The following steps have been taken to secure the current weight facility adjacent to the football dressing room:

1. The side entrance to the weight room is an available entrance to be used by any team desiring access to the weight facility during their scheduled time.
2. The door separating the football dressing room and the weight facility has had a lock installed which requires a key for entrance on either side. This will prevent any student athlete from accessing either side of the facility without a Supervisor with the key.

Guidelines for equity of awards and post season banquets for student athletes.

The athletic program at West Carter High School will recognize the achievement of all student-athletes that participate in varsity sports. Each team will host an appropriate event to recognize the achievement of these athletes.

The school will issue certificates for athletic participation to recognize those students that letter in a varsity sport. Lettering requires participation in at least half of the varsity games per year.

Additional awards may be purchased by the team's booster clubs. The maximum amount that may be spent for individual student-athletes may not exceed \$40. This does include meals and any type of awards.

The Principal and Athletic Director will monitor the booster clubs to assure equity in spending for all athletic banquets and awards.
