Based on student responses from your most recent Student Interest Survey, is there enough interest to form a viable interscholastic team for a sport not currently offered? If yes, what sport?

Yes – Archery 153 Boys 102; Girls 51

Bowling 76 Boys 39; Girls 37

For a sport not currently offered in your interscholastic athletics program, is there sufficient interest to form a viable interscholastic team based on participation on an intramural team or community recreation teams?

Yes - Archery

Are there enough high schools in your geographic area offering the sport (at appropriate level) to allow for the development of a reasonable schedule of competition?

Yes – Archery

Yes - Bowling

Students were asked to meet after school to show their interest in Bowling and Archery. The meeting was held 4/22/14 in the school's media center.

Archery - 10 students were present and expressed interest in Archery

Bowling - 5 students were present and expressed interest in Bowling

Based on the low interest in Bowling, it is determined that there is not enough interest to pursue the formation of a bowling team at Ohio County at this time. Interest will continue to be monitored in the future for the implementation of bowling.

Archery – a meeting was held (4/15) for students and their parents to determine if there is a valid interest to establish an archery team at Ohio County High School. 17 parents along with their students attended and expressed interest in Archery.

Based on the interest show at this meeting, it was determined that sufficient interest is shown to implement Archery as a competitive event at Ohio County High School. Based on this information and the recommendation of the superintendent, the Ohio County Board of Education will be asked to approve Archery as a competitive event at the May 2014 board of education meeting.
