STATUS REPORT
2016-2017**

KHSAA Form T65
Revised 6/2017

School:	Adair County
KHSAA Audit Team Member:	Gary W. Lawson
Date:	June 14, 2017

Along with this T65 form, you have also received a copy of a revised Title IX Internal Audit Summary for this school. It is important that you review all of the details concerning the analysis of the report submitted.

The Internal Audit Summary will analyze all parts of the three-part test for Title IX compliance, based on a snapshot of the data on the date submitted. Those conclusions are listed. Revisions have been made in this form to clarify the calculation of the underrepresented gender and ensure the preservation of the integrity of the foundational purposes of Title IX. The form also continues to contain notes made to help you determine how calculations were derived and detail the exclusion of certain elements related to Archery and Bass Fishing which are true coed sport-activities.

In the first section you will note many factors such as per total participation, total expenditures, participant spending (per gender), and many other factors to be considered as you move forward with future planning. You will also note on Row 13, the determination of the underrepresented gender in your school. This is a critical element in determining Title IX compliance.

The Test 1 (traditionally called the “numbers” test) section again contains guidance as to the number of new participants in the underrepresented gender needed to meet this test. Explanatory notes in the right column should help verify the calculations, which were done by the system based on the submitted data.

The Test 2 (traditionally called the “recent history of expanding sport offerings for the underrepresented gender” test) section contains the information for Test 2 and the calculations were done solely by the system based on the submitted data.

The Test 3 (traditionally called the “accommodating interest and abilities” test) section contains the information for Test 3. This is determined by the audit team based on the analysis of the data provided.

At the bottom of the Title IX Internal Audit Summary is a summary conclusion as to whether or not the school appears to be in compliance with one of the three parts of the tests for Title IX compliance. If you have specific questions, feel free to contact Assistant Commissioner Darren Bilberry (dbilberry@khsaa.org or 859-299-5472) at the KHSAA, or the audit team staff member listed at the top of the Title IX Internal Audit Summary and at the top of this form.

Special Note from Audit Staff (ignore if blank):

Report indicates that that the school is meeting the standard established by both Test #1 and Test#3. Good Report.

SUMMARY PROGRAM CHART

KHSAA Form T1
Rev. 5/11

Participation Opportunities: Test One - Proportionality

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	377	48.3%	139	44.4%
Row 2	BOYS	404	51.7%	174	55.6%
Row 3	Totals	781	100%	313	100%

Instructions: *Number of 8th grade students & below used in Column 3 and Column 4 calculations: 33

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8th grade students & below are included in the totals.
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

Based on the responses from your most recent student survey, is there sufficient interest to form a viable freshman interscholastic team for a sport not currently offered and for which there is not sufficient interest to form either a viable varsity or junior varsity interscholastic team? If yes, what sport?	No		No
4. If you answered YES to question (1), (2), or (3), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	Yes Same as above		Yes Same as above

Remember, test three – full accommodation means addressing the unmet interest of the underrepresented sex (most likely girls), not the overrepresented sex (most likely boys).

5. Describe your plans to address interest below:

In the 2015-2016 school year, Adair County High School administered the Student Athletic Interest survey. The results of the student survey showed sufficient amounts of interest in multiple sports or sports activities. Based on the data, interest numbers were high enough to set up an initial new sport interest meeting for the following sports to see if there was still enough interest to pursue the addition of new teams: cross country, field hockey (girls), soccer, archery, bowling, swimming, wrestling, and fishing. The meeting was held on March 31, 2016 starting at 4:00 p.m. in the Adair County High School cafeteria. The ACHS Principal, the Adair County Middle School Athletic Director and the ACHS Athletic Director were present at the meeting to answer any questions about the possibility of adding new sports teams. School announcements were made daily at both the middle and high schools several days prior to the meeting date. Announcements were also posted in the school. The outcome of the meeting(s) did not show enough interest to pursue the addition of any new teams at the present time. There were no students present at the meeting. The lack of participation/interest will not give ACHS Administration valid reasoning to continue.

From question #4, there are enough teams in the geographic region to form a competitive schedule (except girls field hockey). However, due to the lack of interest (interest meeting), ACHS will not be able to add any new sports for the 2016-2017 school year therefore we will not have a competitive schedule. ACHS will continue to regularly evaluate the amount of student interest in adding new sports to our athletic program.

During the 2016-17 school year, additional athletic interest Q/A sessions have been held. It seems that sufficient interest is still present for swimming. As a result of some research and informational feedback from Administration, students, parents, Adair County High School and Adair County Middle School have been exploring the options of offering a swim team for boys and girls. Our numbers appear to be very small (especially at the High School level) but we are pursuing the creation of a team while partnering with Lindsey Wilson College for the 2017-2018 school year.
