

**KHSAA TITLE IX ANNUAL REPORT SUBMISSION  
STATUS REPORT  
2014-2015**

KHSAA Form T65  
Revised 5/2015

School:	McLean County
KHSAA Audit Team Member:	Kathy Johnston
Date:	June 02, 2015

Along with this T65 form, you have also received a copy of a revised Title IX Internal Audit Summary for this school. It is important that you review all of the details concerning the analysis of the report submitted.

The Internal Audit Summary will analyze all parts of the three-part test for Title IX compliance, based on a snapshot of the data on the date submitted. Those conclusions are listed. For 2014-15, significant revisions have been made in this form, including many notes made to help you determine how calculations were derived and the exclusion of certain elements related to Archery and Bass Fishing which are true coed sport-activities.

In the first section you will note many factors such as per total participation, total expenditures, participant spending (per gender), and many other factors to be considered as you move forward with future planning. You will also note on Row 12, the determination of the underrepresented gender in your school. This is a critical element in determining Title IX compliance.

The Test 1 (traditionally called the “numbers” test) section is revised completely for 2014-15 as outside consultants have advised of multiple manners in which this test can be administered. In addition, there is guidance as to the number of new participants in the underrepresented gender needed to meet this test. Explanatory notes in the right column should help verify the calculations, which were done by the system based on the submitted data.

The Test 2 (traditionally called the “recent history of expanding sport offerings for the underrepresented gender” test) section contains the information for Test 2 and the calculations were done solely by the system based on the submitted data.

The Test 3 (traditionally called the “accommodating interest and abilities” test) section contains the information for Test 3. This is determined by the audit team based on the analysis of the data provided.

At the bottom of the Title IX Internal Audit Summary is a summary conclusion as to whether or not the school appears to be in compliance with one of the three parts of the tests for Title IX compliance. If you have specific questions, feel free to contact Assistant Commissioner Darren Bilberry (dbilberry@khsaa.org or 859-299-5472) at the KHSAA, or the audit team staff member listed at the top of the Title IX Internal Audit Summary and at the top of this form.

*Special Note from Audit Staff (ignore if blank):*

The data submitted for the 20142015 annual report indicates that males are currently the underrepresented gender in your school. It should be strongly emphasized that any program evaluation under Title IX is an ongoing process that assesses the provision of opportunities and benefits for all student athletes, and that all efforts must continue to be made to accommodate the interests and abilities of the female students at the school.

**SCHOOL YEAR 2014-2015**  
**ACCOMMODATION OF INTERESTS AND ABILITIES**  
**SUMMARY PROGRAM CHART**

*KHSAA Form T1*  
*Rev. 5/11*

**Participation Opportunities: Test One - Proportionality**

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	230	46.2%	180	54.2%
Row 2	BOYS	268	53.8%	152	45.8%
Row 3	Totals	498	100%	332	100%

Instructions: \*Number of 8<sup>th</sup> grade students & below used in Column 3 and Column 4 calculations: 73

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. \* In addition, should 8<sup>th</sup> grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8<sup>th</sup> grade students & below are included in the totals.  
 Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

**FOR ANY QUESTION ANSWERED "YES" IDENTIFY THE RESPECTIVE SPORT(S) AND DESCRIBE YOUR IMPLEMENTATION PLAN IN LINE (5).**

	<b>GIRLS</b> <b>(Yes / No)</b>		<b>BOYS</b> <b>(Yes / No)</b>
1. Based on the responses from your most recent student survey, is there sufficient interest to form a viable varsity interscholastic team for a sport not currently offered? If yes, what sport?	Yes Golf		Yes Archery
2. Based on the responses from your most recent student survey, is there sufficient interest to form a viable junior varsity interscholastic team for a sport not currently offered and for which there is not sufficient interest to form a viable varsity interscholastic team? If yes, what sport?	Yes Golf		Yes Archery
3. Based on the responses from your most recent student survey, is there sufficient interest to form a viable freshman interscholastic team for a sport not currently offered and for which there is not sufficient interest to form either a viable varsity or junior varsity interscholastic team? If yes, what sport?	No		No
4. If you answered YES to question (1), (2), or (3), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	Yes Golf		Yes Archery

Remember, test three – full accommodation means addressing the unmet interest of the underrepresented sex (most likely girls), not the overrepresented sex (most likely boys).

<p>5. Describe your plans to address interest below:</p> <p>Mr. Settle and I met with representatives from the National Archery in the Schools Program to discuss the possibility of adding archery to our current lineup of sports. We discussed the possibility of adding the sport this summer if enough students continue to show interest. The program is already present at our middle school and it seems a distinct possibility for high school addition.</p>
