CHEMICAL HEALTH

Target’s Goals, Missions and Results

The National Federation created TARGET in 1985 in response to critical problems of alcohol and drug abuse among school-aged youth. For instance, alcohol abuse appears to be increasing at an annual rate of two percent in the general population. But among young people from 12 to 24 years of age, alcohol abuse is increasing at least twice the rate. Drug abuse, too, is an increasingly serious factor in all aspects of the lives of our youth, as each day’s news sadly confirms.

The National Federation and its members believe that this chemical epidemic among students will not recede by itself. The battle requires effective education and prevention programs — programs to help students resist the peer pressure that engenders chemical abuse, programs that can take chemical abuse out of style in our society. TARGET is designed to fill those needs for National Federation members, schools and students.

Goals of the TARGET Program

• Widespread understanding among all students of the benefits of healthy living and the consequences of chemical abuse (drug and alcohol abuse);
• Creation of a skilled cadre of student leaders whose behavior will influence their peers to lead healthy, socially responsible lives.

Missions of the TARGET Program

• To promote training programs that prevent chemical abuse (drug and alcohol abuse) among school-aged youth;
• To foster a national organization of high school students committed to promoting healthy behavior among their peers;
• To offer computerized referrals to information on chemical abuse and on education and prevention, especially as it relates to school-aged youth and extracurricular activities, including high school sports;
• To provide computerized referrals to information on organizations offering treatment, intervention, or specialized information on topics related to chemical abuse and prevention among school-aged youth;
• To offer National Federation members such services as printed and audiovisual materials, guidance to financial support for chemical-health programs, and consultation on chemical-health problems and issues.

TARGET can accomplish these missions because of the strength of the members of the National Federation and the strength of its new board of directors. The members’ network reaching down to the local level makes TARGET more effective at delivering services to students than any other organization. The board’s commitment to the growth of TARGET will make the program reach youth more quickly and effectively.

A solid foundation for the future of TARGET has been laid in the past year. Programs already are being implemented, trainers being trained, and anti-abuse workshops conducted. Literature and other materials are in development.

Results of the TARGET Program

• More than 13,136 persons have participated in various TARGET workshops. Those attending workshops were superintendents, principals, assistant principals, athletic directors, coaches, parents and student leaders.
• Corporate involvement has begun, even before the formation of the TARGET board. Eastman Kodak Company contributed $250,000 for the early stages of the development of TARGET. Joan Kroc has contributed seed money to develop TARGET programs. Hazelden-Cork provides an annual subsidy and consultation to the National Federation TARGET program.
• TARGET’s Operation Prom/Graduation booklet was distributed in March 1996. This student planning guide promoted alcohol and drug-free alternatives for two popular annual activities, proms and graduation parties. About 30,000 copies of this booklet were sent to nearly all high schools and others throughout the United States.
• Audio and video versions of a public-service announcement featuring baseball player George Brett will be aired by affiliates of the 5,000-member National Association of Broadcasters.
• National Federation members have responded admirably to the anti-abuse cause. Many state associations have developed active — and potentially very effective — programs. The Minnesota State High School League was a pioneer of state associations in Chemical Health Education and was instrumental in urging the National Federation of State High School Associations and its member associations to become involved. In Massachusetts, “Chemical Health Day” was established; a statewide chemical health league coordinator was named; and liaisons with similar associations were solidified. In Wisconsin, the state athletic/activities association is working with a television station to develop an alcohol/drug education film. Michigan and South Dakota have begun training programs, with five trainers in each state already skilled in teaching others about chemical health. And in Washington, posters and TV and radio public-service announcements were developed and distributed to heighten awareness of the efforts against drug and alcohol abuse.
• National publicity momentum has begun for the TARGET program. TARGET has generated coverage by such publications as USA Today, Kansas City (Mo.), Times, Denver (Colo.) Post, Tulsa (Okla.) Tribune, Milwaukee (Wis.) Journal, Louisville (Ky.) Courier-Journal, and many other media across the country.

Now, with the assistance of the new TARGET board of directors, the program will blossom even more quickly. The priorities for the board are accelerated anti-abuse training across the nation and further development of a computerized chemical health resource center, a reference bank of information on chemical abuse and prevention.

The computer system at the TARGET chemical health resource center will be the nation’s best link to up-to-date information about the life-styles of school-aged youth, especially as it relates to extracurricular activities and high school sports. The resource center computer system can put schools everywhere in touch with ideas and programs that work in other places.

The other priority, developing student health-promotion programs in high schools throughout America, will equip students to resist peer pressure to use or abuse harmful chemicals. The training then will help students turn peer pressure around to the positive to take abuse "out of style."

SWIMMING COMMITTEE MINUTES

The Swimming Committee met on Thursday, August 28, at the K.H.S.A.A. Office in Lexington. Assistant Commissioner Brigid L DeVries called the meeting to order at 1:30 p.m. Committee members present included Tim Cahill, Joel Cyganiewicz, Steve Busch, Tom Ross and Jack Thompson.

The first item on the agenda was the selection of the regional sites. The managers and sites are as follows:  
Central Kentucky Region - Tim Cahill, Model High School, Richmond;  
Jefferson County Region - Jack Thompson, Crescent Hill, Louisville;  
Western Kentucky Region - Tom Ross, Bowling Green;  
Northern Kentucky Region - Dave Webb, Scott High School, Covington. The committee discussed the regional information sheets and made some minor corrections for the coming year. The double elimination format for regional play worked well this past year and will be in effect this coming year.

A discussion followed regarding the site for the 1986 State Volleyball Tournament to be held October 31 and November 1. Written requests to host the tournament were received from Fairdale High School and Southern High School in Louisville, Kentucky. John Bancroft recommended that the 1986 State Volleyball Tournament be held at Fairdale High School. The recommendation carried unanimously.

The Clinic dates for 1986 are as follows:  
August 19 - Iroquois High School, Louisville - 7:30 P.M.  
August 21 - Dixie Heights High School, Fort Mitchell - 7:30 P.M.  
August 26 - Sportsworld, Lexington - 7:00 P.M.

The Committee suggested that a change in the State Tournament format be recommended to the Board of Control. The recommendation is to bring the winner and runner-up team from each region and play a single elimination tournament in the State Tournament. If approved by the Board of Control, the change would not go into effect until the 1987-88 school year. This item will be discussed at the October Board of Control meeting.

From The Commissioner’s Office  

NOTES & QUOTES

BASKETBALL RULE 10-5

Last spring, the Association surveyed its member schools regarding Basketball Rule 10-5, the rule regarding bench decorum by coaches. The choice given was whether or not to petition the National Federation for permission to experiment with an alteration to the rule in some form. The response from the schools was approximately seventy-five percent in favor of requesting the experiment.

In accordance with the survey results and Board of Control wishes, Executive Assistant Billy V. Wise petitioned the National Federation requesting an experiment which would allow the Head Coach to stand or kneel in front of his/her seat to give instructions to players and then immediately return to his/her seat.

On June 6, Dick Schindler, Assistant Director of the National Federation responded to the request. Citing positive results from the rule change to 10-5 in the previous year, and the basketball committee’s desire for a commitment to strict enforcement nationwide, Mr. Schindler informed the K.H.S.A.A. that their request had been denied. He also pointed out that no other state had been or would be given permission to experiment with the rule.

This information was given to the Board of Control at its regular meeting in July, and the Board expressed further concern with regard to the rule due to feedback from the schools in each members area. The Board referred the matter to the All Sports Committee who met on September 13 at the K.H.S.A.A. The committee discussed the pros and cons of a possible non-permitted deviation, and then decided that it was in the best interest of the schools, the Association, and our standing with the National Federation to enforce the rule as it is written for the 1986-87 season. The committee also voted to request a rule change or experimentation for the 1987-88 season.

PADDING REQUIREMENTS CHANGED FOR BASKETBALL BACKBOARDS

Padding on rectangular backboards must meet new specifications as a result of action at the National Federation Rules Committee Meeting. Both the bottom front and the bottom back edge of a rectangular board must be padded up a distance of 3/4 of an inch with a minimum of 1 inch thickness. The bottom and side padding must continue to meet the current 2 inch thickness requirement. Schools should examine the padding on their backboards to be sure the proper thickness is being used. Inexpensive padding kits are available through sporting goods dealers to assist in conforming to this rule. One other note, the newly approved shorter backboard is optional, NOT required as some salesmen seem to be telling member schools.

ESPAN TO TELEVISE HIGH SCHOOL SPORTS SHOW

ESPN has begun televising a weekly show, "Scholastic Sports America" to focus on high school sports. The half hour program will feature highlights of current and former participants, and will air on Saturday evenings at 6:30, Sunday mornings at 10:00 a.m., and Tuesday afternoons at 5:30.
IMPORTANT NOTICE TO ALL KHSAA OFFICIALS

Those officials registering in basketball for this season prior to September 1 will be receiving your rules books from the National Federation office. Again this year, the printing of the Simplified and Illustrated book has delayed their shipment. Officials who have registered since September 1 will receive their books from the K.H.S.A.A. office as soon as they become available, as will basketball playing schools. Officials registering in wrestling will receive their rules books in the next few weeks, as will wrestling schools.

A.C.T. TEST DATES FOR 1986-87

NEW ASSIGNING SECRETARY FOR TENTH AND ELEVENTH REGIONS

Because of the vacancy in the position, the names of the Assigning Secretary and Training Officer for the 10th and 11th regions were left out of the Handbook. The new Assigning Secretary is Larry Boucher, 206 Pin Oak Drive, Frankfort, 40601, (502)227-9976 (W), (502)564-2250 (W). The training officer is Jerry Pickrell, 592 Merrimac Drive, Lexington, 40503, (606)223-4555 (H & W).

CORRECTION TO CROSS COUNTRY INFORMATION

The Cross Country information sent to schools contained the following errors -- Region III. Class AAA manager is Rich Rostel at Trinity High School. In the information, Barry Binkley at Dayton was listed first as the manager. Binkley is the AAA manager for Region VI. We apologize for any inconvenience which this error may have caused.

ADDITIONAL PADDING REQUIRED FOR POLE VAULT LANDING PADS

Track schools which sponsor the pole vault will be interested to note that beginning in 1987, all pole vault landing pads will require front pads, extending from the main landing pad and surrounding the pole vault planting box. Rule 7-4-5 of the Track and Field Rules states that the front pad must: 1) Be a minimum of four feet deep, extending from the main landing pad towards the front edge of the planting box; 2) Have a maximum cut-out for the planting box of 36 inches, measured across the bottom of the cut-out; 3) Have the back of the cut-out placed no farther than 14 inches from the vertical plane of the top of the stopboard (end of planting box); 4) Be attached to the main landing pad or encased in a common cover with the main landing pad. Diagrams of the change are available from the Association office, and will probably be printed in next year’s track rules manuals.

REMINDER TO FOOTBALL SCHOOLS

A referendum distributed to the schools in the spring passed by a vote of 118-55. The referendum stated that the first legal playing date for football was eleven weekends prior to the first round of the playoffs, and that practice for football could not begin prior to August 1. This makes the first valid playing date in 1987 August 21. Keep this in mind in making out your schedules. Please remember to inform the office as to open dates. This is also important due to the fact that the new alignment plan for football is to be implemented effective with the 1987 season.
IMPORTANT NOTICE TO K.H.S.A.A. PRINCIPALS

Over the summer, the K.H.S.A.A. mailed supplies to the member schools. These include transfer forms, game contracts, foreign exchange forms, and eligibility booklets. PLEASE DISPOSE OF ALL OLD TRANSFER FORMS, GAME CONTRACTS, ELIGIBILITY BOOKLETS, and PARTICIPATION LISTS. These forms and publications have changed considerably in the past few years, and it is important and will expedite the processing of any inquiry if you will use the current form. Please advise the K.H.S.A.A. if you run out of any form, and we will be happy to provide you with additional copies. Schools are requested to make additional copies of the student/parent eligibility booklet if you should need them.

PADDING REQUIREMENT - VOLLEYBALL STANDARD

The National Federation Volleyball Rules (3-1-3) specifies that beginning with the 1986-87 season, it will be mandatory for the standards to be padded to a minimum height of 5'6" with at least 1 inch thick, soft, flexible material (such as polyethlene foam) to incase the uprights and all tensioning devices. The rule also specifies that the front and sides of the referees platform shall be protected in the same manner. Guy cables or rigid braces shall be padded to a minimum of 5'6" in height with at least 1/2" of thick, soft, flexible material. Athletic Directors should be certain their standards meet these specifications. Ready made padding kits meeting these specifications are available from various manufacturers.

OPEN DATES FOR BASKETBALL SCHOOLS

The following are the open basketball dates for the upcoming season according to information which has been turned in to the office. If any of these dates have been filled, please notify the office by phone or in writing.

The next item on the agenda was the new officials fees. Officials, both umpires and referees, will receive $18.00 per match for regular season varsity play. Regional tournament fees are $20.00 and State Tournament fees are $25.00 per match.

A brief discussion followed regarding the 1986-87 National Federation Volleyball rules. The most significant change requires padding on standards, floor and wall cables and the referee's stand. Schools participating in volleyball shall have their equipment padded effective this school year.

The Constitution and By-Laws were studied and no changes were suggested in the Volleyball section.

There being no further business, the meeting was adjourned.

In addition, the TARGET program will serve as a unique link tying America's schools and youth to the official and unofficial network of agencies fighting drug and alcohol abuse. The National Federation is developing agreements with such entities as Federal and state alcohol and drug agencies, professional sports leagues, and private organizations with similar anti-abuse goals. Agreements will involve a variety of activities, from information-sharing to cooperation on services or prevention programs.

TARGET is being bolstered by an aggressive campaign to alert community leaders, educators, parents and students that the National Federation and its state-association members offer solutions to the national epidemic of abuse. With the assistance of experienced outside public relations counsel, the National Federation will build public awareness of the weapons available in the fight against substance abuse and chemical dependency. The National Federation will arm its members to conduct local awareness campaigns and will reinforce state and local efforts with its own nationwide umbrella program to stimulate use of TARGET. Ingredients of the promotion plan include national news coverage of major chemical-health issues, state-by-state promotion of TARGET, and a nationwide student rally against chemical abuse.
