The following is a status report regarding the required 2007 - 2008 Title IX Annual Report submission of forms due into the KHSAA office by April 15, 2008. Appropriate KHSAA Audit Team personnel have reviewed these forms and the following is a summary of this review.

I. Checklist of Forms properly submitted in a satisfactory manner:

<input checked="" type="checkbox"/>	GE 19 (Annual Verification)	<input checked="" type="checkbox"/>	T-35 (Budget Expenses)
<input checked="" type="checkbox"/>	T-1 (Summary Program Chart 1)	<input checked="" type="checkbox"/>	T-36 (Budget Expenses)
	T-2 (Summary Program Chart 2)	<input checked="" type="checkbox"/>	T-41 (Checklist - Overall Interscholastic Program)
<input checked="" type="checkbox"/>	T-3 (Summary Program Chart 3)	<input checked="" type="checkbox"/>	T-60 (Corrective Action Plan)
<input checked="" type="checkbox"/>	T-4 (Summary Program Chart 4)	<input checked="" type="checkbox"/>	T-63 (Interscholastic Survey Results)

II. Status

A.		2007 - 2008 Forms are satisfactory and no further information or action is necessary at this time.
B.	<input checked="" type="checkbox"/>	Errors have been noted with respect to the following forms: 1. Math error on T-2; corrected copy sent to the school for placement in the school's 07-08 Annual Report.
C.		The following forms were omitted and must be submitted by school representatives:
D.	<input checked="" type="checkbox"/>	According to the 2007-2008 data, the school appears to be meeting the standards established in: <input type="checkbox"/> Test 1 (Athletic participation is proportionate to enrollment) <input type="checkbox"/> Test 2 (History and continuing practice of program expansion) <input checked="" type="checkbox"/> Test 3 (Full and effective accommodation of interests and abilities)
E.	<input checked="" type="checkbox"/>	Other Recommendation and Comments: 1. T-41 shows an advantage to boys in opportunities and coaching. These were appropriately explained on T-60. 2. When a question is answered yes on form T-3 then explanations should be on both T-60 and the bottom of the T-3 form. 3. T-35 and T-36 show no awards given to girls and boys cross country, girls golf, boys and girls track, and volleyball. The Gender Equity Committee should review the awards policy with regards to who receives awards and amend the policy so

		<p>that your T-35 and T-36 for 2008-2009 reflects the changes</p> <ol style="list-style-type: none">4. Spending must be constantly monitored by the Administration and the Gender Equity Committee. The difference in spending last year was \$213 per male and female athlete. Spending should be kept to no more than \$100 when a school has football.5. Although female participation numbers have increased from last year, the school should be diligent in working to increase participation for both males and females in all sports.

- 2) For Column 2, list the number of participants at each level. For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8. **Note:** The totals in Row 4 for girls and in Row 8 for boys must be the same as the totals in Form T-1, Column 3, Rows 1 and 2 respectively.
- 3) For Column 3, list the number of interscholastic teams that have been added in the last five years at each competitive level. Count each team added during the 5 year period only one time. e.g. Girl's junior varsity soccer was added 3 years ago, count the team only once, not 3 times. For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.

Participation Opportunities Test One

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	890	49.67	278	45.6
Row 2	BOYS	902	50.33	331	54.4
Row 3	Totals	1792	100%	609	100%

Instructions:

*Number of 8th grade students & below used in Column 3 and Column 4 calculations if applicable: 49

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first date of regular season competition, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8th grade students & below are included in the totals.
 Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

CORRECTIVE ACTION PLAN

DIRECTIONS:

1. For Column 1, indicate the intended area (Opportunities or Benefits) which needs corrective action in order to achieve gender equity. For Column 2, write the suggested change or activities that will correct the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need "corrective" action. However, the KHSAA strongly encourages compliant schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program.
3. You may copy this form as needed. Please attach corrective action plans along with audit forms and submit by April 15, 2008.

COLUMN 1 ITEM FOR CORRECTION/ IMPROVEMENT	COLUMN 2 SUGGESTED CHANGE/ ACTIVITIES	COLUMN 3 TIME TABLE FOR CORRECTIVE ACTION/ AND OR COMPLETION DATE
Spending, Boys versus girls in the area of basketball, baseball and soccer.	Meeting again with all booster officers and coaches to explain the need to be equitable in booster spending. There will be a plan put in place where boosters of similar sports will work together in their fundraising to ensure equitable opportunities for both genders to achieve similar amounts of funding therefore providing the boosters to have similar amounts to spend.	This will be implemented by the fall of 2008
The offering of Wrestling for boys	There has been a lot of discussion as to whether or not to offering wrestling at Madison Central. The issues have been the compliance of Title IX, however with the increase of girls participation in the areas of swimming and softball at the JV and Freshman levels there is consensus that we may be able to offer wrestling for the boys next year. Budget issues have been discussed and there has been a tentative budget setup which is highlighted on form t 36. We are looking at offering Wrestling in the school year 2008-09 based on KHSAA approval.	Waiting on reply from KHSAA
Coaches	The girls' basketball coach has been unable to fill an allocated position for the program even though a stipend is available from the board. It will be highly recommended to the head coach to have a full staff equal to the boys program providing there are opportunities for participation	Fall 2008

Discrepancy of spending in boys versus girls	With current figures of spending boys versus girls the boys are showing \$265,617.00 dollars spent for 61.8% as opposed to \$164,138.00 for 38.2%. When the added expense for football is taken out (\$83623.00) The percentage will drop to 52.6% for the boys and 47.4% for the girls which would be in line as a per athlete spending. The additional spending on a one time effort for baseball was the construction of a new backstop which has been saved for by the booster for 9 years. The amount of \$21,120.00 which was done for facility improvement would also reduce the percentage of boys versus girls spending which will also contribute to equitable spending for both genders.	This spending is currently being controlled by booster reports turned in annually and consistent monitoring throughout each school year.
