Planned discussion w/ Vicki Bolin, AD
Explained the effect of so much flexibility
on benefits awarded all athletes.
Recommended generation of a central
awards policy for the school which
would ensure equal access to the
awards system for all S/As. Recommended
including a limit on the number
of awards + the insurance that
\$ for awards not be left up to
fundraising for some teams +
not others.

Policies should also include
access to banquets or other special
events by S/As on an equal basis
as consensus gender.

Explanation of Awards

In the recent Title IX report the girls basketball team was found to have an unusually high amount spent on awards. In the report, a fund raiser for both boys and girls basketball was reported in the awards category. At this fund raiser multiple cash awards and prizes were given away to those who bought tickets and attended the fund raiser. The money was reported in the girls account because the girls basketball coach took care of all the arrangements and money. The money was split equally among the boys and girls. The amount should have been split in half between the boys and girls programs.

*Responsibility allocated
between boys & girls
basketball program*

The golf and tennis programs have the opportunity to use the one-hundred dollars allotted to them by the school to spend on awards as specified in school policy. These programs chose not to give any athletic awards during the reporting year. That is why no awards were reported in the report.

McLean County Team Athletic Award Policy

Every team sport will be allotted one-hundred dollars to spend on team awards. That amount will be taken out of the general athletic fund. There are no set limits on amount to be spent on awards. However, any amount spent on awards over one-hundred dollars will be paid for by that said team (i.e. budget, fund).

CORRECTIVE ACTION PLAN

DIRECTIONS:

1. For Column 1, indicate the intended area which needs corrective action in order to achieve gender equity. For Column 2, write the suggested change or activities that will correct the area in need of alteration. For Column 3, include the estimated completion date for the changes or activities.
2. It is possible to attain compliance with Title IX and no longer need "corrective" action. However, the KHSAA strongly encourages compliant schools to identify items for improvement (Column 1), activities to accomplish the improvement (Column 2) and a timetable for completion (Column 3) that will strengthen the athletic program.
3. You may copy this form as needed. Please attach corrective action plans along with audit forms and submit by April 15, 2005.
