I. Checklist of Forms properly submitted in a satisfactory manner:

X	GE 19 (Annual Verification)	X	T-35 (Budget Expenses)
X	T-1 (Summary Program Chart 1)	X	T-36 (Budget Expenses)
X	T-2 (Summary Program Chart 2)	X	T-41 (Checklist – Overall Interscholastic Program)
X	T-3 (Summary Program Chart 3)	X	T-60 (Corrective Action Plan)

II. Status

A.	X	2007 – 2008 Forms are satisfactory and no further information or action is necessary at this time.
B.		Errors have been noted with respect to the following forms:
C.		The following forms were omitted and must be submitted by school representatives:
D.		According to the 2007-2008 data, the school appears to be meeting the standards established in: <ul style="list-style-type: none"> <input type="checkbox"/> Test 1 (Athletic participation is proportionate to enrollment) <input type="checkbox"/> Test 2 (History and continuing practice of program expansion) <input type="checkbox"/> Test 3 (Full and effective accommodation of interests and abilities)
E.	X	Other Recommendation and Comments: <ul style="list-style-type: none"> • Your school does not currently meet Test One or Test Two or Test Three for Title IX compliance. You presently do not offer all sanctioned sports by the KHSAA, and your student interest survey indicates their may be an interest in cross country, archery and bowling. Your 2006-2007 report also indicated an interest in cross county and there is no documentation that you have pursued this interest. Your Gender Equity Review Committee needs to determine if there are viable interests in these sports to begin a competitive team against other schools. If there are other schools that you could compete with you should begin by having meetings with prospective athletes to gage actual interest. Please submit to the KHSAA the minutes of your Gender Equity Review Committee with your next year's annual report. Include all documentation in regards to this matter.

		<ul style="list-style-type: none">• For the past three years your school has consistently spent more money on male athletes than female athletes. This is certainly a red flag in respect to equity in benefits provided to your athletes. Since you report expenditures for the prior year, I am requesting that those be available for your schools first Gender Equity Review Committee meeting in the fall. At that meeting your committee should review the expenditures and determine whether you still have an inequity in spending. If an inequity exists, your committee should then develop a plan to address this problem. The minutes of that meeting should be submitted to the KHSAA as well as the plan that is developed to address this problem by October, 2008.• You do not report travel expenditure in all sports. If the Board of Education pays for travel by bus those expenditures must be reported on forms T-35 and T-36• You do not report expenditures for awards for all sports, please review your school's award polices to make sure there is no disparity in awards given for all athletes.• Please advise if the KHSAA can assist you with this process in anyway.

KHSAA
Form T1
Rev. 12/07

Participation Opportunities Test One

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	297	52	146	36
Row 2	BOYS	275	48	264	64
Row 3	Totals	572	100%	410	100%

Instructions:

*Number of 8th grade students & below used in Column 3 and Column 4 calculations if applicable: 24

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8th grade students & below are included in the totals.
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.
