- B). Was the History and Continuing Practice of Program Expansion Test (T-2) an area in which the school met Title IX Opportunities compliance?
Yes No

Comments:

- C). Was the Full and Effective Accommodations of Interest and Abilities Test (T-3) an area in which the school met Title IX Opportunities compliance?
Yes No

Comments:

Although the sports of gymnastics for girls and wrestling for boys have been indicated as significant interests on the student survey over time, school personnel have not added these sports to the athletics program. The lack of competition within reasonable distances and the fact that gymnastics is not a KHSAA sanctioned sport were factors leading to this decision. At the present time, the school offers all the sanctioned sports for girls, to include junior varsity and freshmen teams in most sports. In addition, physical education classes, dance team, and cheerleading were said to include gymnastics at some level in their activities. There is a wrestling club team.

3. Is the school's most recent Student Interest Survey accurate in relation to the assessment of Interests & Abilities?
Yes No

4. Checklist of the Title IX Components of the Interscholastic Program

Benefit to Students	Satisfactory	Deficient	Comments
Accommodation of Interests and Abilities	X		The school met the standards for compliance with Test 3.
Equipment and Supplies	X		
Scheduling of Games and Practice Time	X		The school has met the KHSAA required percentage of girls' basketball games to be played on prime dates/times for 2006-2007.
Travel and Per Diem Allowances	X		All travel is by school bus. By policy, per diem is provided by school administration for any team only for state tournament participation.
Coaching	X		Two head coaches of girls' teams are not employed on campus. All head coaches of boys' teams are employed on campus.
Locker Rooms, Practice and Competitive Facilities	X		Four boys' teams have sole designated locker rooms. Only one girls' team has its own locker room.
Medical and Training Facilities and Services	X		All student athletes have access to the weight room at the field house. A wellness area near the gymnasium is available to female athletes after school, and, according to athletes, available for any athlete who is rehabilitating from athletic injury. The school district has contracted with local medical services for coverage as needed.

Publicity	X	<p>Media guides are produced for the basketball teams, the volleyball team, and at times for the football team. Seasonal schedule cards are made available as well. School personnel were commended for holding pep rallies in the fall term that included all teams with equivalent introductions of players.</p> <p>Cheering activities in general appeared to be provided equally for both boys and girls.</p> <p>Established policies are in place for the hanging of photographs and banners in the gymnasium and for the placement of trophies in the display cases.</p> <p>The school has no lettering system; however, coaches distribute individual awards to athletes according to performance criteria appropriate to the sport.</p> <p>Banquets or year-end recognition occasions are held at the coach's discretion.</p>

Individual booster organizations augment that budget as do fundraisers held by teams. Supervision by school administrators appeared well documented and capably managed.</p>

5. Brief Summary/Analysis of the Corrective Action Plan (Form T-7)

Major emphasis since the original on-site visit was placed on adding teams for girls, improving publicity and promotion printed materials, and adding facilities. Goals have been reached, though exclusive use of locker room space still favors boys' teams, four to one. Interest in gymnastics and wrestling reflected on the student surveys was addressed and accommodated by means other than through the interscholastic athletic program.

6. Observed Deficiencies in Overall Girls and Boys Athletics Programs

Some operational policies needed further review for greater clarification. Boys' programs have an advantage in exclusive use of locker room space, in coaches' office space, and in the number of on-campus head coaches.

7. KHSAA Recommended Action in relation to new deficiencies

As an attachment to the 2006-2007 annual Title IX report, **due April 15, 2007**, school personnel will attach a copy of revised policies in relation to:

- A. awards and recognitions, to include those for individuals and teams and annual ceremonies or activities
- B. location of storage space for athletic inventories in each sport
- C. selection and assignments of cheerleaders
- D. established means of communication between off-campus head coaches and athletes during the school day.
- E. scheduling of athletic competition, all sports
- F. any other facet of the athletic program that needs written policy for guidance, as determined by the Gender Equity Review Committee, the athletic director, or the principal

In addition, the school will address on its Corrective Action Plan (T-60) the advantage the boys' program has in the exclusive use of locker rooms and coaches' offices.

Lastly, school personnel are advised to review the school's permanent Title IX file and add to it copies of correspondence from the KHSAA and any other pertinent material which represents procedures currently in place to insure gender equity in athletics. A statement should be attached to the 2006-2007 annual Title IX report signifying that this action has been completed.

10. Comments

The school was commended for its progress in erasing earlier shortcomings, and for the cooperation evident among school personnel, the Gender Equity Review Committee, and the school district.

Interviews with administration, coaches, and student-athletes were positive and supportive of the athletic programs. However, one need that was discussed was the initiation of better "feeder" basketball programs for girls to parallel those opportunities for boys' sports in the community. The exclusive use of locker room space was brought forth in two of the three interviews as well.

The Gender Equity Review Committee meeting was well attended, and the discussion was open, positive

SUPPORT GROUPS

DIRECTIONS – Please respond to the following questions or statements regarding your cheerleading squad(s) and other support groups. Add pages if more space is needed to answer any of the questions/statements. Please type or write legibly in ink.

1. How many cheerleading squad(s) will your school have for the 2005-2006 school year?
One Squad

2. What is (are) the name(s) of each squad? For example, the following are typical names: generals, or black and gold, or boys' varsity and girls' varsity, or varsity and junior varsity.
Varsity Cheerleaders

3. Describe, in detail, the selection process for each named squad.

We have only one squad. It is the Varsity squad. The cheerleader coach (s) picks the squad. This past year, all girls that came out for the cheerleading squad made the squad.

4. How is each cheerleading squad assigned to home and away athletic contests? Include football as well as boys' and girls' basketball (and any other sport) at the varsity and junior varsity levels. Include any rotation plans or alternating game assignments that your squads follow. The varsity cheerleading squad cheers for all home football games and all away games that are in the county. (Somerset and Southwestern) They also cheer for all boys and girls home basketball games and all away games in our district plus Southwestern.

5. Name any squad(s) that takes part in competitive cheerleading events.
The cheerleaders will take part in the year end KPOS and one other approved competition.

6. Do you have any other school groups such as pep band, dance teams or mascots that perform at athletic contests (Y/N)? If yes, name them and describe how they are assigned.
Yes. Dance team and band. They dance for both boys and girls basketball equally. The band plays for all home football games and home boys and girls basketball games equally.

2000-2001	Locker Rooms	We had major problems in this area with 4 dressing rooms for boys and 1 for girls. Last year we built new dressing rooms for the soccer and softball teams that brought us closer to the compliance that we are striving for. See diagram. The school board has already started construction on gym renovation that will provide dressing rooms for boys and girls Tennis, boys and girls Basketball, girls Volleyball and other activities such as dance teams and cheerleaders. In the same construction plan will be a field house that will house dressing rooms for football and boys and girls Track and Cross Country.	June 2003.
2001-2002	Publicity and Student Surveys	The office of the Athletic Director took over the task of printing sports schedules. All Fall schedules are combined into the same schedule as is the Winter and Spring schedules. In regard to game programs, we only print football and boys and girls basketball. The football and girls basketball programs were of low grade and poor quality. The boys Basketball team was a very classy program in living color. A new printer was found with a much better rate that produced a big difference for the boys program this year. The only Sports that Pulaski Co does not offer are Field Hockey, Gymnastics, and Wrestling. Not enough student interest has been generated for Field Hockey. Travel is a major problem for Gymnastics and Wrestling.	Starting in the 2002 - 2003, the three major printing jobs will be handled by the same company. Part of the contact will be that gender equity must be considered with all publications. All the programs are the same quality. In the sports of wrestling and gymnastics, we offer a portion of these two sports, with the limited equipment we have in each.

Not enough interest in Field Hockey. When our students learn that Wrestling is not like what they see on T V, much of their interest diminishes. Gymnastics is offered in part with our dance and cheerleading teams.
