

**KHSAA TITLE IX ANNUAL REPORT SUBMISSION  
STATUS REPORT  
2016-2017**

KHSAA Form T65  
Revised 6/2017

School:	Bishop Brossart
KHSAA Audit Team Member:	Gary W. Lawson
Date:	June 15, 2017

Along with this T65 form, you have also received a copy of a revised Title IX Internal Audit Summary for this school. It is important that you review all of the details concerning the analysis of the report submitted.

The Internal Audit Summary will analyze all parts of the three-part test for Title IX compliance, based on a snapshot of the data on the date submitted. Those conclusions are listed. Revisions have been made in this form to clarify the calculation of the underrepresented gender and ensure the preservation of the integrity of the foundational purposes of Title IX. The form also continues to contain notes made to help you determine how calculations were derived and detail the exclusion of certain elements related to Archery and Bass Fishing which are true coed sport-activities.

In the first section you will note many factors such as per total participation, total expenditures, participant spending (per gender), and many other factors to be considered as you move forward with future planning. You will also note on Row 13, the determination of the underrepresented gender in your school. This is a critical element in determining Title IX compliance.

The Test 1 (traditionally called the “numbers” test) section again contains guidance as to the number of new participants in the underrepresented gender needed to meet this test. Explanatory notes in the right column should help verify the calculations, which were done by the system based on the submitted data.

The Test 2 (traditionally called the “recent history of expanding sport offerings for the underrepresented gender” test) section contains the information for Test 2 and the calculations were done solely by the system based on the submitted data.

The Test 3 (traditionally called the “accommodating interest and abilities” test) section contains the information for Test 3. This is determined by the audit team based on the analysis of the data provided.

At the bottom of the Title IX Internal Audit Summary is a summary conclusion as to whether or not the school appears to be in compliance with one of the three parts of the tests for Title IX compliance. If you have specific questions, feel free to contact Assistant Commissioner Darren Bilberry (dbilberry@khsaa.org or 859-299-5472) at the KHSAA, or the audit team staff member listed at the top of the Title IX Internal Audit Summary and at the top of this form.

**Special Note from Audit Staff (ignore if blank):**

In order to continue to meet the standard established by test #3 steps should be taken to validate the indicated interest in tennis. It is not intended that all three of the school's Gender Equity Review Committee meetings be held on consecutive days in April.

**SCHOOL YEAR 2016-2017**  
**ACCOMMODATION OF INTERESTS AND ABILITIES**  
**SUMMARY PROGRAM CHART**

KHSAA Form T1  
Rev. 5/11

**Participation Opportunities: Test One - Proportionality**

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	129	50.8%	259	49.4%
Row 2	BOYS	125	49.2%	265	50.6%
Row 3	Totals	254	100%	524	100%

Instructions: \*Number of 8<sup>th</sup> grade students & below used in Column 3 and Column 4 calculations: 67

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. \* In addition, should 8<sup>th</sup> grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8<sup>th</sup> grade students & below are included in the totals.  
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

	<b>GIRLS</b> <b>(Yes / No)</b>		<b>BOYS</b> <b>(Yes / No)</b>
1. Based on the responses from your most recent student survey, is there sufficient interest to form a viable varsity interscholastic team for a sport not currently offered? If yes, what sport?	Yes archery, tennis		Yes archery, tennis
2. Based on the responses from your most recent student survey, is there sufficient interest to form a viable junior varsity interscholastic team for a sport not currently offered and for which there is not sufficient interest to form a viable varsity interscholastic team? If yes, what sport?	No		No
3. Based on the responses from your most recent student survey, is there sufficient interest to form a viable freshman interscholastic team for a sport not currently offered and for which there is not sufficient interest to form either a viable varsity or junior varsity interscholastic team? If yes, what sport?	No		No
4. If you answered YES to question (1), (2), or (3), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	Yes archery, tennis		Yes archery, tennis

Remember, test three – full accommodation means addressing the unmet interest of the underrepresented sex (most likely girls), not the overrepresented sex (most likely boys).

**5. Describe your plans to address interest below:**

Based on the most recent student survey, there is some interest in adding both archery and tennis at the varsity level. The athletic department and school administration will look at all aspects of how adding these programs could benefit and effect our students. For archery we would have to find a place for the team to practice, because our gym is extremely busy and adding a new sport would further complicate that schedule. We have discussed other areas within the building and will continue to investigate. Our enrollment dropped again this school year (since the most recent survey) so we would have to investigate if our potential archers would come from an existing team, thus eliminating one team to add another. And because our enrollment has dwindled, our budget is a concern. Start up costs will be considered. We are meeting with a group from the NASP this summer to discuss archery. This group is involved in archery in one of our feeder schools and will give us good information on all of the above. That meeting will take place before the dead period, and we will have a decision for the 17-18 school year. In tennis, we plan to have a formal signup and meeting with those interested at the beginning of next school year to gauge interest for the Spring of 2018. Some of the same concerns about pulling athletes from one team to another does exist with tennis. If interest is legitimate we will immediately begin looking a facilities nearby that we could use.

**SCHOOL YEAR 2016-2017  
TITLE IX IMPROVEMENT PLAN  
Bishop Brossart**

**DIRECTIONS:**

1. For Column 1, indicate the intended area (Opportunities or Benefits) which needs improvement in order to achieve gender equity. For Column 2, write the suggested change or activities that will improve the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need improvement. However, the KHSAA strongly encourages schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program

COLUMN 1	COLUMN 2	COLUMN 3
SPECIFIC ITEM FOR IMPROVEMENT	PLAN FOR SUGGESTED CHANGE	START DATE AND COMPLETION DATE OF IMPROVEMENT
Improve Publicity for all programs	We added a twitter account for updates on all our athletic programs and game results. Currently we have more than 400 followers. We will continue to look at areas to improve publicizing all our programs	Start: Aug 15, 2016 Complete: Jun 30, 2018
Provide newer and safer weight room equipment for all teams	We secured the donation of two major additions to our weight room, enhancing the performance opportunity for all teams	Start: Sep 1, 2016 Complete: Apr 27, 2017
Continue Improvements of soccer and football practice fields	Both fields will be reseeded in May and treated during the dead period for this fall	Start: May 1, 2017 Complete: Jul 15, 2017
Build our own athletic complex, which will include practice and game facilities for boys and girls soccer, football, and boys and girls track in phase I.	We own a parcel of land set aside for this purpose. In Fall 2016 we received approval from the Diocese of Covington to move forward with the project and are now in the capital raising portion of the plan. A steering committee of school administrators and business leaders has been meeting since approval was given and we have raised nearly \$2 million during this phase. This complex will greatly enhance our athletic programs and eliminate the need to rent home fields, something that adds significantly to our football expenditures each year.	Start: Oct 22, 2016 Complete: Jun 30, 2019
Continue to monitor annual expenditures for boys and girls.	Administration acknowledges a larger than usual disparity this year, with nearly all of that disparity being football spending. There was a \$31,833 difference in spending between the genders in this report. \$29,734 of that spending was on football. In the other 14 sports listed in this report the difference between the boys and girls was only \$2,099 total. Of that \$29,734 spent in football, 30 percent of it was on field rental. We plan to eliminate that expenditure with the above mentioned athletic complex. Additionally, adding to the extra football expense is the fact that the program grew to a school record number of 35 players in 2016, resulting in the need to purchase additional shoulder pads and helmets. We feel the programs numbers have leveled off at this point, relieving some of the equipment burden that was higher than usual in this report as well. Football will always be a challenge from a gender spending equity point of view, because there is no female sport close to it's equivalent in terms of annual costs for safety, equipment, etc. However, we feel the football expenditures were something of an aberration, and that the development of the athletic complex in the next two years will greatly help. We will continue to monitor these numbers as well. However, we do point out that in our other 14 sports combined, our difference in spending was right at 2 percent.	Start: May 1, 2017 Complete: May 1, 2018
