**Participation Opportunities Test One**

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	138	43%	197	44%
Row 2	BOYS	180	57%	247	56%
Row 3	Totals	318	100%	444	100%

Instructions:

\*Number of 8<sup>th</sup> grade students & below used in Column 3 and Column 4 calculations if applicable: 51B and 79/G= 128 (d-t count)

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. \* In addition, should 8<sup>th</sup> grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8<sup>th</sup> grade students & below are included in the totals.  
 Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

- 1) For Column 1, list the number of interscholastic teams offered for girls and boys at each competitive level (varsity, junior varsity, and freshman). For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 2) For Column 2, list the number of participants at each level. For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8. **Note:** The totals in Row 4 for girls and in Row 8 for boys must be the same as the totals in Form T-1, Column 3, Rows 1 and 2 respectively.
- 3) For Column 3, list the number of interscholastic teams that have been added in the last five years at each competitive level. Count each team added during the 5 year period only one time. e.g. Girl's junior varsity soccer was added 3 years ago, count the team only once, not 3 times. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 4) For Column 4, list the number of participants that are **currently** on each level of the teams that were added in the last five years. If a team was added previously but no longer exists, there are no current participants to be added for that team. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.

FOR ANY QUESTION ANSWERED "YES" IDENTIFY THE RESPECTIVE SPORT(S).

	GIRLS (Yes / No)		BOYS (Yes / No)
1. For a sport <u>not</u> currently offered in your interscholastic athletics program, is there sufficient interest to form a viable interscholastic team based on participation on an intramural team.	No		No
2 For a sport <u>not</u> currently offered, is there sufficient interest, based on the responses to your most recent Student Interest Survey, to form a viable interscholastic team for a sport not currently offered. If yes, what sport?	Yes		No
3. For a sport currently offered at the junior varsity or freshman level is there sufficient interest, based on your most recent Student Interest Survey, to form a varsity team not currently offered?	No		No
4. For a sport currently offered at the varsity level only, is there sufficient interest, based on your most recent Student Interest Survey, to form a viable team for a junior varsity or freshman team that is not currently offered?	No		No
5. If you answered YES to question (1), (2), (3), or (4), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	Still Investigating this		NA

**Plans to Address Interest:**

We have dealt with this since I first took the job last year and when our new principal was hired this past summer it has been a monthly/weekly item. We have conducted three additional surveys since I did the big one in March 2007. At our last SBDM council it was approved that I organize and conduct a soccer skills camp in June of 2007. Based on participation we might try and field a JV team for this coming fall. Associate Commissioner Larry Boucher and Associate Commissioner Darren Bilberry were in attendance at this meeting.

TITLE IX

CORRECTIVE ACTION PLAN

SCHOOL NAME  
Beechwood

**DIRECTIONS:**

1. For Column 1, indicate the intended area (Opportunities or Benefits) which needs corrective action in order to achieve gender equity. For Column 2, write the suggested change or activities that will correct the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need "corrective" action. However, the KHSAA strongly encourages compliant schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program.
3. You may copy this form as needed. Please attach corrective action plans along with audit forms and submit by April 15, 2008.

COLUMN 1	COLUMN 2	COLUMN 3
ITEM FOR CORRECTION/ IMPROVEMENT	SUGGESTED CHANGE/ ACTIVITIES	TIME TABLE FOR CORRECTIVE ACTION/ AND OR COMPLETION DATE
Continue our process of adding more female sports....most likely SOCCER	We are conducting a soccer skills camp in June 08 with the possibility of starting a JV team in the fall of 2008	This has been addressed every month at our SBDM council meetings and will continue.
Upgrade Uniforms	We have followed new uniform rotation policy established and actually were able to purchase new away girls' basketball uniforms early	Plan is to update and re-write uniform policy
Update on campus baseball field and try to bring softball back on site	Add infield grass to BB field. New dugouts, fencing, etc. for both	As money becomes available (hopefully by 2010). There has been an athletic foundation established to address facility needs.
Banner and recognition	Purchase team banners and recognition boards	This did not get addressed as planned because of the soccer issue. We hope to have it complete by end of school year 2008-2009
Rising cost of advancing/winning regional and competing at state championships (baseball and swimming this past year and FB/Swim/? this coming year)	Work with Booster Club to address policies about level of awards. Baseball travel bill for State finals in June '06 was over \$3,200 but bills did not come in until July '07. Jackets (BB/SW) and rings (BB) was \$9,000+	We will need to work with Booster Club and your Title IX staff to make appropriate accommodations. Completion date of June 2009
