

Dixie Heights High School

KHSAA Recommended Action

Accommodation of Interests and Abilities

The Student Interest Survey was administered on April 18th, 2014 to all 1st Period classes and to incoming freshman at our main feeder school, Turkeyfoot Middle School. There were 1260 surveys handed out and 1208 were completed. The results were compiled by a math class and were input on T63 Form. Dixie Heights took steps to ensure that we met the 80% minimum and are now compliant with Accommodation of Interests and Abilities.

DIXIE HEIGHTS ATHLETICS

Sharon,

Dixie already has archery and Lacrosse teams. We are planning on having a bass fishing team next year. If you have any questions let me know.

Thanks,

Matt

Subject: Title IX Audit

Matt,

Thanks for submitting the requested documents to the KHSAA. I am sending you this email to remind you to send documents of the procedure that will be followed as a result of the student survey.

In the area of Accommodation of Interests and Abilities, the student interest survey procedure was deficient as observed at our Title IX visit on December 17, 2013. I saw in your annual report submitted April 30, that recent survey results were very good and you have corrected that part of the deficiency. I encourage you to check again the interest shown in three sports, archery, bass fishing, and LaCrosse and follow up with the three step approach in determining if these interests are genuine. Document the steps of meetings (students and parents), and feasibility. If the school board has said no to any of these sports, please document that as well.

Please submit your plans as soon as possible as to when the follow-up procedures will be conducted. Hopefully, you can have student interest meetings this spring before school closing and if needed, parent meetings early this summer or early next fall.

If you have questions, my cell phone # is 859-533-2721.

Thanks for your cooperation.

Sharon Tippett,

Title IX Auditor
