Title IX Self Review 2004

1. The last couple of seasons the Augusta High School girl's basketball team has just consisted fo a Varsity team because of a low number of players. Starting with the beginning of the 2004-2005 season we will once again field a junior varsity basketball team as well.
2. According to our last couple of interest surveys we have had a lot of girls interested in playing Volleyball. To accommodate them this past season, we put a junior high team together and played in a spring league with 4 other local schools. For next season, we are having our gym floor fixed to include volleyball lines and holes in the floor for standards. We will also play a junior varsity schedule this upcoming season.
3. One area that has become a concern the last couple of years was the quality of our junior high basketball uniforms. We have already ordered both the girls and boys junior high teams a new set of 15 uniforms for the start of their next season. We were able to get both sets for \$100.00 a uniform.
