II. Status

A.	<input checked="" type="checkbox"/>	2010– 2011 Forms are satisfactory and no further information or action is necessary at this time.
B.		Errors have been noted with respect to the following forms:
C.		The following forms were omitted and must be submitted by school representatives:
D.	<input checked="" type="checkbox"/>	According to the 2010-2011 data, the school appears to be meeting the standards established in: <input type="checkbox"/> Test 1 (Athletic participation is proportionate to enrollment) <input type="checkbox"/> Test 2 (History and continuing practice of program expansion) <input checked="" type="checkbox"/> Test 3 (Full and effective accommodation of interests and abilities)
E.	<input checked="" type="checkbox"/>	Other Recommendation and Comments: According to the data and responses submitted, it appears the school is meeting the standard of Test 3 for the provision of athletic opportunities. In the area of benefits, the reported total for athletic spending falls within the acceptable parameters both on a percentage and per athlete basis. However, there were several sports that listed 'zero' dollars spent in areas of awards and travel. Explanations of this should be included with the report or addressed on the Corrective Action Plan. This should be monitored by the Gender Equity Committee to insure equity for all sports. Thank you.

SUMMARY PROGRAM CHART (Form T-1)**

KHSAA Form T1
Rev. 10/10

Participation Opportunities: Test One - Proportionality

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	257	49.5%	151	36%
Row 2	BOYS	262	50.5%	271	64%
Row 3	Totals	519	100%	422	100%

Instructions: *Number of 8th grade students & below used in Column 3 and Column 4 calculations: 28

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8th grade students & below are included in the totals.
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

For boys, total Rows 5, 6, and 7 into Row 8.
- 5) For Column 5, calculate the percentage of participants that have been added in the last five years. For girls, take the number in Column 4, Row 4 and divide by the number in Column 2, Row 4. For boys, take the number in Column 4, Row 8 and divide it by the number in Column 2, Row 8.
- 6) **Note: If the percentage of current participants added in the last five years is 25% or greater for the underrepresented sex (most likely girls), compliance with Test Two may be possible. If less than 25%, then compliance with Test Three should be analyzed. CAUTION: 25% is not a formal compliance standard.**

we received your Title IX report today, April 18, 2011 via e-mail. The following e-mail was sent to the schools as well from Commissioner Tackett. If you could input the same information into the computer and submit that to us electronically. We are doing this report electronically for the first time this year. Next year we hopefully will have all of the report electronically (signatures etc).

The new Title IX report system is online for your use. The form is a link off of the member schools only page that states - "Enter Your School's Title IX Information"

If you have technical issues, please send an email to techsupport@khsaa.org

If you have a question about your report submission, contact Phyllis Sallee or Darren Bilberry at the KHSAA.

Thanks. Below are brief instructions. You should be able to take the draft copies of forms you have completed and enter the information online and then submit your forms. This will also eliminate your completion of the Triennial participation list as that data will be taken from these reports. You will however, still be required to submit the name by name individual participation list at the end of the school year.

- These pages are to help you complete the forms for your Title IX report.
- Once you have completed the forms and submitted your report electronically you must print the forms, sign and date them then mail them to the KHSAA.
- Next year we plan on having the capability to completely file your Title IX report electronically but, we repeat, this year you must print, sign and mail the forms.

How to use:

- On the main page the buttons for the forms will be either

RED GREEN or GRAY:

RED - means something is missing on the form

GREEN - means all the required information appears to be on the form

GRAY - means you cannot access the form either because you are exempt from filing the form or your report has already been submitted.

- You may edit the forms over several different sessions. Your results are saved so you can come back and continue to work with them.
- When there are no longer any RED buttons you may

SUBMIT

your report.

- Once you submit your report it will be locked. You will not be able to make any changes to the forms unless you request the KHSAA to unlock your report.
- Printing:

At any time before you submit your report you can click the BLUE button to get a preliminary copy of your report.

Once you have submitted your report you can click the BLUE button to get the final copy of your report for printing.

Once you submit your report:

- Click the BLUE button and print out a copy of your report.
- Sign and date each page of the form.
- Mail the signed and dated report to:

KHSAA

**Attn.: Title IX Report
2280 Executive Drive
Lexington, KY 40505**

- Print a copy of the report for your files. You are required to have a copy of your Title IX report on file.
