2. Opportunities Component of Title IX Compliance

Area of Compliance:
(Check One or More)

A	Substantial Proportionality
B	History and Continuing Practice Of Programs Expansion
C	Full and Effective Accommodation of Interest and Abilities

- A). Was the Substantial Proportionality Test (T-1) an area in which the school met Title IX Opportunities compliance?
Yes No

Comments: According to the data submitted by the school, Madison Central High School has not met the standard for test T-1 during the 2005-2006 school year.

- B). Was the History and Continuing Practice of Program Expansion Test (T-2) an area in which the school met Title IX Opportunities compliance?
Yes No

Comments: According to the data submitted by the school, Madison Central High School has not met the standard for Test T-2 during the 2005-2006 school year.

- C). Was the Full and Effective Accommodations of Interest and Abilities Test (T-3) an area in which the school met Title IX Opportunities compliance?
Yes No

Comments: According to the data submitted by the school, Madison Central High School did not meet the standard for Test T-3 during the 2005-2006 school year. According to the data submitted by the school on the 2006-2007 Re-visit forms, the school will meet the standard for Test T-3 for the 2006-2007 school year.

3. Is the school's most recent Student Interest Survey accurate in relation to the assessment of Interests & Abilities?
Yes No

Comments: According to the results of the latest student survey, the female students were interested in golf. This interest was reflected on the 2005-2006 T-3 form. The school sponsored a girls golf team in the fall of 2006. The return rate for the survey was only 68%. The school must increase that return rate on the next student interest survey to at least an 80%.

4. Checklist of the Title IX Components of the Interscholastic Program

Benefit to Students	Satisfactory	Deficient	Comments
Accommodation of Interests and Abilities		X	The 2005-2006 Annual Audit Report shows the school did not meet the standards for any of the three opportunity tests. The 2006-2007 Re-visit forms reflect the school's response to this deficiency. According to the data submitted on the 2006-2007 Re-visit forms, it appears the school will meet the standard for test T-3 for the 2006-2007 school year. The school must increase the student interest survey return rate. The Gender Equity Committee should address this problem so the 80% return rate requested by the KHSAA can be achieved on the next student interest survey.
Equipment and Supplies	X		Uniforms and equipment appeared equitable. The spending data submitted on the T-35 and T-36 forms were equitable. The school needs a written uniform purchase and replacement policy that will be followed. This policy should be strictly enforced by school administration. During the interview portion of the Re-visit it was learned that the present policy is not followed by some of the coaches and some of the booster clubs. This practice renders the current policy ineffective and can cause future inequity. A new policy should include solutions for this potential problem.
Scheduling of Games and Practice Time	X		Prime dates are 50% for the 2006-2007 season. This exceeds the 40% required by the KHSAA. Prime time is satisfactory, and practice times are equivalent.
Travel and Per Diem Allowances	X		Madison Central High School has regulations for travel and per diem which are not in a written policy. They need to be redone into policy form

Coaching	X		Coaching salaries are equivalent and coaches are equally accessible to athletes.
Locker Rooms, Practice and Competitive Facilities	X		<p>Madison Central High School is undergoing a massive renovation and 2008 is the expected date of completion. All athletic areas appear improved from the initial visit in 2000. During the 2000 visit a difference between the boys and girls basketball locker rooms was noted. The renovation has equalized the boys and girls locker rooms. There are two sets of washers and dryers. One set is used by football and the second set is available to all other sports. The school should have a written locker room/dressing room assignment for each sport.</p> <p>The indoor and outdoor facilities are equitable with the exception of the softball field. The softball outfield fence is portable and according to school officials the fence is taken down after the softball season and the outfield becomes part of the practice football field. This practice can lead to damage to the outfield surface and become an inequity between the softball and baseball facilities. School administration and the Gender Equity Committee should approach this possibility in two ways; they should physically inspect the softball outfield before, during, and after football's spring, summer, and fall practices noting any irregularity in the outfield surface, and they should make plans for moving the practice football area in the event any damage to the softball field does occurred.</p>

Medical and Training Facilities and Services	X		The school has a trainer available every afternoon. The training facility and equipment are equitable. The weight room usage schedule is posted.
Publicity	X		Madison Central High School has two cheerleading squads, pep band, color guard, and dance team. They are performing equally for the boys and girls varsity and junior varsity teams.
Support Services	X		At this time there are 9 booster clubs at Madison Central High School. Some of the clubs have in school accounts and others do not. During the Re-visit it was learned that the athletic director does not approve booster club spending. At this time the T-35 and T-36 budget forms show equitable spending. This could change into an inequity without spending approval. It is recommended that school administration review current methods of spending oversight so that the possibility of future spending inequities do not occur.
Athletic Scholarships	N/A		
Tutoring	X		The school provides tutoring for any student.
Housing and Dining Facilities and Services	N/A		
Recruitment of Student Athletes	N/A		

5. Brief Summary/Analysis of the Corrective Action Plan (Form T-60)

The school's 2005-2006 Corrective Action Plan addressed band playing at an equal number of boys and girls games, and in an effort to control spending, setting up a uniform replacement account. During the Gender Equity Committee meeting corrective action plans and future plans were discussed.

6. Observed Deficiencies in Overall Girls and Boys Athletics Programs

Madison Central High School did not meet any of the opportunity tests for the 2005-2006 school year. The 2006-2007 Re-visit forms show the school responded to the Student Interest Survey by adding a girls golf team during the fall of 2006. This addition should change the test T-3. In so doing the school should be able to meet the standard for test T-3 on the 2006-2007 Annual Audit Report.

The following are not deficiencies but must be completed:

1. Submit to the KHSAA, no later than March 1, 2007 a copy of an adopted policy regarding a uniform replacement schedule for all teams that participate in athletics at your high school. A copy of this intended replacement and review process must be provided to all head coaches and must be placed in your school's Master Title IX File.
2. Submit to the KHSAA, no later than March 1, 2007 a copy of an adopted school wide policy that addresses equitable travel and per diem allowances for both male and female sports. A copy of this policy must be distributed to all head coaches and a copy must be maintained in your school's Master Title IX File.
3. Submit to the KHSAA no later than March 1, 2007 a copy of a written agreement between your high school and related booster organizations stating that your high school's administration will oversee all expenditures, whatever the source, which provides benefits of any nature to your high school's athletes and athletic teams. A generic draft of a booster club agreement is offered for your review on the KHSAA website ("Links, Reports and Information").
4. The school should make a locker room/dressing room assignment chart for each sport. A copy of this chart should be sent to the KHSAA by March 1, 2007.
4. The school should make a new plan for a football practice area that does not include use of the softball outfield. A copy of this plan should be sent to the KHSAA by March 1, 2007.

7. KHSAA Recommended Action in relation to new deficiencies

None at this time.

8. KHSAA Recommended Action in relation to reoccurring deficiencies

None at this time.

10. Comments

Even though Madison Central High School's renovation is not complete, the athletic facilities are impressive. It is obvious the school and community are proud of its athletic program, and understands the benefits from athletic competition. The school should request a copy of the 1999-2000 Baseline Report from the KHSAA office and place that copy and copies of the requested polices in the school's permanent Title IX file. It is suggested that the file be organized and kept in a binder. This will make it easier and less time consuming for those interested in viewing the information. The Gender Equity Committee should pursue methods for increasing the return rate on the Student Interest Survey, and assist in all requested polices. At this time spending has been equitable but the need for administrative oversight is crucial for continued equity.

The District Title IX Coordinator should be a member of the Gender Equity Committee.

A quorum was present for the Gender Equity Committee.

No one attended the Public Forum and the Meeting was adjourned at 5:15 P.M.

To whom it may Concern;

Madison Central is trying extremely hard to accommodate all of the Title IX issues discussed in the audit review. We have completed policy and are attempting to solve the three prong test problem that we have incurred with our female athletes. Madison Central has attempted to offer girls golf on the JV level and according to surveys had enough to play until the time to participate and then they decided not to play.

You will find enclosed the policies pertaining to 1. Uniform Replacement and a schedule of when those will be replaced, 2. Travel per diem policy, 3. Athletic booster agreements are in place, 4. Locker room assignments are distributed and 5. Softball field use and maintenance policy is in place. It is our desire to make everything equitable between our girls and boys and we realize the difficulty of the task at hand. However at Madison Central we are planning on total equality.

We hope that with the current issues revealed by the audit team that we are in the process of attaining that goal and that the action taken by the school will help us accomplish the task.

Sincerely,

Gary Fritz CAA

Policy for meal expenditures

Per Diem for athletes

Booster clubs are an integral part of high school athletics at Madison Central. Therefore it is important for there to be guidelines for the providing of meals to athletes at both boys and girls events. We feel that a dollar amount of \$7.00 per meal per player should be sufficient. This may be altered with prior approval for special events as long as it is done in compliance with Title IX guidelines and is consistent throughout all sports
