Assistant Commissioner, KHSAA

From: Marlon Miller
Athletic Director, Central High School

Re: Title IX Re-Visit

The purpose of this memo is to address the items that were deemed deficient on my Title IX Re-visit on January 30, 2014 conducted by Gary Lawson and Sharon Tippett.

1. The first deficiency was in the area of accommodation of interests and abilities: According to the recent student surveys there was interest in the sports of bowling, golf, and tennis. There were several announcements made over the intercom and the sport that students showed interest was bowling. As a result we will attempt to start a bowling team in the fall of 2014. I have posted the job on the JCPS website.
2. The second deficiency was on the softball field where a fence is being installed by JCPS at the beginning of the 2015 season. I am aware we were supposed to have the fence installed by this season but our budget did not allow for the school to purchase a fence this season and JCPS donated a fence. An area of fencing has already been installed in the back area of the school that will store the fence once the season is over. Also the softball field does not have lights and the baseball field we rent at Shawnee Park does have lights. However, after talking to my Principal the school currently does not have the funds in the budget to purchase lights for the softball field.
3. The locker rooms in the swimming pool will be designated for our swim team starting in the 2014-15 season.

Thank you,
