Coach Comments

1. Please describe what advancing to the State Tournament means for your program, your school and your players.

I feel that this will set a precedent for the future. It was really great for our program because it was something that had never been done in our schools' history. I am extremely proud of our team and this could not have happened to a greater bunch of young men. As they grow older, this is something that they will never forget.

2. What will your team have to do in order to have a chance of winning the State Tournament?

We just have to compete and want it more than whoever we play. We have it in our mind to not be satisfied with just winning the 13th Region. There are 15 other teams with the same goal that we have and the team that defends, rebounds, and wins all the hustle plays will come out on top.
