

APRIL 8TH, 2024
TOTAL SOLAR ECLIPSE

ECLIPSE SAFETY TIPS

Protect your eyes! Use safe solar viewing glasses when viewing the eclipse. Regular sunglasses won't protect your eyes.

Visit: <https://eclipse.aas.org/eye-safety/viewers-filters> to view a list of where you can find solar viewing glasses

If spending time outdoors to view the eclipse, wear sunscreen and protective clothing to prevent skin damage.

Do not view the eclipse through a camera lens, telescope or binoculars.
