

**KHSAA TITLE IX ANNUAL REPORT SUBMISSION
STATUS REPORT
2019-2020**

*KHSAA Form T65
Revised 5/14/20*

School:	Estill County
KHSAA Audit Team Member:	
Date:	June 26, 2020

Along with this T65 form, you have also received a copy of a revised Title IX Internal Audit Summary for this school. It is important that you review all of the details concerning the analysis of the report submitted.

The Internal Audit Summary will analyze parts 1 and 2 of the three-part test for Title IX compliance, based on a snapshot of the data on the date submitted. Those conclusions are listed. As a result of Covid 19, no determination will be made as to compliance with Test 3. Revisions have been made in this form to clarify the calculation of the underrepresented gender and ensure the preservation of the integrity of the foundational purposes of Title IX. The form also continues to contain notes made to help you determine how calculations were derived and detail the exclusion of certain elements related to Archery, Bass Fishing, and Esports which are true coed sport-activities.

In the first section you will note many factors such as per total participation, total expenditures, participant spending (per gender), and many other factors to be considered as you move forward with future planning. You will also note on Row 13, the determination of the underrepresented gender in your school. This is a critical element in determining Title IX compliance.

The Test 1 (traditionally called the “numbers” test) section again contains guidance as to the number of new participants in the underrepresented gender needed to meet this test. Explanatory notes in the right column should help verify the calculations, which were done by the system based on the submitted data.

The Test 2 (traditionally called the “recent history of expanding sport offerings for the underrepresented gender” test) section contains the information for Test 2 and the calculations were done solely by the system based on the submitted data.

The Test 3 (traditionally called the “accommodating interest and abilities” test) section contains the information for Test 3. This is determined by the audit team based on the analysis of the data provided, but will not be analyzed this year as a result of Covid 19.

At the bottom of the Title IX Internal Audit Summary is a summary conclusion as to whether or not the school appears to be in compliance with one of the three parts of the tests for Title IX compliance. If you have specific questions, feel free to contact Assistant Commissioner Darren Bilberry (dbilberry@khsaa.org or 859-299-5472) at the KHSAA.

SCHOOL YEAR 2019-2020
ACCOMMODATION OF INTERESTS AND ABILITIES
SUMMARY PROGRAM CHART

KHSAA Form T1
Rev. 5/11

Participation Opportunities: Test One - Proportionality

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	335	49.9%	180	43.3%
Row 2	BOYS	337	50.1%	236	56.7%
Row 3	Totals	672	100%	416	100%

Instructions: *Number of 8th grade students & below used in Column 3 and Column 4 calculations: 46

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8th grade students & below are included in the totals.
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

Participation Opportunities Test Three Full Accommodation

FOR ANY QUESTION ANSWERED "YES" IDENTIFY THE RESPECTIVE SPORT(S) AND DESCRIBE YOUR IMPLEMENTATION PLAN IN LINE (5).

	GIRLS (Yes / No)		BOYS (Yes / No)
1. Based on the responses from your most recent student survey, is there sufficient interest to form a viable varsity interscholastic team for a sport not currently offered? If yes, what sport?	Yes Cross Country, Dance, Field Hockey (Girls)		Yes Cross Country, Field Hockey Girls, and Dance
2. Based on the responses from your most recent student survey, is there sufficient interest to form a viable junior varsity interscholastic team for a sport not currently offered and for which there is not sufficient interest to form a viable varsity interscholastic team? If yes, what sport?	No		No
3. Based on the responses from your most recent student survey, is there sufficient interest to form a viable freshman interscholastic team for a sport not currently offered and for which there is not sufficient interest to form either a viable varsity or junior varsity interscholastic team? If yes, what sport?	No		No
4. If you answered YES to question (1), (2), or (3), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	Yes Cross Country		Yes Cross Country

Remember, test three – full accommodation means addressing the unmet interest of the underrepresented sex (most likely girls), not the overrepresented sex (most likely boys).

5. Describe your plans to address interest below:

Cross Country- hold informational meetings to judge interest in having a team. Last year we tried to start a cross country team and held three informational meetings. In the first meeting, we had 7 people show up but they were also soccer players who decided they could not do both. The second meeting four people showed up to show interest but stated they did not know if they would or not. In the last meeting, two people showed up and stated they decided to do Raiders through ROTC instead.

Field Hockey (girls)- not feasible due to no schools in our geographic area offering the sport. As a school, we would have no reasonable schedule for competition.

Dance- Conduct interest meeting to judge if there is enough interest to start a team. The first meeting will be conducted in September either in person or virtually to gauge interest in a dance team.

TITLE IX IMPROVEMENT PLAN
Estill County**

DIRECTIONS:

1. For Column 1, indicate the intended area (Opportunities or Benefits) which needs improvement in order to achieve gender equity. For Column 2, write the suggested change or activities that will improve the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need improvement. However, the KHSAA strongly encourages schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program

COLUMN 1	COLUMN 2	COLUMN 3
SPECIFIC ITEM FOR IMPROVEMENT	PLAN FOR SUGGESTED CHANGE	START DATE AND COMPLETION DATE OF IMPROVEMENT
Continue to work on an increase in the number of participants; increase the number of female participants to close the gap of more female participants compared to male.	Continue to increase the number of participating student-athletes by continuing to work with middle school and current sports to increase numbers. Increase the interest of 9th-grade boys to field a freshman team instead of having to go to middle school to get 8th-grade boys to play. Continue to promote more girls playing soccer, basketball, volleyball, and softball by promoting those sports at the middle school. Continue to look at more ways to get females interested in all sports	Start: Jun 1, 2020 Complete: Apr 30, 2021
Continue to close the gap in spending between male and female athletes.	The spending gap between male and female spending is a difference of fifty-nine dollars more spent on boys than girls. We have made great strides in closing the gap of spending between male and female athletes but with a high turnover of new coaches the spending gap has increased. On reason is in girls golf this year we had only one girl playing golf which caused the school and booster not needing to spend as much money in this area. Girls volleyball did not spend their budgeted allotted money from the school. The problem is male sports are spending equal to or more than female sports especially in football and basketball where they have more participates. We will discuss with volleyball to spend their budget from the school and spend more money that the booster club has in the account. Discuss with all coaches and booster clubs the importance of spending limits. Create a booster club spending policy for all sports.	Start: Jun 1, 2020 Complete: Apr 30, 2021
Continue to open up new sports that would help to increase the number of male and female participants.	There is a cross country coach position and we will conduct interest meetings to gauge interest from the student body if we have enough interest from males and females we will start a cross country team. Continue to promote female participation in sports in volleyball, girls soccer, girls basketball, softball, and archery.	Start: Jun 1, 2020 Complete: Apr 30, 2021
Continue to follow prime time scheduling of girls basketball games.	Continue to schedule a minimum of 40% of all games on Prime Dates and Prime Times. Our goal is to be at and maintain 50%.	Start: Jun 1, 2020 Complete: Apr 30, 2021
