Re: 2002 Title IX Forms Submission

School	Walden	Reviewed by	Gary W. Lawson
--------	--------	-------------	----------------

The following is a status report regarding the required 2001 - 2002 Title IX submission of forms due in to the KHSAA office by April 15, 2002. Appropriate audit personnel have reviewed these forms and the following is a summary of this review.

I. Checklist of Forms properly submitted in a satisfactory manner:

<input checked="" type="checkbox"/>	GE 19 (Annual Verification)	<input checked="" type="checkbox"/>	T-35 (Budget Expenses)
<input checked="" type="checkbox"/>	T-1 (Summary Program Chart 1)	<input checked="" type="checkbox"/>	T-36 (Budget Expenses)
	T-2 (Summary Program Chart 2)	<input checked="" type="checkbox"/>	T-41 (Checklist – Overall Interscholastic Program)
<input checked="" type="checkbox"/>	T-3 (Summary Program Chart 3)	<input checked="" type="checkbox"/>	T-60 (Corrective Action Plan)
<input checked="" type="checkbox"/>	T-4 (Summary Program Chart 4)	<input checked="" type="checkbox"/>	T-63 (Interscholastic Survey Results)

II. Status

A.		2001 – 2002 Forms are satisfactory and no further information or action is necessary at this time.
B.		Errors have been noted with respect to the following forms and corrected copies are being returned to you for placement in your Title IX file to ensure proper submission in the future.
C.		The following forms were omitted and must be submitted by school representatives.
D.	<input checked="" type="checkbox"/>	Other Recommendation and Comments:
		<u>Form T-2 is incorrect and we are unable to correct it for you because we do not know your total number of participants. In column number three you show more teams added in the past 5 years than you currently have (4 to 3). This is impossible. If you have added a team and dropped it in the last five years, it does not count in column #3. Also you show adding more participants than you currently have. This is also impossible. As with the teams, if you had added participation opportunities and also dropped them during the five year period. The ones you dropped does not count in the total (Column #4). Please resubmit Form T-4 to the KHSAA with corrected information no later than May 25, 2002.</u>

To Whom It May Concern:

I have corrected the T-2 and T-4 Title IX pages. Please let me know if there is anything else I need to do.

Thank you,

	Row 8	total:	3	34	1	10	29.4%

- 1) List the number of interscholastic teams offered for girls and boys at each competitive level (for example, varsity, junior varsity, and freshman levels). Total each of the entries in Column 1 into Row 4, Column 1 and Row 8, Column 1.
- 2) List the number of interscholastic teams that have been added in the last five years at each competitive level. Total each of the entries in Column 3 into Row 4, Column 3 and Row 8, Column 3.
- 3) List the number of participants that are currently on each level of the teams that were added in the last five years. Total each of the entries in Column 2 into Row 4, Column 2 for girls and Row 8, Column 2 for boys. If a team was added previously but no longer exists, there are no current participants to be added for that team.
- 4) List the number of participants added in the last 5 years. Total each of the entries made in Column 4 into Row 4, Column 4 for girls and Row 8, Column 4 for boys.
- 5) Calculate the percentage of participants that have been added in the last five years (Column 4 divided by Column 2 on each line). For example, if girls' varsity soccer (22 participants), junior varsity soccer (18 participants), junior varsity golf (8 participants), and freshman softball (15 participants) have been added in the last five years, then 63 participation opportunities have been added for girls. If the total number of female participants in the program is 96 (taken from Form T-1, Row 1, Column 3), then 65.6% of the current opportunities (63 of 96) have been added in the last five years. Perform similar calculations for male participants.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with test two may be possible. If less than 25%, then compliance with test three should be analyzed. CAUTION: 25% is not a formal compliance standard.

Row 2	BOYS	26	63%	34	57%
Row 3	Totals	41	100%	60	100%

Instructions:

*Number of 8th grade students & below used in Column 4 calculations if applicable: _____

- Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of competition**, and cross out the names of those who were cut from the team or quit the team prior to the first competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8th grade students & below are included. Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

Perform similar calculations for male participants.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with test two may be possible. If less than 25%, then compliance with test three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.
