		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	325	46.2%	185	47.6%
Row 2	BOYS	378	53.8%	204	52.4%
Row 3	Totals	703	100%	389	100%

Instructions:

\*Number of 8<sup>th</sup> grade students & below used in Column 3 and Column 4 calculations if applicable: \_\_\_\_\_

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. \* In addition, should 8<sup>th</sup> grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8<sup>th</sup> grade students & below are included in the totals.  
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

	Row 8	total:	14	204	1	14

- 1) For Column 1, list the number of interscholastic teams offered for girls and boys at each competitive level (varsity, junior varsity, and freshman). For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 2) For Column 2, list the number of participants at each level. For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8. **Note:** The totals in Row 4 for girls and in Row 8 for boys must be the same as the totals in Form T-1, Column 3, Rows 1 and 2 respectively.
- 3) For Column 3, list the number of interscholastic teams that have been added in the last five years at each competitive level. Count each team added during the 5 year period only one time. e.g. Girl's junior varsity soccer was added 3 years ago, count the team only once, not 3 times. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 4) For Column 4, list the number of participants that are **currently** on each level of the teams that were added in the last five years. If a team was added previously but no longer exists, there are no current participants to be added for that team. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.

CORRECTIVE ACTION PLAN

**DIRECTIONS:**

- For Column 1, indicate the intended area (Opportunities or Benefits) which needs corrective action in order to achieve gender equity. For Column 2, write the suggested change or activities that will correct the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
- It is possible to attain compliance with Title IX and no longer need "corrective" action. However, the KHSAA strongly encourages compliant schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program.
- You may copy this form as needed. Please attach corrective action plans along with audit forms and submit by April 15, 2008.

COLUMN 1	COLUMN 2	COLUMN 3
ITEM FOR CORRECTION/ IMPROVEMENT	SUGGESTED CHANGE/ ACTIVITIES	TIME TABLE FOR CORRECTIVE ACTION/ AND OR COMPLETION DATE
Lack of Softball facilities on site	The site preparation for a new elementary school is now complete. Included in the plans is a girl's softball field. This site is located adjacent to our campus and will allow our girls softball team an equal opportunity. There will be a new complex with lockers, showers, and storage facilities in the master plan. During construction our team will utilize the other elementary school's field.	Spring 2009
Wrestling Program	The number of boys athletics program offerings exceeded the number for girls, as did the large amount of spending on wrestling. The wrestling program will be dissolved in the next year, whereas funds and number of athletics programs for both boys and girls will become more equal.	Dissolved 2007-08

To Whom It May Concern:

I took over as the principal of Pike Central High School in August of 07. I discover that every athletic program had an outside booster account. No organization had turned in any documentation of money spent. I was unable to collect the needed documents. Therefore, I had every athletic program closeout their booster club accounts. We now run all money through our school account.

The Actual Expenditures form does not reflect any booster club activities. By having all athletic programs run their money through the school we will have an accurate record for this year. We also gave everyone an equal budget to offset the mishandling of money from previous years. If you have any questions please call me at 606-432-4352.

Thanks,

David Rowe, Principal PCCHS

To Whom It May Concern:

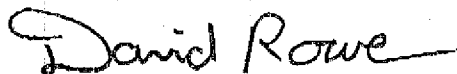

I wanted to take this opportunity to explain a few items on our Title IX report. We have no travel expense listed for our Golf and Cross Country programs. Both programs had their players meet them at the courses. I know a bus is usually used to transport athletes but we have two golf courses in Pike County. The location of the facilities allowed parents to transport their own children. The Cross Country course is also located in Pike County just a few miles from our school. Since they had to practice and compete right after school their parents also transported those students. Our buses in Pike County have trouble getting back to our school for athletic events. Therefore, the coaches and parents wanted to make other arrangements for transportation.

The other item I wanted to explain was the fact that the Title IX report shows no awards expense. We did have banquets for our players and teams. The booster clubs of each program paid for the awards. Since no booster club turned in records and no funds ran through the school it was impossible for me to record that expense. As the new principal I have corrected this problem by making all booster clubs run everything through the school. We now have records for all activities that take place at Pike Central.

To make sure all athletes are recognized we are having an athletic banquet at the end of the year for all sports programs. We have also started putting together a Hall of Fame committee to recognize our school and community accomplishments.

We have addressed the lack of records for the 2007-08 school year and we expect to be able to present very accurate reports in the future.

Thank you,

David Rowe, Principal Pike County Central High School
