Participation Opportunities Test One

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	596	51.52	146	40
Row 2	BOYS	553	49.48	218	60
Row 3	Totals	1149	100%	364	100%

Instructions:

*Number of 8th grade students & below used in Column 3 and Column 4 calculations if applicable: 5

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask the head coaches to review the most updated eligibility or squad lists for their teams. Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk the above notation as to how many 8th grade students & below are included in the totals.
 Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.)
 Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard; if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

3. For a sport currently offered at the junior varsity or freshman level is there sufficient interest, based on your most recent Student Interest Survey, to form a varsity team not currently offered?	No		No
4. For a sport currently offered at the varsity level only, is there sufficient interest, based on your most recent Student Interest Survey, to form a viable team for a junior varsity or freshman team that is not currently offered?	No		No
5. If you answered YES to question (1), (2), (3), or (4), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	Yes		Yes

Plans to Address Interest:

Soccer was noted on the last two surveys as a sport that both female and male students would like to see added to the WCHS Athletic Program. The WCBOE has recently purchased property that will be used for soccer in the future. A soccer team will be established during the 2009 school year. This will help to raise female participation.

CORRECTIVE ACTION PLAN

DIRECTIONS:

- For Column 1, indicate the intended area (Opportunities or Benefits) which needs corrective action in order to achieve gender equity. For Column 2, write the suggested change or activities that will correct the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
- It is possible to attain compliance with Title IX and no longer need "corrective" action. However, the KHSAA strongly encourages compliant schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program.
- You may copy this form as needed. Please attach corrective action plans along with audit forms and submit by April 15, 2008.

COLUMN 1	COLUMN 2	COLUMN 3
ITEM FOR CORRECTION/ IMPROVEMENT	SUGGESTED CHANGE/ ACTIVITIES	TIME TABLE FOR CORRECTIVE ACTION/ AND OR COMPLETION DATE
Benefits to Student-Athletes	Policy on the placement of banners, team photographs, trophies and awards will be added to Whitley County Policies and Procedures and will be included in the WCHS Student Athletic Handbook.	To be completed by May 15, 2008.
Distribution of Awards	Policy concerning the distribution of awards will be addressed in the WCHS Student Athletic Handbook. The policy will include the Athletic Director's responsibility to ensure that equity is followed when approving awards that are given to student-athletes.	To be completed by May 15, 2008
Female Participation	There was an increase in the participation of football by 78 students when comparing the 05-06 school year to the 06-07 school year. This caused an unanticipated difference in male and female participation. To improve the gap all coaches of female sports will spend more time publicizing and recruiting participants for their particular sport. Poster, announcements in District Ed. Newspaper, Intercom Announcements and flyers to be distributed during the school day.	To start immediately 04-15-08 and continue until female participation is compatible to male participation.

<p>Booster Club Expenditures</p>	<p>At the end of every school year, a financial statement from each booster club is submitted to the Finance Clerk. This report includes all expenditures and revenues from the current school year. Reports are monitored by the principal, athletic director and finance officer to ensure the equity of spending among male and female student athletes. To Whom It May Concern:

The following are corrections and explanations in response to the KHSAA Title IX Annual Report Submission Status Report for the 2007-2008 school year.

Response to the T-2 form: A clerical error was made. The number of participants added in column 4 was placed in row 2 when it should have been placed in row 1. The correction has been made and a copy is included.

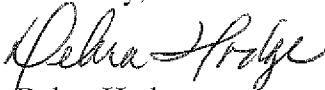

Response to the T-35 and T-36 form: The draft copy of these forms had the correct information. When the 0's were being placed in the sports columns that are county does not offer the correct numbers were accidentally omitted and replaced with 0's. Corrections have been made on the original copies that are kept on file at the Whitley County Board of Education and at the Whitley County High School. Also, a clerical error was made when reporting the number of coaches for the boy's basketball team. The correct number of teams for all levels should have been three. The correction has been made on the original copy kept on file at the WCBOE.

Response to awards for track and volleyball: After reviewing the expenditures it was noted that the amount of \$144.00 spent on awards for volleyball was omitted. This has been added to the T-36 form. The track has in the past given out certificates but will give trophies in the future to each participant. This policy has been addressed in our Whitley County District Athletic Handbook.

Response to appointing a parent/booster to the Gender Equity Review Committee: Parents will be invited to attend our Title IX meetings during the 2008-2009 school year. These parent/boosters will be encouraged to be a part of our Gender Equity Review Committee.

Enclosed are copies of corrections to the KHSAA Title IX Annual Report. Thank you for your support and recommendations.

Sincerely,

Debra Hodge
Title IX Coordinator

Participation Opportunities Test Two

		Column 1	Column 2	Column 3	Column 4	Column 5
Program		Number of Teams Currently Offered	Number of Participants	Number of Teams Added Since the beginning of the 2003-2004 School Year	Current Number of Participants for each team added Since the beginning of the 2003-2004 School Year	Percent of Total Participation By Sex Added Since the beginning of the 2003-2004 School Year
GIRLS	Row 1	varsity:	6	66	1	6
	Row 2	j.v.:	6	60	0	0
	Row 3	frosh:	2	20	0	0
	Row 4	total:	14	146	1	6
BOYS	Row 5	varsity:	5	118	1	7
	Row 6	j.v.:	5	63	1	6
	Row 7	frosh:	2	37	0	0
	Row 8	total:	12	218	2	13

- 1) For Column 1, list the number of interscholastic teams offered for girls and boys at each competitive level (varsity, junior varsity, and freshman). For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 2) For Column 2, list the number of participants at each level. For girls, total each of the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8. **Note:** The totals in Row 4 for girls and in Row 8 for boys must be the same as the totals in Form T-1, Column 3, Rows 1 and 2 respectively.
- 3) For Column 3, list the number of interscholastic teams that have been added in the last five years at each competitive level. Count each team added during the 5 year period only one time. e.g. Girl's junior varsity soccer was added 3 years ago, count the team only once, not 3 times. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 4) For Column 4, list the number of participants that are **currently** on each level of the teams that were added in the last five years. If a team was added previously but no longer exists, there are no current participants to be added for that team. For girls, total the entries in Rows 1, 2, and 3 into Row 4. For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.

Note: If the percentage of current participants added in the last five years is 25% or greater, compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. **CAUTION:** 25% is not a formal compliance standard.
