

**KHSAA TITLE IX ANNUAL REPORT SUBMISSION  
STATUS REPORT  
2020-2021**

*KHSAA Form T65  
Revised 6/18/21*

School:	Estill County
KHSAA Audit Team Member:	
Date:	June 22, 2021

Along with this T65 form, you have also received a copy of a revised Title IX Internal Audit Summary for this school. It is important that you review all of the details concerning the analysis of the report submitted.

The Internal Audit Summary will analyze parts 1 and 2 of the three-part test for Title IX compliance, based on a snapshot of the data on the date submitted. Those conclusions are listed. As a result of Covid 19, no determination will be made as to compliance with Test 3. Revisions have been made in this form to clarify the calculation of the underrepresented gender and ensure the preservation of the integrity of the foundational purposes of Title IX. The form also continues to contain notes made to help you determine how calculations were derived and detail the exclusion of certain elements related to Archery, Bass Fishing, and Esports which are true coed sport-activities.

In the first section you will note many factors such as per total participation, total expenditures, participant spending (per gender), and many other factors to be considered as you move forward with future planning. You will also note on Row 13, the determination of the underrepresented gender in your school. This is a critical element in determining Title IX compliance.

The Test 1 (traditionally called the “numbers” test) section again contains guidance as to the number of new participants in the underrepresented gender needed to meet this test. Explanatory notes in the right column should help verify the calculations, which were done by the system based on the submitted data.

The Test 2 (traditionally called the “recent history of expanding sport offerings for the underrepresented gender” test) section contains the information for Test 2 and the calculations were done solely by the system based on the submitted data.

The Test 3 (traditionally called the “accommodating interest and abilities” test) section contains the information for Test 3. This is determined by the audit team based on the analysis of the data provided, but will not be analyzed this year as a result of Covid 19.

At the bottom of the Title IX Internal Audit Summary is a summary conclusion as to whether or not the school appears to be in compliance with one of the three parts of the tests for Title IX compliance. If you have specific questions, feel free to contact Assistant Commissioner Darren Bilberry (dbilberry@khsaa.org or 859-299-5472) at the KHSAA.

KHSAA Form T1  
Rev. 5/11

**Participation Opportunities: Test One - Proportionality**

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	335	49.9%	166	44.1%
Row 2	BOYS	337	50.1%	210	55.9%
Row 3	Totals	672	100%	376	100%

Instructions: \*Number of 8<sup>th</sup> grade students & below used in Column 3 and Column 4 calculations: 45

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. \* In addition, should 8<sup>th</sup> grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8<sup>th</sup> grade students & below are included in the totals.  
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

**FOR ANY QUESTION ANSWERED "YES" IDENTIFY THE RESPECTIVE SPORT(S) AND DESCRIBE YOUR IMPLEMENTATION PLAN IN LINE (5).**

	<b>GIRLS</b> <b>(Yes / No)</b>		<b>BOYS</b> <b>(Yes / No)</b>
1. Based on the responses from your most recent student survey, is there sufficient interest to form a viable varsity interscholastic team for a sport not currently offered? If yes, what sport?	Yes Cross Country, Dance, Field Hockey (girls)		Yes Cross Country, Field Hockey (girls), Dance
2. Based on the responses from your most recent student survey, is there sufficient interest to form a viable junior varsity interscholastic team for a sport not currently offered and for which there is not sufficient interest to form a viable varsity interscholastic team? If yes, what sport?	No		No
3. Based on the responses from your most recent student survey, is there sufficient interest to form a viable freshman interscholastic team for a sport not currently offered and for which there is not sufficient interest to form either a viable varsity or junior varsity interscholastic team? If yes, what sport?	No		No
4. If you answered YES to question (1), (2), or (3), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	Yes Cross Country		Yes Cross Country

Remember, test three – full accommodation means addressing the unmet interest of the underrepresented sex (most likely girls), not the overrepresented sex (most likely boys).

<p><b>5. Describe your plans to address interest below:</b></p> <p>Cross Country- We will hold informational meetings to judge interest in having a team. During the 2020-2021 school year we tried to hold meetings but with being in school virtually we had no success in fielding a team. We will continue to judge interest for the 2021-2022 school year by holding informational meetings in the spring and if there is enough interest we will field a team for the 2021-2022 school year.</p> <p>Field Hockey (girls)- Fielding a girl's field hockey team is not feasible due to no schools in our geographic area offering the sport. As a school, we would not be able to fill out a reasonable schedule for competition.</p> <p>Dance- We will conduct an interest meeting to judge if there is enough interest to start a team. We attempted to hold informational meetings to gain interest in the 2020-2021 school year but students were virtual and there was not enough interest to field a team.</p>

**SCHOOL YEAR 2020-2021  
TITLE IX IMPROVEMENT PLAN  
Estill County**

**DIRECTIONS:**

1. For Column 1, indicate the intended area (Opportunities or Benefits) which needs improvement in order to achieve gender equity. For Column 2, write the suggested change or activities that will improve the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need improvement. However, the KHSAA strongly encourages schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program

COLUMN 1	COLUMN 2	COLUMN 3
SPECIFIC ITEM FOR IMPROVEMENT	PLAN FOR SUGGESTED CHANGE	START DATE AND COMPLETION DATE OF IMPROVEMENT
Continue to work on increasing the number of female participates; increasing the number of female participates in order to decrease the gap between male and female participants.	Increase the number of females participants by working with middle school and elementary schools on generating more interest in female sports. Promote more girls playing golf, soccer, volleyball, basketball, and softball. Along with those sports encourage enough participants to start a cross country team and dance team. Continue to try to find more ways to get more female participants.	Start: Jun 1, 2021 Complete: Apr 30, 2022
Continue to work with closing the gap in spending between male and female athletes.	The spending gap between male and female athletes is one hundred thirty-five dollars more spent on boys than girls. We have made great strides in the spending difference but the numbers for the 2019-2020 season are off due to having no spring sports due to COVID. Softball usually spends more money from their booster club but with no season they did not raise money or spend money. Travel expenses for spring sports were also lower due to COVID and no season. Girls golf did not spend as much as boys golf due to boys golf having more student athletes and tournament fees costing them twice as much as the girls.  We will hold a meeting with all coaches on the ways to improve spending or increase the spending with girls' sports. Discuss with all booster clubs the importance of spending limits and create a spending policy for all sports.	Start: Jun 1, 2021 Complete: Apr 30, 2022
Continue to search for new sports to add to the programs offered that would help to increase the number of female and participants.	There is a cross country coaching position available and we will conduct interest meetings to gauge interest from the student body if we have enough interest to start a team. Continue to promote female participation in sports such as volleyball, girls soccer, girls basketball, softball, track, and archery.	Start: Jun 1, 2021 Complete: Apr 30, 2022
Continue to maintain prime time dates for girl basketballs by either meeting the home requirements or the home/away primetime requirements.	Monitor scheduling of girls' and boys' basketball games to ensure that the girls maintain primetime requirements set forth by KHSAA.	Start: Jun 1, 2021 Complete: Apr 30, 2022
