

**KHSAA TITLE IX ANNUAL REPORT SUBMISSION
STATUS REPORT
2023-2024**

KHSAA Form T65
Revised 3/30/23

School:	Holy Cross (Louisville)
KHSAA Audit Team Member:	Kathy Johnston
Date:	June 12, 2024

Along with this T65 form, you have also received a copy of a revised Title IX Internal Audit Summary for this school. It is important that you review all of the details concerning the analysis of the report submitted.

The Internal Audit Summary will analyze parts 1 and 2 of the three-part test for Title IX compliance, based on a snapshot of the data on the date submitted. Those conclusions are listed. As a result of Covid 19, no determination will be made as to compliance with Test 3. Revisions have been made in this form to clarify the calculation of the underrepresented gender and ensure the preservation of the integrity of the foundational purposes of Title IX. The form also continues to contain notes made to help you determine how calculations were derived and detail the exclusion of certain elements related to Archery, Bass Fishing, and Esports which are true coed sport-activities.

In the first section you will note many factors such as per total participation, total expenditures, participant spending (per gender), and many other factors to be considered as you move forward with future planning. You will also note on Row 13, the determination of the underrepresented gender in your school. This is a critical element in determining Title IX compliance.

The Test 1 (traditionally called the “numbers” test) section again contains guidance as to the number of new participants in the underrepresented gender needed to meet this test. Explanatory notes in the right column should help verify the calculations, which were done by the system based on the submitted data.

The Test 2 (traditionally called the “recent history of expanding sport offerings for the underrepresented gender” test) section contains the information for Test 2 and the calculations were done solely by the system based on the submitted data.

The Test 3 (traditionally called the “accommodating interest and abilities” test) section contains the information for Test 3. This is determined by the audit team based on the analysis of the data provided.

At the bottom of the Title IX Internal Audit Summary is a summary conclusion as to whether or not the school appears to be in compliance with one of the three parts of the tests for Title IX compliance. If you have specific questions, feel free to contact Assistant Commissioner Darren Bilberry (dbilberry@khsaa.org or 859-299-5472) at the KHSAA.

SUMMARY PROGRAM CHART

KHSAA Form T1
Rev. 5/11

Participation Opportunities: Test One - Proportionality

		(Column 1)	(Column 2)	(Column 3)	(Column 4)
	Program	Enrollment	Percentage of Total Enrollment	Number of Interscholastic Participants (double and triple count)	Percentage of Total Participation
Row 1	GIRLS	124	48.4%	210	46.0%
Row 2	BOYS	132	51.6%	247	54.0%
Row 3	Totals	256	100%	457	100%

Instructions:

*Number of 8th grade students & below used in Column 3 and Column 4 calculations: 0

- 1) Determine the total number of girls enrolled, (place in Row 1, Column 1). Determine the total number of boys enrolled, (place in Row 2, Column 1).
- 2) Add the total number of girls and boys enrolled to determine total enrollment, (place in Row 3, Column 1).
- 3) Calculate the percentage of total enrollment that is female. (Divide Row 1, Column 1 by Row 3, Column 1 and place in Row 1, Column 2.) Calculate the percentage of total enrollment that is male. (Divide Row 2, Column 1 by Row 3, Column 1 and place in Row 2, Column 2.) Note: Row 1, Column 2 plus Row 2, Column 2 should total 100%.
- 4) Ask coaches to confirm the names of those individuals who are on the team as of the first **date of regular season competition**, and cross out the names of those who were cut from the team or quit the team prior to the first regular season competitive event. Determine the total number of interscholastic athletics participants that are girls, (and place in Row 1, Column 3). In order to determine the total number of athletics participants, an individual should be counted each time he or she participates on a team. For example, if Jane Doe competes on the varsity volleyball team, the junior varsity volleyball team, the junior varsity basketball team, and the varsity softball team, she should be counted as four participants (**do not include club or intramural sports participants, cheerleaders, dance teams, or pom squads**). Calculate the same way for boys and girls. * In addition, should 8th grade students and below play on a Freshman, Junior Varsity, or Varsity team, they should also be counted for each team and sport on which they participate. If applicable, please asterisk in the above notation as to how many 8th grade students & below are included in the totals.
Using the same procedure, determine the total number of interscholastic athletic participants that are boys, (and place in Row 2, Column 3). Add Row 1, Column 3 plus Row 2, Column 3 to get total participants and place in Row 3, Column 3.
- 5) Calculate the percentage of female participation. (Row 1, Column 3 divided by Row 3, Column 3 and place in Row 1, Column 4.) Calculate the percentage of male participation. (Row 2, Column 3 divided by Row 3, Column 3 and place in Row 2, Column 4.) Note: Row 1, Column 4 plus Row 2, Column 4 should total 100%.

Note: While being within three percent is not a formal compliance standard, if the percent listed in Row 1, Column 4 is within 3% of Row 1, Column 2, then it provides a good target within which compliance is likely.

Participation Opportunities Test Three Full Accommodation

FOR ANY QUESTION ANSWERED "YES" IDENTIFY THE RESPECTIVE SPORT(S) AND DESCRIBE YOUR IMPLEMENTATION PLAN IN LINE (5).

	GIRLS (Yes / No)		BOYS (Yes / No)
1. Based on the responses from your most recent student survey, is there sufficient interest to form a viable varsity interscholastic team for a sport not currently offered? If yes, what sport?	Yes Swimming, Wrestling, Bass Fishing		Yes Swimming, Wrestling, Bass Fishing, Boys Volleyball
2. Based on the responses from your most recent student survey, is there sufficient interest to form a viable junior varsity interscholastic team for a sport not currently offered and for which there is not sufficient interest to form a viable varsity interscholastic team? If yes, what sport?	No		No
3. Based on the responses from your most recent student survey, is there sufficient interest to form a viable freshman interscholastic team for a sport not currently offered and for which there is not sufficient interest to form either a viable varsity or junior varsity interscholastic team? If yes, what sport?	No		No
4. If you answered YES to question (1), (2), or (3), are there enough high schools in the geographic area offering the sport (at the appropriate level) to allow for the development of a reasonable schedule of competition?	Yes Scheduling would not seem to be an issue		Yes Scheduling would not seem to be an issue.

Remember, test three – full accommodation means addressing the unmet interest of the underrepresented sex (most likely girls), not the overrepresented sex (most likely boys).

<p>5. Describe your plans to address interest below:</p> <p>As an athletic department, we put together a survey/sign-up to our student-body at the beginning of the school year in order to determine student-interest in sports that we may not currently offer at Holy Cross. The results from this Title IX survey did not match the results of the sign-up that we performed at the beginning of the school year so this will allow us to explore further what sports offerings that we could allow for next year.</p> <p>One sport that is not listed on this survey for girls but there has been discussion about the KHSAA considering for the future would be flag football. I have no doubt that we could add that sport based on student-interest. These other sports (where interest was expressed from this survey), we will begin discussions about the possibilities for these as well. Bass-fishing is a sport that we offered prior to COVID that we have not been able to bring back since the pandemic due to lack of interest but with this survey it looks like the interest may truly be there. The challenge we have faced at a small school is that some of the interest expressed in this survey is from student-athletes who play another sport in the same season as another sport that we may potentially offer. In a vacuum, I think the interest may be there in some sports but the desire to play two sports in the same season keeps some of them from signing up when official sign-ups are held. As an athletic department, we will continue to explore those offerings for expansion and growth of our athletic department.</p>

TITLE IX IMPROVEMENT PLAN
Holy Cross (Louisville)**

DIRECTIONS:

1. For Column 1, indicate the intended area (Opportunities or Benefits) which needs improvement in order to achieve gender equity. For Column 2, write the suggested change or activities that will improve the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need improvement. However, the KHSAA strongly encourages schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program

COLUMN 1	COLUMN 2	COLUMN 3
SPECIFIC ITEM FOR IMPROVEMENT	PLAN FOR SUGGESTED CHANGE	START DATE AND COMPLETION DATE OF IMPROVEMENT
T41 Form Advantage---Equipment and Supplies: Advantage Boys	The equipment advantage after evaluating the expenditures seems to come heavily from expenditures within our football program. We had 2 new sets of uniforms for the 2023 football season which was a major expense. Our football expenses are usually high because we try to have our major football expenditures (uniforms, helmets, shoulder pads, etc.) come up in different years so that we are not too stretched in our fundraising. All of our athletic programs are on a uniform rotation of four years to make sure that we have quality uniforms in good conditions for our student athletes. The only time we differ from this rotation is if a set of uniforms deteriorate quicker due extenuating circumstances. At that point, the athletic department would make the ultimate decision if uniforms can be purchased earlier.	Start: Jul 1, 2024 Complete: Jun 30, 2026
T41 Form Advantage---Travel and Per Diem: Advantage Boys	The travel expenditures were skewed because 2 of our male programs (boys' basketball and baseball) took out-of-town holiday/spring break trips. Our baseball program takes a yearly spring break trip to Florida while our softball program elects to take Spring Break week off from softball games to travel with family or friends. In regard to our boys' basketball trip, this program had not taken a Florida trip since the 2017-18 season so this trip had been saved for for several years. We encourage and help all of our programs if financially feasible to try to set fundraising monies aside yearly in order to be able to take some kind of out-of-town trip at least once every four years to make sure all of our student-athletes have that experience. Our goal is to provide all of our male and female student-athletes with the best possible experience within financial reason.	Start: Jul 1, 2024 Complete: Jun 30, 2026
