

**KHSAA TITLE IX ANNUAL REPORT SUBMISSION  
STATUS REPORT  
2023-2024**

*KHSAA Form T65  
Revised 3/30/23*

School:	Highlands
KHSAA Audit Team Member:	Gary Lawson
Date:	May 28, 2024

Along with this T65 form, you have also received a copy of a revised Title IX Internal Audit Summary for this school. It is important that you review all of the details concerning the analysis of the report submitted.

The Internal Audit Summary will analyze parts 1 and 2 of the three-part test for Title IX compliance, based on a snapshot of the data on the date submitted. Those conclusions are listed. As a result of Covid 19, no determination will be made as to compliance with Test 3. Revisions have been made in this form to clarify the calculation of the underrepresented gender and ensure the preservation of the integrity of the foundational purposes of Title IX. The form also continues to contain notes made to help you determine how calculations were derived and detail the exclusion of certain elements related to Archery, Bass Fishing, and Esports which are true coed sport-activities.

In the first section you will note many factors such as per total participation, total expenditures, participant spending (per gender), and many other factors to be considered as you move forward with future planning. You will also note on Row 13, the determination of the underrepresented gender in your school. This is a critical element in determining Title IX compliance.

The Test 1 (traditionally called the “numbers” test) section again contains guidance as to the number of new participants in the underrepresented gender needed to meet this test. Explanatory notes in the right column should help verify the calculations, which were done by the system based on the submitted data.

The Test 2 (traditionally called the “recent history of expanding sport offerings for the underrepresented gender” test) section contains the information for Test 2 and the calculations were done solely by the system based on the submitted data.

The Test 3 (traditionally called the “accommodating interest and abilities” test) section contains the information for Test 3. This is determined by the audit team based on the analysis of the data provided.

At the bottom of the Title IX Internal Audit Summary is a summary conclusion as to whether or not the school appears to be in compliance with one of the three parts of the tests for Title IX compliance. If you have specific questions, feel free to contact Assistant Commissioner Darren Bilberry (dbilberry@khsaa.org or 859-299-5472) at the KHSAA.

*Special Note from Audit Staff (ignore if blank):*

**INFORMATION SUBMITTED IN THIS REPORT INDICATES THAT TOTAL ATHLETIC SPENDING FAVORS THE MALE PARTICIPANTS. THE SCHOOL IS CURRENTLY UNDER A CORRECTIVE ACTION PLAN WITH KHSAA TO ADDRESS THIS CONTINUING ISSUE.**

**SCHOOL YEAR 2023-2024**  
**ACCOMMODATION OF INTERESTS AND ABILITIES**  
**SUMMARY PROGRAM CHART**

KHSAA Form T1  
Rev. 5/11

**Participation Opportunities: Test One - Proportionality**

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	494	48.3%	503	45.9%
Row 2	BOYS	528	51.7%	593	54.1%
Row 3	Totals	1022	100%	1096	100%

Instructions: \*Number of 8<sup>th</sup> grade students & below used in Column 3 and Column 4 calculations: 180

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. \* In addition, should 8<sup>th</sup> grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8<sup>th</sup> grade students & below are included in the totals.  
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

**FOR ANY QUESTION ANSWERED "YES" IDENTIFY THE RESPECTIVE SPORT(S) AND DESCRIBE YOUR IMPLEMENTATION PLAN IN LINE (5).**

	<b>GIRLS</b> <b>(Yes / No)</b>		<b>BOYS</b> <b>(Yes / No)</b>
1. Based on the responses from your most recent student survey, is there sufficient interest to form a viable varsity interscholastic team for a sport not currently offered? If yes, what sport?	No		No
2. Based on the responses from your most recent student survey, is there sufficient interest to form a viable junior varsity interscholastic team for a sport not currently offered and for which there is not sufficient interest to form a viable varsity interscholastic team? If yes, what sport?	No		No
3. Based on the responses from your most recent student survey, is there sufficient interest to form a viable freshman interscholastic team for a sport not currently offered and for which there is not sufficient interest to form either a viable varsity or junior varsity interscholastic team? If yes, what sport?	No		No
4. If you answered YES to question (1), (2), or (3), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	No		No

Remember, test three – full accommodation means addressing the unmet interest of the underrepresented sex (most likely girls), not the overrepresented sex (most likely boys).

5. Describe your plans to address interest below:
<p>While we do have some interest in the following sports of field hockey and Lacrosse there is not enough interest, and it is not feasible when looking at the geographical concentration of teams in our area. We will continue to monitor this with informational meetings in the upcoming school year to gage any growing interest.</p>

TITLE IX IMPROVEMENT PLAN  
Highlands**

**DIRECTIONS:**

1. For Column 1, indicate the intended area (Opportunities or Benefits) which needs improvement in order to achieve gender equity. For Column 2, write the suggested change or activities that will improve the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need improvement. However, the KHSAA strongly encourages schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program

SPECIFIC ITEM FOR IMPROVEMENT	PLAN FOR SUGGESTED CHANGE	START DATE AND COMPLETION DATE OF IMPROVEMENT
T41 Form Advantage---Equipment and Supplies: Advantage Boys	After conducting a self-study of like teams in our athletic department we have found we are out of compliance in a few areas. Within the basketball programs these areas include booster awards as well as travel and per diem. We define awards as anything given to the athletes such as gear like sweatshirts, warmup jerseys, and bags. During the season, our boy's basketball team purchased sweat suits for the entire team and two sets of uniforms (out of rotation) totaling around \$14,000. Going forward each program will be reminded about the uniform rotation and be expected to adhere to rotation unless extenuating circumstances arise. Additionally, any booster purchase exceeding \$400 will require approval by the athletic director and principal. If the dance program were taken into account, the disparities between boys and girls athletic spending would be significantly less as dance accounted for nearly \$90,000.	Start: May 1, 2024 Complete: May 1, 2025
T41 Form Advantage---Travel and Per Diem: Advantage Boys	In regards to travel and per diem, during the season our boy's basketball team participated in two holiday tournaments requiring travel and other expenses while our girls' basketball team played in one local tournament incurring only minor expenses and one tournament requiring travel. This is responsible for the discrepancies in the spending between the programs. Looking at travel and per diem for the baseball and softball programs we have also found discrepancies. During the baseball season the team traveled for a spring break tournament in South Carolina. Our softball team decided to remain in the area playing in local tournaments and incurring very minimal fees, explaining the differences in spending between the programs. Equipment costs for these programs also has some deficits. Our baseball team purchased a new high-end pitching machine which is a major factor in this as well as the inflation in the costs of baseballs which we require more replacements of than with our softballs. Our golf programs differences in costs are due to the amount the boys team travels and the additional tournaments they were able to play in compared to the girls' team. The boys's™ team also traveled further for many tournaments than the girls's™ team. We will be strongly encouraging our female teams to parallel travel costs of their male counterparts. We have already begun to implement these actions and our softball team has participated in two consecutive travel tournaments as well as our girls's™ basketball team having a major travel tournament planned in the near future.	Start: May 1, 2024 Complete: May 1, 2025
