Many people believe that drugs are the "bad" things for young people. Some parents, in fact, are actually relieved if their youngsters are "only drinking alcohol," not realizing that alcohol, too, is a drug.

However, statistics clearly indicate that one of every 10 teenagers is presently, or will become, an alcoholic. Alcohol is a drug that can lead to physiological and psychological dependency. Some reports estimate that almost 500,000 people under the age of 21 years already are alcoholic; and Alcoholics Anonymous, a self-help organization, reports a growing number of young people among its members.

Alcoholism is a disease; and the teenager, like any other alcoholic, has little control over the consumption of alcoholic. The progression of alcoholism begins with symptoms of increasing tolerance, increasing frequency and preoccupation with alcohol, and ends with decreasing tolerance, hospitalization and possible death.

A teenager with an alcohol problem has feelings and attitudes similar to all other alcoholics. He or she frequently feels isolated, needs a drink to calm the nerves, feels uncomfortable in situations where there is no alcohol, has a continual preoccupation with the opportunity for the next drink, and feels irritated when his/her drinking is being discussed by others.

The teenage alcoholic also may have more aggressive attitudes toward family and friends, have grandiose feelings of superiority and omnipotence, lose interest in outside activities and hobbies, stop caring about people, have feelings of guilt and despair, and develop a fear of fear.

His or her grades may fall, and handwriting may become shaky. The attention span may become shortened, and there could be an increase in absences and tardiness in school. The teenage alcoholic finds it difficult to cope with frustration and has constant changes in friendships. The teenage alcoholic may become irritable with family members and former friends and often becomes suspicious of all people. He or she may also become rebellious, giddy, have a low capacity to persevere, may demonstrate impulsive and/or promiscuous behavior, may lie to parents and teachers, and may make frequent trips to the doctor or school nurse.

Such symptoms are readily noticeable with the teenage alcoholic who continuously denies any problem with alcohol. What can be done to help the teenage alcoholic? Keeping in mind the tremendous amount of denial the teenage alcoholic will have, the following may be helpful:

1. **Establish Concern.** Talk with the alcoholic and convey love and concern about the changes in his or her behavior.
2. **Model the Behavior.** There will be changes if the proper role modeling is received.
3. **Don’t Accept Excuses.** Alcoholics often develop excuses and rationalizations to avoid talking about their problem. Don’t fall for it. Stick with the topic.
4. **Confront the Alcoholic.** It is possible to reject the behavior of the alcoholic while, at the same time, accepting him or her as a person. You can convey love and concern while not condemning drinking behavior.
5. **Seek Professional Help.** Enlist the aid of a professional. Most communities have a council on alcoholism which can provide a professional counselor. Alcoholics Anonymous offers assistance to those in need.

**SAVING "NO" TAKES COURAGE**

Saying "no" to a drink isn’t always easy. Sometimes it’s extremely difficult and requires a lot of thought, practice and support. Following are some practical suggestions which should be helpful. You may want to try a few to see which ones you are most comfortable using . . .

- No, thanks, I’m driving.
- No, thanks, I don’t want to get into trouble with my parents (teachers, friends, grandparents, and so forth.)
- No, thanks, if I drink I’ll lose my privileges (e.g., use of the car).
- No, thanks, I don’t like the taste.
- No, thanks, I don’t drink.
- No, thanks, it’s just not me.
- No, thanks, I’ve got to study later (or pick up a friend, or get up early, and so forth.)
- No, thanks, I want to keep a clear head.
- No, thanks, I usually end up embarrassing myself.
- No, thanks, drinking makes me tired.
- No, thanks, I’m on a diet.
- No, thanks, I’m in training.
- No, thanks, what else have you got?
- No, thanks.

You may want to develop your own refusal skills, and more importantly, you may wish to get support from your friends, parents and teachers for saying "no."

Being able to say "no" often takes courage and certainly shows that you value yourself, your relationship with your family, and that you are handling things in an adult manner. Asking for help is also a very mature thing to do.

**How do you say "no" to a drink?**

Any way you want to!!

**QUESTION AND ANSWERS**

Q. Of amphetamines, caffeine, methaqualone and methamphetamine, which is not a stimulant?
A. Methaqualone is not a stimulant. This is a non-barbiturate, sleep-inducing drug called a "llude" or "sopor" on the street. Abuse can lead to convulsions or coma.

Q. Of cigarettes, heroin, codeine, LSD or caffeine, which poses the greatest health hazard to the most people in the United States?
A. Cigarettes. There are more than 50 million cigarette smokers in the United States. It is estimated that 300,000 deaths each year are related to tobacco use. Some of the long-term effects of smoking are emphysema, chronic bronchitis, heart disease and cancer of the lungs, mouth, larynx and esophagus. Women who smoke during pregnancy run the risk of having babies that weigh less, or of losing their babies through stillbirth or death after birth. Therefore, the health risks associated with tobacco are exceptionally high.

Commissioner Mills advised the Board that Red Bird High School has changed from a public school under the jurisdiction of the Leslie County Board of Education to a private school. Huston DeHaven seconded the motion which passed unanimously.

The Board then discussed a request from Mr. Bill Warfield on behalf of his daughter, Kimberly, to allow her to participate in interscholastic athletics during the 1989-90 school year rather than the 1988-89 school year due to an injury sustained at basketball camp this summer. Following Mr. Mills' presentation on behalf of Mr. Warfield, Sam Chandler made a motion that the Board grant Kimberly Warfield an extra year of eligibility. David Points seconded the motion which passed unanimously.

2) Change size of softball from 12” to 11” for the girls softball program.

FOOTBALL SCHOOLS REMINDED TO SUBMIT STATISTICS REPORTS

With six more playing weeks in the season, it is important for high school football teams to remember to submit the statistics report to this office so that deserving individuals can be recognized by the media and potentially, by collegiate officials. The forms were mailed to the Athletic Directors, to be forwarded to the person in charge of the school's football statistics. Thus far, we have received nearly a 50% response. This is tremendous in light of the fact that this is a new undertaking by this office. Please continue to respond.

OPEN DATES SOLICITED FOR FOOTBALL SCHOOLS

Please submit these open dates in writing and include 1) the game date desired, 2) 1989 site desired if you have a preference, and 3) a contact name and daytime phone number. We will publish the list beginning with the October issue.

A STATEMENT FROM THE KENTUCKY HIGH SCHOOL ATHLETIC ASSOCIATION

In light of several questions which have arisen, there seems to be a misconception in some areas, as to the purpose, structure, duties, and powers of the Kentucky High School Athletic Association (K.H.S.A.A.) Frequently it is said by the news media, laymen and school people that the K.H.S.A.A. said something, or did, did not, will or will not do something. What does this mean? What is the K.H.S.A.A.? The inference of such statements is that the Association is a small group of individuals in Lexington, imposing and dictating their policy to all involved in interscholastic athletics. Nothing is further from the truth.

In 1917 a group of educators met to discuss the growing problems of athletics. The eighteen schools represented were the charter members of the K.H.S.A.A. Since that time the number has increased to include all the accredited high schools who desire to join. All schools, be they public, private or parochial who join the Association agree to abide by the same set of rules. In 1936-37 there were 572 members but consolidation of schools has caused the number to decrease to 291 in 1987-88. The Constitution and By-Laws adopted at that time stated that "The object shall be the development, regulation and purification of the athletic activities in this state."

The structure of the Association has not changed, in general, since its inception. Each school joins the Association annually through its principal. The Constitution and By-Laws, and changes thereto, are determined by the Delegate Assembly at an annual meeting. This group is composed of one representative for each of the sixty-four basketball districts elected by the Board Appointed Representative of the schools in the district, a representative of the Kentucky High School Coaches Association, a representative of the Kentucky Girls Sports Association, and a representative of the Kentucky High School Athletic Directors Association.

The Board of Control is composed of 12 members, which includes, pursuant to the Constitution, two blacks and two females, all of whom are certified employees of a Board of Education. Some of the powers of the Board of Control are the general supervision of the Association and its activities, employment of the staff, establishing tournaments and meets, and deciding all questions and performing duties not otherwise provided for in the Constitution. The duties of the Commissioner are set forth in the Constitution, By-Laws and Tournament Rules, some being the preparation and receiving of reports, interpreting the Constitution, enforcement of penalties provided, conducting meets and tournaments, registering officials and conducting rules clinics.

The powers of the Commissioner are specific and he is bound by the rules of the Association in that he can not change or set aside any regulation unless it so states in the By-Laws. In interpreting the rules regarding a contestant's eligibility, the Commissioner is governed by the rules. In order to process the volume of 500 to 700 transfer cases and eligibility determinations per year, he relies upon the information provided by the principal of each member school.

Numerous other regulations are enumerated in the Constitution, By-Laws and Tournament Rules as to the number of contests, post-season, all-star and interstate contests/games, practice of sportsmanship, duties of the principal and the tournament and meet regulations governing all sports. These matters are determined by the rules and not by the "whim" of the Commissioner's office or the Board of Control.
In addition to the determination of the eligibility of participants and the enforcement of other regulations set forth in its Constitution, the Association is involved in many other areas. Each of the nearly 150,000 high school students enrolled in our member schools who choose to participate in high school athletics as a team member, cheerleader, band member, trainer, manager, or in some other capacity is covered by a catastrophic insurance policy at no cost to the participant or the member schools. The Association goes to great lengths to recruit and train officials for high school contests, with over four thousand Kentuckians currently on the rolls. A total of 29 championships in baseball, basketball, cross country, football, golf, soccer, softball, swimming, tennis, track, volleyball and wrestling are conducted at the high school level. In 1987-88, the Association honored nearly 8,000 competitors in its Academic All State program, which cited those participants who had competed in high school athletics while maintaining a minimum cumulative grade point average of at least 3.25. The Association has recently initiated involvement in the TARGET drug abuse awareness and prevention program which will address this important issue to all students in grades 5 through 12. The Association also recently began the Dawahares-Kentucky High School Athletic Association Hall of Fame, a program designed to honor those many individuals who have contributed greatly to the development of Kentucky’s fine high school sports program.

The numerous and diverse undertakings of the Association require the cooperation of each of its various constituencies, particularly its member schools. When it is heard that the Commissioner or the Association rendered a decision on the eligibility of a participant, it is always based on a rule as written, not an arbitrary or capricious thought. These Association rules and regulations are made by the leaders of the educational program for all the member schools. We believe these are the best qualified individuals to make the rules and regulations governing interscholastic athletics in the State of Kentucky.

**IMPORTANT NOTICE CONCERNING DISQUALIFICATIONS**

By Board of Control action, all participants and/or coaches who are ejected from a contest for unsportsmanlike conduct shall be suspended from competition for a minimum of one game.

With this in mind, it is important to adhere to the following procedure should a representative of your school be ejected for unsportsmanlike conduct. 1) Be sure you receive a disqualification card from the contest official; 2) Contact this office in writing to request reinstatement of the participant; 3) Inform the participant/coach of the suspension. You will be notified by return mail as to the end of the suspension, and the date or day when the player/coach will be eligible to return to competition. Contests officials are reminded to use an ink pen and to press hard as the third copy is often illegible if done in pencil.

*NOTE* Any person who is suspended from a contest may not dress for that contest in game uniform. They will however be covered by the catastrophic insurance policy insofar as practice is concerned unless you are otherwise notified.

These dates are as printed on the 1988-89 Memorandum Calendar. It is important to remember that these dates, particularly for the state finals, are tentative as site availability may force a change in location and/or date.

IMPORTANT NOTICE CONCERNING MEDICAL SYMPOSIAUMS
The State Board of Education will consider at a meeting later this fall, a proposal from the K.H.S.A.A. which would change the requirement for the Medical Symposium and the penalty for non attendance. In light of the fact that this penalty has not been adopted, there will be no sanctions this year against schools or coaches who did not attend this past summer. However, if the K.H.S.A.A. proposal is approved, those coaches who did not attend in 1988, would be required to attend in 1989. Thereafter, coaches would be required to attend on at least a bi-annual basis. As soon as we are informed as to the State Board's decision, we will advise each member school.

THANKS TO THE N.F.I.O.A.
The Kentucky High School Athletic Association would like to thank the National Federation Interscholastic Officials Association for their help by mailing the rules books to Kentucky football and basketball officials. The football books were mailed in early August, while the basketball books were mailed in early September and most officials have already received them. This is a tremendous service and is done as a courtesy by the National Federation which allows this office to save the cost of shipping the books as well as many other administrative costs.
