A presentation was made concerning the need for repair and renovation to the present softball field. The Board informed Mr. Howard three weeks later, that it had found an additional \$15,000.00 to make needed repairs. Ground work began on February 23, 2001 and continues.	April 15, 2001 should be a target date for many improvements.

In connection with the audit, it was mentioned that Cumberland High School had not conducted surveys of its student population to determine their athletic interests. In addition to performing accurate student surveys, the school should immediately address its softball facilities and equipment issues, the exclusive use of the weight training facility by the football team, and the overall cleanliness of its locker rooms, offices and fields.

ORIGINAL VISIT.

Evarts High School

The inspection of locker rooms and facilities at Evarts High School commenced at approximately 9:15 a.m. The tour was conducted by Wallace Napier, Principal at Evarts. At the outset of the meeting, the gymnasium, which is the oldest gym in Kentucky (constructed in approximately 1933) was visited. The gym has a parquet floor. Walls appear to have been recently painted in preparation for the upcoming district basketball tournaments. The boys' basketball locker room is located in the basement of the gymnasium. The boys' coach's office is located adjacent to the locker room and contains a couch, desk and television. The locker room is carpeted and contains wooden lockers. In addition, a washer and dryer, which is used for boys' and girls' teams is located inside the boys' locker room area. It was noted that a school custodian washes both boys' and girls' uniforms here. In addition, the locker room has shower facilities.

Next on the tour was the girls' basketball locker room. Although it is comparable, this locker room is not quite as large or as nice as the boys' locker room. It does, however, contain wooden lockers and the same type of plastic chairs located in the boys' locker room. In addition, there are three showers inside this locker room.

The coach's office for the girls' team is not adjacent to the locker room. Instead, it is across the floor near the stage area. There is a good deal of noise from nearby equipment. Girls' uniforms were observed in plastic crates inside the coach's office. In addition, basketballs were scatter on the floor.

Although the school does not have a track or cross-country team at the present time, the school has had successful teams in the past. These teams practiced on the blacktopped parking lot located to the rear of the school.

The school has a weight room which is used by both boys' and girls' teams. (However, the schedule located on the wall of the locker room indicated that only boys were using the weight room.) The weight room contains free weights as well as machine weights. It was noted that several pieces of equipment were scheduled to be repaired (new upholstery).

After touring the facilities located on campus, Evarts football field, which is adjacent to an elementary school and located approximately one mile from the main campus was visited. The football field has lights, concessions stands and restrooms. A field house is located adjacent to the football field. It was noted that the baseball team also uses the field house as a dressing area. The field house has large lockers, a T.V. and video equipment. A coach's office is located adjacent to the locker room. The

Evarts High Schools Response to Title IX Report

Submitted to Evarts HS
Received on July 31, 2001

Items 3 Prime Time Games

The Evarts High School Site Base Decision Making Council will adopt a policy toward athletic scheduling of girls/boys basketball games to be played in prime time. The policy will state that all basketball scheduling in the 2002 season will demonstrate a 50% match with boys and girls in "Prime Time". This policy will be presented and voted on at the August 13th Meeting. Since this report is due on August 15th. The minutes of the committee meeting and resulting vote and policy wording will be forwarded to the KHSAA on August 14th., subsequent to the mailing of this report.

Item 5 Girl/Boys Weight Room

KHSAA's perception that the weight room was not accessible to the girls must have come from an earlier site visit, where notes indicated that there was only a boys weight room schedule present on the wall. The Evarts weight room has always been available at any time slot to girls and boys alike. We have not made a policy of segregated use of the weight room, it has always been CO-ED facility. The fact that there is a schedule of activities on the wall only indicates coaches schedule for their team to be present at that day. Not that anyone is excluded if they choose to use it. However we have attached here a schedule to be used in the Fall and Spring by our Girls and Boys.

Item 8 Sufficient opportunities for female athletes

Evarts High School is presently practicing and plans to participate in Volleyball. The County Board of Education has provided \$5,000 to start up the program at Evarts. This will add @ 40 athletes to Evarts playing JV and Varsity Volleyball. We have hired a Freshman Girls Basketball coach that will give Evarts three levels of play JV, Freshman, Varsity, that will account for @ 32 more athletes to Girls Basketball. Evarts will add @ 10

more athletes to its count by adding a JV Cross Country team and will add a freshman and JV softball team this season. Which will account for @ 20 more athletes counted toward Evarts High School's "Accommodation of Interests" The softball team was given \$15,000 to upgrade their softball field. The present head coach Kim Evans was given full responsibility by the county board and the Evarts Site Base Council to spend the funds toward this goal. A group of pictures of the field is attached to this report. I have already indicated to the County Board and they have agreed that a girls Soccer team added to Harlan County's athletic schedule for 2002 fall season.

Evarts could recognize as much as a 50% increase in female participation in the 2002 school year. I feel that by the time we present our annual report for the 2001-2002 season at this years end. We will show a major increase of female athletes at Evarts High.

Another student survey will be taken to determine the needs of the female population at Evarts High School. This survey will be done during October of this year 2001 and results will be sent to the KHSAA to be put on file. Results of the survey will give us some indication what we may offer for the 2002-2003 season.

By September 15, 2001 Evarts will be submitting a new GE19 form. Annual Verification of Title IX Procedures. We had a number of people retire and moved away that was on the original committee and new people have to be added.
