

**KHSAA TITLE IX ANNUAL REPORT SUBMISSION  
STATUS REPORT  
2016-2017**

*KHSAA Form T65  
Revised 6/2017*

School:	Estill County
KHSAA Audit Team Member:	Gary W. Lawson
Date:	June 18, 2017

Along with this T65 form, you have also received a copy of a revised Title IX Internal Audit Summary for this school. It is important that you review all of the details concerning the analysis of the report submitted.

The Internal Audit Summary will analyze all parts of the three-part test for Title IX compliance, based on a snapshot of the data on the date submitted. Those conclusions are listed. Revisions have been made in this form to clarify the calculation of the underrepresented gender and ensure the preservation of the integrity of the foundational purposes of Title IX. The form also continues to contain notes made to help you determine how calculations were derived and detail the exclusion of certain elements related to Archery and Bass Fishing which are true coed sport-activities.

In the first section you will note many factors such as per total participation, total expenditures, participant spending (per gender), and many other factors to be considered as you move forward with future planning. You will also note on Row 13, the determination of the underrepresented gender in your school. This is a critical element in determining Title IX compliance.

The Test 1 (traditionally called the “numbers” test) section again contains guidance as to the number of new participants in the underrepresented gender needed to meet this test. Explanatory notes in the right column should help verify the calculations, which were done by the system based on the submitted data.

The Test 2 (traditionally called the “recent history of expanding sport offerings for the underrepresented gender” test) section contains the information for Test 2 and the calculations were done solely by the system based on the submitted data.

The Test 3 (traditionally called the “accommodating interest and abilities” test) section contains the information for Test 3. This is determined by the audit team based on the analysis of the data provided.

At the bottom of the Title IX Internal Audit Summary is a summary conclusion as to whether or not the school appears to be in compliance with one of the three parts of the tests for Title IX compliance. If you have specific questions, feel free to contact Assistant Commissioner Darren Bilberry (dbilberry@khsaa.org or 859-299-5472) at the KHSAA, or the audit team staff member listed at the top of the Title IX Internal Audit Summary and at the top of this form.

*Special Note from Audit Staff (ignore if blank):*

IT SHOULD BE NOTED THAT THE ANNUAL REPORT SHOWS THAT TOTAL ATHLETIC SPENDING SLIGHTLY FAVORS THE MALES.

Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. \* In addition, should 8<sup>th</sup> grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8<sup>th</sup> grade students & below are included in the totals.  
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

	<b>GIRLS</b> <b>(Yes / No)</b>		<b>BOYS</b> <b>(Yes / No)</b>
1. Based on the responses from your most recent student survey, is there sufficient interest to form a viable varsity interscholastic team for a sport not currently offered? If yes, what sport?	No		No
2. Based on the responses from your most recent student survey, is there sufficient interest to form a viable junior varsity interscholastic team for a sport not currently offered and for which there is not sufficient interest to form a viable varsity interscholastic team? If yes, what sport?	No		No
3. Based on the responses from your most recent student survey, is there sufficient interest to form a viable freshman interscholastic team for a sport not currently offered and for which there is not sufficient interest to form either a viable varsity or junior varsity interscholastic team? If yes, what sport?	No		No
4. If you answered YES to question (1), (2), or (3), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	No		No

Remember, test three – full accommodation means addressing the unmet interest of the underrepresented sex (most likely girls), not the overrepresented sex (most likely boys).

5. Describe your plans to address interest below:

**SCHOOL YEAR 2016-2017  
TITLE IX IMPROVEMENT PLAN  
Estill County**

**DIRECTIONS:**

1. For Column 1, indicate the intended area (Opportunities or Benefits) which needs improvement in order to achieve gender equity. For Column 2, write the suggested change or activities that will improve the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need improvement. However, the KHSAA strongly encourages schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program

COLUMN 1	COLUMN 2	COLUMN 3
SPECIFIC ITEM FOR IMPROVEMENT	PLAN FOR SUGGESTED CHANGE	START DATE AND COMPLETION DATE OF IMPROVEMENT
Continue to work to increase the number of participants, both male and female in the sports and activities currently offered.	This year the number of female and male participants actually equals the same number at 185. This is a drop of 5 female and 15 male participants from last year despite the fact that we added the sport/activity of Bass Fishing. This can be attributed to several factors including an actual drop of nearly 30 students in high school enrollment and not having the numbers in 9th and 10th grade boys to field a JV Boys Soccer team or Freshman Boys Basketball team. We will continue to aggressively work the middle school and our freshman class to grow both our male and female participation numbers.	Start: May 1, 2017 Complete: Apr 30, 2018
Continue to close the gap in spending between male and female athletes.	Our spending gap between male and female athletes is \$124.60. This is outside the acceptable limit by almost \$25. We have made great strides in some sports including girls soccer and girls golf to spend more money on the girls including the booster spending, but must make strides in volleyball spending and close the gap a little more in other areas. Part of the difference is that we spent almost the exact same amount on male and female teams as last year, but the girls numbers are up and the boys are down, thus a larger gap in spending. We will continue to identify strategies to increase fundraising and spending in female sports.	Start: May 1, 2017 Complete: Apr 30, 2018
Continue improvements to our facilities and fields for both the Boys and Girls Programs	We have finished most of our High School gym renovation including new bleachers, backboards and goals, wall padding, and new dressing rooms for both the Girls Basketball and Boys Basketball teams and completely resurfacing the playing floor. We will also be adding new score tables and chairs before the next season. All but the bleachers will be included in next years spending report. We hope to complete the volleyball locker room this summer. The total cost will be near \$700,000. We have field maintenance contracts for all outdoor fields and continue to maintain and improve those surfaces. We renovated the softball outfield this year and are upgrading our irrigation systems this spring. We also purchased a new lawn tractor for shared use for Baseball and Softball. Those costs will be reflected in next years report as well.	Start: May 1, 2016 Complete: Jul 14, 2017
Maintain Prime Time Opportunities for the Girls Basketball Program	Continue to schedule a minimum of 40% of all games on Prime Dates and Prime Times. Our goal is to be at and maintain 50%.	Start: May 1, 2017 Complete: Feb 16, 2018
Provide an opportunity for students interested in running Cross Country, both male and female, to participate.	We are posting the Cross Country Coaching position for both Boys and Girls Cross Country again. Our one applicant last year left the district in July and we could not fill the position. We have hired a new Track coach and hope he can revive the program. We do have some interest from students for this program.	Start: May 1, 2017 Complete: Aug 1, 2017
