on the responses from your most recent student survey, is there sufficient interest to form a viable freshman interscholastic team for a sport not currently offered and for which there is not sufficient interest to form either a viable varsity or junior varsity interscholastic team? If yes, what sport?	No		No
4. If you answered YES to question (1), (2), or (3), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	No		No

Remember, test three – full accommodation means addressing the unmet interest of the underrepresented sex (most likely girls), not the overrepresented sex (most likely boys).

**5. Describe your plans to address interest below:**

On our Title IX Interest Survey conducted in the spring of 2012, there were a number of students interested in the sport/activity of bass fishing. Therefore, in the spring of 2013 at meeting was held, after school hours, to determine true interest in the sport of bass fishing. At that time, 23 male students expressed an interest in the sport/activity of bass fishing at Campbell County High School. As a follow up to the spring of 2013 meeting, another meeting to determine true interest was held in January of 2014 outside of school hours. At that time, 22 male students expressed an interest in the sport/activity of bass fishing at Campbell County High School.

One of the limitations in the Northern Kentucky Area for the growth of bass fishing is a large lake to be used for practice and/or local competitions.

Because only male students expressed an interest in the sport, the expense and safety of a long travel distance to a large lake for practice, and added insurance cost, it is my recommendation that Campbell County High School does not begin to offer the sport of bass fishing.

Also, on our Title IX Interest Survey conducted in the spring of 2012, there were a number of students interested in the sport/activity of archery. Therefore, in the spring of 2013 at meeting was held, after school hours, to determine true interest in the sport of archery. At that time, 15 male and 8 female students expressed an interest in the sport/activity of archery at Campbell County High School. As a follow up to the spring of 2013 meeting, another meeting to determine true interest was held in January of 2014 outside of school hours. At that time, 10 male and 10 female students expressed an interest in the sport/activity of archery at Campbell County High School.

> In the past two years more northern Kentucky schools have started teams. Mr. Caudill has indicated

> Because of the growing number of schools in northern Kentucky and the interest in the sport expressed by students of both genders, it is my recommendation that Campbell County High School should consider adding archery for next school year.
