- Mr. Bilberry I failed to report on my T-3 form on the Title IX report about the updated interest of swimming at our school.
- For the past 2 years I have a meeting at the beginning of each year to find out how many students are interested in swimming for the new school year.
- In 2015-16 we had 3 interested, all males, but later 2 lost interest when the season approached.
- This year we had a total of 2, again both males and again only 1 remained interested later.
- I will try again at the beginning of the next school year with the survey report that is included with next year's Title IX report.
- I am sorry if this caused any inconvenience.
