SWIMMING

BACK STROKE, e-j-s-c-a, 1 1/2 reels (15 min.), $3.00.
Good body position and efficient arm action are the basis for the fine performance. Special attention is given to the start and the turn. Effective use is made of animation, stop action and slow motion.

BEGINNING SWIMMING, e-j-s-c-a, 1 reel, $2.00.
Through scenes photographed both above and beneath the surface of the water, basic techniques of swimming for beginners are demonstrated. Land and water drills involving kicking, breathing, floating, paddling and stroking and pulling with the arm practiced separately, then coordinated as the swimmer learns the American crawl. The back float, back stroke, and breast stroke are also illustrated and explained.

BREAST STROKE SIDE STROKE AND UNDERWATER SWIMMING, e-j-s-c-a, $2.00.
This film presents the conventional breast stroke, timing and strokes, and the kick.

BUTTERFLY, e-j-s-c-a, 1 1/2 reels (16 min.), $3.00.
Newest and most challenging of the swimming strokes is explained in detail. Making use of slow motion underwater photography, the arm action and dolphin kick are analyzed. Correct timing between arms and leg action is vital to performance. Reasons for timing are clearly explained.

CHAMPIONSHIP SWIMMING: PERFECTION TECHNIQUE, e-j-s-c-a, 2 reels, (19 min.), color, $5.50.
Outlines briefly the program and training methods used by the Santa Clara Swim Club that may be used by anyone to train swimmers. The technique illustrated, such as weight training, circle training, pace clocks, bench and stroke work and interval training when properly applied in the appropriate circumstances, will all prove beneficial in perfecting swimming style.

CRAWL STROKE, e-j-s-c-a.

The basic principles of the stroke are presented in this film. The arm stroke, the kick, and the breathing are demonstrated. This film also includes slow motion shots underwater.

DIVING FUNDAMENTALS, j-s-c-a, 1 reel, $2.00.
After a brief history of the sport of diving, the following points are explained and demonstrated: the hurdle jump, determining the correct distance, proper arm action, correct way of landing on the feet, proper takeoff and lift, correct entry into the water. The backward dive is also taught, including lift, arching the body, and entry into the water. The motion is stopped at various points to enable the detailed study of form.

DOLPHIN KICK, e-j-s-c-a, 1 reel, $2.00.
An excellent swimmer, an underwater camera and carefully devised teaching demonstrations introduce the new swimming techniques known as the dolphin or fishtail kick. Analyzing the body movements used in the dolphin kick, the film stresses the importance of practice for mastery of this efficient speedy kick.

DROWN PROOFING, j-s-c-a, 1 reel (9 min.), color, $4.50.
Shows how to stay afloat and travel in water even if you have never learned to swim. Ninety-nine per cent (99%) of all men and about ninety-nine per cent (99.9%) of all women can remain on the surface in fresh water without moving, as can nearly all children.

I'M NO FOOL IN WATER, p-e-j-a, 1 reel (8 min.), color, $3.00.
Jimmy Cricket illustrates the "do's" and "don'ts" of water safety precautions. Points out the basic rules: wait at least two hours after eating, stay out when water is too cold, never swim alone, and dive only when you know the water is deep enough.

SPRINT CRAWL, e-j-s-c-a, 1 1/2 reels (14 min.), $3.00.
Underwater photography plus animation demonstrate the dynamics of moving solid bodies through water and the resistance factors that must be overcome. You see the employment of arms and legs as well as entire body for speed, streamlined power. Championship racing starts, breathing techniques, and turns are shown in slow motion.

BASEBALL

BASEBALL ALL-STAR GAME OF 1965, e-j-s-c-a, 2 reels, color, $1.00.
In the 36th all-star game at the home of the Minnesota Twins in Minneapolis, the National League conquered the
