Special trips add to the strength of a sport's schedule as well. School personnel and the Gender Equity Review Committee should evaluate the strength of schedules for all sports to determine if money spent for transportation and per diem are gender neutral. Amend Form T-60 to reflect the undertaking and submit to the KHSAA office by October 1, 2008.</p>

Participation Opportunities Test One

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	427	45%	235	45% (56%)
Row 2	BOYS	524	55%	292 (186)	55% (44%)
Row 3	Totals	951	100%	527 (421)	100%

Instructions:

*Number of 8th grade students & below used in Column 3 and Column 4 calculations if applicable:

44

*** (NOTE: #'s in parenthesis above indicate numbers and percentages without football.)**

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1).
Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8th grade students & below are included in the totals.
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.)
Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

	Row 8	total:	17	292	4	56

- 1) For Column 1, list the number of interscholastic teams offered for girls and boys at each competitive level (varsity, junior varsity, and freshman). For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 2) For Column 2, list the number of participants at each level. For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8. **Note:** The totals in Row 4 for girls and in Row 8 for boys must be the same as the totals in Form T-1, Column 3, Rows 1 and 2 respectively.
- 3) For Column 3, list the number of interscholastic teams that have been added in the last five years at each competitive level. Count each team added during the 5 year period only one time. e.g. Girl's junior varsity soccer was added 3 years ago, count the team only once, not 3 times. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 4) For Column 4, list the number of participants that are **currently** on each level of the teams that were added in the last five years. If a team was added previously but no longer exists, there are no current participants to be added for that team. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.

CORRECTIVE ACTION PLAN

SCHOOL NAME

Mercer County Senior High

DIRECTIONS:

- For Column 1, indicate the intended area (Opportunities or Benefits) which needs corrective action in order to achieve gender equity. For Column 2, write the suggested change or activities that will correct the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
- It is possible to attain compliance with Title IX and no longer need "corrective" action. However, the KHSAA strongly encourages compliant schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program.
- You may copy this form as needed. Please attach corrective action plans along with audit forms and submit by April 15, 2008.

COLUMN 1 ITEM FOR CORRECTION/ IMPROVEMENT	COLUMN 2 SUGGESTED CHANGE/ ACTIVITIES	COLUMN 3 TIME TABLE FOR CORRECTIVE ACTION/ AND OR COMPLETION DATE
The girls fast pitch softball team plays on a park field located about a mile and a half from the schools campus.	Build a softball complex on the schools campus.	The new softball field is under construction and will be completed for the 2009 season.
The number of male coaches exceeds the number of female coaches.	We will continue to recruit female coaches for all areas	Recruiting qualified females coaches will be an on going process.
Locker room and storage facilities are needed for all sports in close proximity to the competitive playing fields.	Make locker rooms and storage facilities for all sports	Each sport will be able to take full advantage of the locker rooms and storage areas once the new school is completed and all sports play on the new school campus. The new school will be completed in 10/08.
An updated athletic handbook would increase policies and procedures to help keep us in compliance.	We will continue to add policies that will limit the coaches in the areas of awards and travel and limit the amount of spending by athletic boosters.	Updating the handbook will be an ongoing process. There is a committee that is working on the handbook. We will meet with the coaches to up date the handbook at the end of April and it will be voted on by the high school SBDM before the start of the 2008-2009 school year.
Travel expenditures for boys far exceeds expenditures for girls.	We will monitor scheduling to equalize spending and travel opportunities.	Over the next 2 years a committee will be working to revise transportation policies and procedures.
